Practices of Poverty Measurement and Poverty Profile of Nepal Devendra Chhetry,2009-03 Reviews the poverty measuring practices available measures of poverty and economic growth figures of Nepal The poverty rates for FY 1976 77 1984 85 and 1995 96 are found to be not comparable due to change in methodology over time The three poverty rates average 40% Nepal has experienced high economic growth during the 7th 1985 86 to 1989 90 and 8th 1992 93 to 1996 97 Plan periods with no strong evidences of poverty reduction This incompatible result is partially explained by comparing growth of the agricultural sector with the role of the sector in providing employment and income generation at the household level and by comparing social indicators particularly literacy rate with the growth of the nonagricultural sector Tables

Rising to the Challenge in Asia: An overview Asian Development Bank,1999 The Asian currency and financial crisis has had far reaching effects on the regional economies and their trading partners These effects have threatened to wash away the region's significant social and economic advances achieved during the preceding years of rapid growth The crisis has also unveiled many intricate problems and challenges in macroeconomic management banking and capital markets management institutional capacity and governance of the financial systems in the region Measuring Competitiveness in the World's Smallest Economies Ganeshan Wignaraja,2008-05 Attempts to measure competitiveness CP across countries have typically neglected the world's smallest economies Hence a simple composite index the Small State Manufactured Export CP Index or SSMECI was developed to benchmark industrial CP The SSMECI represents the first attempt to provide a comprehensive picture of the CP performance of small states The performance of small states varies across geographical regions income groups country size classes High performing small states had better macroeconomic conditions higher levels

Rising to the Challenge in Asia: Republic of Korea Asian Development Bank,1999 *From Monobank to Commercial Banking* Jens Kovsted,John Rand,Finn Tarp,Institute of Southeast Asian Studies,2005 This study analyzes the difficulties and problems encountered in transforming the Vietnamese financial sector from one subordinate to government objectives and goals to an autonomous sector guided by market forces and competitive pressures Here the history of financial sector liberalization is traced and close attention paid to the activities and autonomy of the State Bank of Vietnam the institution responsible for the supervision and regulation of the financial sector in Vietnam *Rising to the Challenge in Asia: Malaysia* Asian Development Bank,1999 *Rising to the Challenge in Asia: Thailand* Asian Development Bank,1999

The Economies of Southeast Asia Teofilo C. Daquila,2005 This book analyses the growth development and crisis experiences of the Southeast Asian economies in particular Indonesia Malaysia the Philippines Singapore and Thailand also known as ASEAN 5 The proposition is developed that the robust economic performance of the Southeast Asian economies during the past four decades has been attributed to the various factors developments and independent national policies which have been pursued by the individual member countries rather than to any regional economic framework The book covers eleven topics which is suitable for a one semester course on the economics of Southeast Asia Also it has a narrower area coverage as it focuses only on the five economies namely Indonesia Malaysia the Philippines Singapore and Thailand The sectoral treatment of the crisis impact and the analytical treatment of policy responses to the crisis differentiate this book from other publications on the same topic Finally this book provides an analysis of national developments policies and factors which have contributed to the economic transformation of the respective Southeast Asian economies

Monetary Poverty Estimates in Sri Lanka Neranjana Gunetilleke,2008-05 Provides an introduction to poverty related data available in Sri Lanka monetary measurements of poverty carried out using this data The lack of an official poverty line in Sri Lanka until June 2004 has over time generated a number of poverty lines corresponding poverty measures While these poverty measures have provided a good base for poverty analysis this paper also touches on the problems generated by the use of multiple methods The release of the official poverty line by the Dept of Census Statistics can be seen as a major step forward in the debate on poverty measurement in Sri Lanka Charts tables

European Social Model Assar Lindbeck,2008-06 Developing countries esp the least developed ones have more to learn from social policies in Europe during the early 20th cent than from the elaborate welfare state arrangements after WW2 In addition to macro economic growth and stability the main ambitions must be to fight human deprivation incl illiteracy malnutrition and poor access to water and sanitation in some cases also weak incompetent and or corrupt governments Informal systems in the fields of transfers and social services must not be destroyed when developing countries embark on more formal systems The European experience also warns against the creation of social systems that are so generous that

disincentives and receding social norms distort the nat economy Role of Infrastructure in Land-Use Dynamics and Rice Production in Viet Nam's Mekong River Delta Christopher Edmonds,2008-06 Examines the role of infrastructure development and technical change in explaining increases in agricultural production and changes in land use in the Mekong Delta Region of Viet Nam during the mid 1990s The transportation costs involved in moving agricultural input and output between farms and markets significantly effect farm land use and production decisions Greater transport costs reduce the likelihood that farms adopt intensive cropping patterns or cultivate non rice crops Results suggest that the quality of local water management infrastructure is much more important than transport costs in explaining the increased intensity of land use and level of production observed in the Mekong Delta during the 1990s Illustrations **Framework for Establishing Priorities in a Country Poverty Reduction Strategy** Ron Duncan,2008-05 This paper reviews the history progress of understanding development theory over the past 50 years Development thinking has evolved from an early paradigm that focused on savings capital investment to subsequent arguments favoring the inclusion of human capital policy technical change finally to the inclusion of the role of institutions good governance Secure property rights in the broadest sense which are applicable to all resources not just land are particularly important to realize investment yield This evolution of development thought describes a conceptual framework that can guide development practitioners in prioritizing sequencing characterizing all interventions aimed at reducing poverty
