Chew, 2008 More than thirty leading scholars and finance practitioners discuss the theory and practice of using enterprise risk management ERM to increase corporate values ERM is the corporate wide effort to manage the right hand side of the balance sheet a firm s total liability structure in

ways that enable management to make the most of the firm's assets. While typically working to stabilize cash flows, the primary aim of a well-designed risk management program is not to smooth corporate earnings but to limit the possibility that surprise outcomes can threaten a company's ability to fund its major investments and carry out its strategic plan. Contributors summarize the development and use of risk management products and their practical applications. Case studies involve Merck, British Petroleum, the American airline industry, and United Grain Growers, and the conclusion addresses a variety of topics that include the pricing and use of certain derivative securities, hybrid debt, and catastrophe bonds. Mastering Catastrophic Risk Howard Kunreuther, Michael Useem, 2018-05-01. A profound and insightful look at how company leaders prepare for and respond to shocks and crises that threaten their business. Successful firms strategically manage and are more accurate in their assessment of large-scale risks. Doing so is increasingly challenging given the pace of change, whether financial, technological, regulatory, or environmental. *Mastering Catastrophic Risk* provides real-world practical insights into how large companies are responding to this new reality and develops a framework for smarter thinking about events that can damage a business. As leading authorities on risk

management strategy and company leadership Howard Kunreuther and Michael Useem take us on a groundbreaking tour of firms decision making process They demonstrate how improving readiness for and resilience against future shocks is now an integral part of company strategy Using the DISRUPT model they have developed they highlight the seven primary Drivers of disruption Interdependencies increase exposure Short term focus results in limited vision Regulations require change and constrain opportunities Urbanization increases the costs of disasters Probabilities of disasters have increased and Transparency has enhanced public awareness of problems and impacts on firms reputations Some disruptions can be anticipated while others arrive without warning Their onset stresses decision makers impairs company operations and may even put the enterprise at risk The bottom line business leaders and their governing boards face ever more challenging disruptions and must be ever more on guard If your company is hit tomorrow will it bounce back or drown
