Rise Fall Of English:

The Rise and Fall of English Robert Scholes, 2008-10-01 In this lucid book an eminent scholar teacher and author takes a critical look at the nature and direction of English studies in America Robert Scholes offers a thoughtful and witty intervention in current debates about educational and cultural values and goals showing how English came to occupy its present place in our educational system diagnosing the educational illness he perceives in today's English departments and recommending theoretical and practical changes in the field of English studies Scholes's position defies neat labels it is a deeply conservative expression of the wish to preserve the best in the English tradition of verbal and textual studies yet it is a radical argument for reconstruction of the discipline of English The book begins by examining the history of the rapid rise of English at two American universities Yale and Brown at the end of the nineteenth and beginning of the twentieth century Scholes argues that the subsequent fall of English discernible today in college English departments across the United States is the result of both cultural shifts and changes within the field of English itself He calls for a fundamental reorientation of the discipline away from political or highly theoretical issues away from a specific canon of texts and toward a canon of methods to be used in the process of learning how to situate compose and read a text He offers an eloquent proposal for a discipline based on rhetoric and the teaching of reading and writing over a broad range of literatures a discipline that includes literariness but is not limited to it

English Intonation PB and Audio CD J. C. Wells, 2006-08-31 Intonation the rise and fall of pitch in our voices plays a crucial role in how we express meaning This accessible introduction shows students how to recognize and reproduce the intonation patterns of English providing clear explanations of what they mean and how they are used It looks in particular at three key functions of intonation to express our attitude to structure our messages to one another and to focus attention on particular parts of what we are saying An invaluable guide to how English intonation works it is complete with extensive exercises drills and practice material encouraging students to produce and understand the intonation patterns for themselves The accompanying CD contains a wealth of spoken examples clearly demonstrating English intonation in context Drawing on the perspectives of both language teaching and linguistics this textbook will be welcomed by both learners of English and beginning undergraduates in phonetics and linguistics

A Manual of English Phonetics and Phonology Paul Skandera, Peter Burleigh, 2005 This is a fully integrated course book aimed at university students of English in the German speaking region It presents a staged and clearly developed introduction to the theory of pronunciation combined with a wealth of transcription exercises and an accompanying CD The book requires no prior knowledge of linguistics From the outset it explains key concepts in easy to understand language highlights key terms in the text for easy review and gives translations of many of the terms into German Additionally a glossary provides students with a handy quick reference A special feature of the book is that particular attention is given to areas the authors have experienced as challenging for students such as the difference between phonetics and phonology inconsistencies in terminology and

different transcription conventions The transcription exercises guide students from exploratory tasks to basic transcription to the more demanding transcription of natural dialogue and all exercises are supplied with annotated solutions The book is carefully divided into lessons and exercises which can be managed in 12 two hour classes leaving enough time for review and examination in a university term of 14 weeks or more Despite its clearly defined scope the book also prepares the students for the study of other languages or for courses in general linguistics through its general approach and frequent references to other languages As an independent and fully integrated course A Manual of English Phonetics and Phonology presents the teacher with a valuable class ready resource and the student with a stimulating attainable and insightful introduction to the study of linguistics in general and phonetics and phonology in particular

Adverbs and Modality in English Leo

Hoye,2014-06-03 This new study on modality in English represents a departure from more traditional approaches to the subject where the modal auxiliaries have been the usual focus of attention by examining in detail the nature of their association with different categories of modal adverb Modality is notoriously complex but the present work offers an accessible introduction to the topic a comprehensive account of modal adverb co occurrence and a reappraisal of the English modal system The descriptive framework draws fresh insights from syntactic semantic and pragmatic approaches to the study of language and communication and from recent work in corpus linguistics The book includes contrastive reference to the expression of modality in Spanish and a discussion of modality in such applied contexts as language teaching A major feature is its reliance on authentic spoken and written language data The study is suitable for undergraduate and postgraduate students of linguistics English language communications studies and related disciplines

Порівняльна

типологія української та англійської мов. Корунець І. В.,2004 1995 Applied English Phonology Mehmet

Yavas,2015-11-16 Now fully updated with the latest research and references the third edition of Applied English Phonology provides a detailed accessible introduction to the English sound system Discusses the fundamental concepts of English phonology from phonetic elements phonemics and allophonic rules of English consonants and vowels to phonotactics stress and intonation Includes new coverage of waveform analysis bilingual phonology code switching and loan phonology Expands discussions of L1 contrastive phonological structures and markedness Supports students and instructors with sound files for transcription exercises and an instructor s manual available upon publication at www.wiley.com/go/yavas3e *Pronouncing English* Richard V. Teschner,Melvin Stanley Whitley,2004 Pronouncing English is a textbook for teaching English phonetics and phonology offering an original stress based approach while incorporating all the standard course topics Drawing on current linguistic theory it uniquely analyzes prosody first and then discusses its effects on pronunciation emphasizing suprasegmental features such as meter stress and intonation then the vowels and consonants themselves Distinguished by being the first work of its kind to be based on an exhaustive statistical analysis of all the lexical entries of an entire dictionary Pronouncing English is complemented by a list of symbols and a glossary Richard Teschner and M Stanley Whitley present an

improved description of English pronunciation and conclude each chapter with suggestions on how to do a better job of teaching it An appendix with a brief introduction to acoustic phonetics the basis for the perception vs the production of sounds is also included Revolutionary in its field Pronouncing English declares that virtually all aspects of English pronunciation from the vowel system to the articulation of syllables words and sentences are determined by the presence or absence of stress The accompanying CD ROM carries audio recordings of many of the volume s exercises more than 100 text and sound files and data files on which the statistical observations were based

English Phonetics and Phonology Paperback with Audio CDs (2) Peter Roach,2009-03-26 Since the publication of the first edition in 1983 this course has established itself as the most practical comprehensive text in the field and become widely used in many parts of the world in universities and other institutions of higher education This new edition takes into account recent developments in the teaching of phonology It includes updated references fuller coverage of intonation and a new chapter on different varieties of English with illustrative recorded material At the end of each chapter in the book there are notes giving information on further reading discussion of the more challenging issues written exercises and where appropriate suggestions for teachers In addition the audio CDs include recorded exercises for every chapter which are particularly helpful for non native speakers A full answer key is available at the back of the book Additional exercises and other supporting material are available online

An Introduction to English Language Koenraad Kuiper,W. Scott Allan,2024-02-22 Refreshed and updated the fifth edition of this core textbook offers a clear and engaging introduction to the building blocks of the English language namely its words sounds and sentences Assuming no prior knowledge it combines accessibility with depth offering detailed explanations of key topics and theories including variation in vocabularies the International Phonetic Alphabet and relevance theory in relation to pragmatics Packed full of exercises to help consolidate learning and equipped with examples and illustrations throughout An Introduction to English Language is essential reading for undergraduate students of English language and linguistics and a valuable resource for students and teachers of English as a second or foreign language This new edition features An enhanced text design Updated examples Refreshed illustrations New and improved exercises Revised further reading lists The book is divided into three parts with succinct overviews and clearly defined learning outcomes at the start of each section followed by glossaries of technical terms at the end It is also accompanied by a wealth of online resources including downloadable PowerPoints MP3 audio files MP4 video lectures and quizzes further supporting

readers in achieving their goals **English Pronunciation for Speakers of Spanish** María de los Ángeles Gómez González, Teresa Sánchez Roura, 2016-01-15 English Pronunciation for Speakers of Spanish fills a gaping hole in the market for books on English phonetics and pronunciation because it not only combines theoretical issues and applications to practice but it also adopts a contrastive English Spanish approach to better suit the needs of Spanish speaking learners of English SSLE enabling them to build gradually on the knowledge gained in each chapter The book covers the key concepts of English phonetics and phonology in seven chapters written in an accessible and engaging style 1 Phonetics and Phonology 2 The Production and Classification of Speech Sounds 3 Vowels and Glides 4 Consonants 5 Segment Dynamics Aspects of Connected Speech 6 Beyond the Segment Stress and Intonation 7 Predicting Pronunciation from Spelling and vice versa Features in text audio illustrations as well as over a hundred written and audio exercises with corresponding keys and different kinds of artwork Tables Figures illustrations spectrograms etc classic readings in the discipline in the Further Reading section of each chapter highlights the phonetic contrasts and specific cues that are more important to aid comprehension in English and offers guidelines on correct pronunciation habits to help SSLE sound as close as possible to native English The book's companion website EPSS Multimedia Lab can be used on computers smartphones and tablets and is useful for the self taught student and the busy lecturer alike The website of the EPSS Multimedia lab can be accessed here <http://www.usc.gal/multimlab> Features of the website a complete sound bank defining and illustrating the sounds of English RP as compared with those of Peninsular Spanish written definitions and animated diagrams videos and original recordings by native speakers of English and Spanish showing the articulation of each sound alongside its most common spellings as well as pronunciation practice for individual words and whole sentences a comprehensive selection of over a hundred written and audio exercises with their keys for practice both at home or in the language lab audio files corresponding to the audio illustrations given in the written book a repository of useful resources by topics and a list of online glossaries and pronunciation dictionaries *Readings in English Phonetics and Phonology* María Inmaculada Arboleda-Guirao, Inmaculada Arboleda-Guirao, 2014-06-11 The teaching of the phonetics and the phonology of British English to undergraduate students is often based on a bare uncritical presentation of facts as they are usually portrayed in classic publications such as Gimson Cruttenden Collins Mees Roach Car etc While they present a welcome canonical view of language there is a danger that students will end up holding a quasi dogmatic opinion of the phonology of English with little awareness of other views and approaches In an attempt to overcome this limitation the contributors to this volume have tried to combine theory and praxis in tackling different aspects of the phonology of English The result is this book of readings which will hopefully provide students with reliable and up to date information on key issues both at segmental and supra segmental level **The Intonation Systems of English** Paul Tench, 2015-12-17 Tench provides an introduction to the current state of functional linguistics studies in the intonation of English Intended not only for students of linguistics and English language the book

also contains information ideal for consideration by language teachers speech therapists drama students and other professions that rely heavily upon the spoken word

Convergence: English and Nigerian Languages Ozo-mekuri Ndimele, 2016-02-22 The present volume which is the 5th in the Nigerian Linguists Festschrift Series is devoted to Professor Munzali A Jibril a celebrated icon in university administration and an erudite Professor of English Linguistics The title of this special edition was specifically chosen to crown Professor Jibril's academic prowess in both English and indigenous Nigerian languages and to mark and laud his official departure from active university lectureship 72 assessed papers are included from the many submitted Papers cover the main theme of the volume i.e the interaction between English and indigenous Nigerian languages and there are a number of papers on other secular areas of linguistics such as language and history language planning and policy language documentation language engineering lexicography translation gender studies language acquisition language teaching and learning pragmatics discourse and conversational analysis and literature in English and African languages There is also a rich section devoted to the major traditional fields of linguistics phonology morphology syntax and semantics

A Corpus of Formal British English Speech Gerry Knowles, Lita Taylor, Briony Williams, 2014-07-22 This work provides 50 000 words of prosodically transcribed text from a variety of sources The introduction explains fully the transcription conventions the structure of the corpus and its relationship to other computer corpora and provides examples of different versions of texts

Hong Kong English Jane Setter, 2010-08-31 This volume provides an overview of all aspects of Hong Kong English in a style designed for undergraduates and general readers As a former British colony Hong Kong used English as the language of government law and education in the early days of colonial rule Since the Handover from British to Chinese rule in 1997 it is no longer used as the primary language of government However the status of English has survived the decline of colonial rule as English has become an international language which is indispensable for a service oriented economy such as present day Hong Kong Its use is still widespread in legal contexts and English is the medium of instruction in at least a quarter of secondary schools Outwith the realm of education English is important as a means of international communication in the fields of banking and finance business and in the tourism and hospitality industry English is therefore integrated into Hong Kong life in various ways and this has resulted in a thriving and developing variety of English This book describes English in Hong Kong as a linguistic phenomenon from the point of view of language structure but also takes into account historical socio cultural and socio political developments

Intonation, Accent, and Rhythm Dafydd Gibbon, 1984 No detailed description available for Intonation Accent and Rhythm

A Functional Discourse Grammar for English Evelien Keizer, 2015 This is the first textbook on Functional Discourse Grammar a recently developed theory of language structure which analyses utterances at the pragmatic semantic morphosyntactic and phonological level It focuses principally on English and provides extensive exercises for students to use and evaluate the theory

Prosody and Language in Contact Elisabeth Delais-Roussarie, Mathieu Avanzi, Sophie

Herment,2015-02-18 This volume provides new insights into various issues on prosody in contact situations contact referring here to the L2 acquisition process as well as to situations where two language systems may co exist A wide array of phenomena are dealt with prosodic description of linguistic systems in contact situations analysis of prosodic changes language development processes etc and the results obtained may give an indication of what is more or less stable in phonological and prosodic systems In addition the selected papers clearly show how languages may have influenced or may have been influenced by other language varieties in multilingual situations where different languages are in constant contact with one another but also in the process of L2 acquisition Unlike previous volumes on related topics which focus in general either on L2 acquisition or on the description and analyses of different varieties of a given language this volume considers both topics in parallel allowing comparison and discussion of the results which may shed new light on more far reaching theoretical questions such as the role of markedness in prosody and the causes of prosodic changes *Pronunciation for English as an International Language* Ee-Ling Low,2014-09-15 Pronunciation plays a crucial role in learning English as an international language yet often remains marginalised by educators due to a lack of required phonetic and phonological knowledge Pronunciation for English as an International Language bridges the gap between phonetics phonology and pronunciation and provides the reader with a research based guide on how best to teach the English language The book follows an easy to follow format which ensures the reader will have a comprehensive grasp of each given topic by the end of the chapter Key ideas explored include Articulation of English speech sounds and basic transcription Connected speech processes Current issues in English language pronunciation teaching Multimedia in English language pronunciation practice Using speech analysis to investigate pronunciation features Using the latest research Pronunciation for English as an International Language will facilitate effective teaching and learning for any individual involved in teaching English as a second foreign or international language
