**Perichoretic Salvation** James D. Gifford, 2011-09-15 For two thousand years Christian theologians have struggled to explain the believer's union with Christ What sort of union is it How can it be fully described This book is an attempt to join the conversation to explore exactly what it means to be in union with Christ This book will argue that the believer's union with Christ can rightly be presented as a third type of perichoresis Perichoresis is a word that describes the way the persons of the Trinity interrelate without losing their essential oneness nor without being absorbed into each other In short the doctrine of perichoresis preserves the unity and diversity within the Godhead It is also used to describe the hypostatic union of the divine and human in Christ In Perichoretic Salvation James Gifford argues that the union of the believer and Christ is a relationship of the same kind though of a third type Arguing from a perspective that is rooted biblically historically and theologically the book will allow the union to be explained more fully than in the past while remaining within the bounds of what the church has taught over the centuries It may prove to be a basis for understanding the work of Christ afresh for the twenty first century

**Not Bread Alone** Nathan MacDonald, 2008-09-25 In ancient Israel the production of food was a basic concern of almost every Israelite Consequently there are few pages in the Old Testament that do not mention food and food provides some of the most important social political and religious symbols in the biblical text Not Bread Alone is the first detailed and wide ranging examination of food and its symbolism in the Old Testament and the world of ancient Israel Many of these symbols are very well known such as the forbidden fruit in the Garden of Eden the abominable pig and the land flowing with milk and honey Nathan MacDonald demonstrates that the breadth biblical symbolism associated with food reaches beyond these celebrated examples providing a collection of interrelated studies that draw on work on food in anthropology or other historical disciplines The studies maintain sensitivity to the literary nature of the text as well as the many historical critical questions that arise when studying it Topics examined include the nature and healthiness of the ancient Israelite diet the relationship between food and memory in Deuteronomy the confusion of food sex

and warfare in Judges the place of feasting in the Israelite monarchy the literary motif of divine judgement at the table the use of food in articulating Israelite identity in the post exilic period The concluding chapter shows how some of these Old Testament concerns find resonance in the New Testament

The Hebrew Bible Frederick E. Greenspahn, 2008 In April of 2001 the headline in the Los Angeles Times read Doubting the Story of the Exodus It covered a sermon that had been delivered by the rabbi of a prominent local congregation over the holiday of Passover In it he said The truth is that virtually every modern archeologist who has investigated the story of the exodus with very few exceptions agrees that the way the Bible describes the exodus is not the way it happened if it happened at all This seeming challenge to the biblical story captivated the local public Yet as the rabbi himself acknowledged his sermon contained nothing new The theories that he described had been common knowledge among biblical scholars for over thirty years though few people outside of the profession know their relevance New understandings concerning the Bible have not filtered down beyond

specialists in university settings There is a need to communicate this research to a wider public of students and educated readers outside of the academy This volume seeks to meet this need with accessible and engaging chapters describing how archeology theology ancient studies literary studies feminist studies and other disciplines now understand the Bible

**The Image of God in the Garden of Eden** Catherine L. McDowell, 2015-09-09 Catherine McDowell presents a detailed and insightful analysis of the creation of adam in Gen 2 5 3 24 in light of the Mesopotamian m s p p t p washing of the mouth opening of the mouth and the Egyptian wpt r opening of the mouth rituals for the creation of a divine image Parallels between the mouth washing and opening rituals and the Eden story suggest that the biblical author was comparing and contrasting human creation with the ritual creation animation and installation of a cult statue in order to redefine elem eloh m as a human being the living likeness of God tending and serving in the sacred garden McDowell also considers the explicit image and likeness language in Gen 1 26 27 Drawing from biblical and extrabiblical texts she demonstrates that elem and dem t define the divine human relationship first and foremost in terms of kinship To be created in the image and likeness of Elohim was to be metaphorically speaking God s royal sons and daughters While these royal qualities are explicit in Gen 1 McDowell persuasively argues that kinship is the primary metaphor Gen 1 uses to define humanity and its relationship to God Further she discusses critical issues noting the problems inherent in the traditional views on the dating and authorship of Gen 1 3 and the relationship between the two creation accounts Through a careful study of the t led t in Genesis she demonstrates that Gen 2 4 serves as both a hinge and a telescope the creation of humanity in Gen 2 5 3 24 should be understood as a detailed account of the events of Day 6 in Gen 1 When Gen 1 3 are read together as the final redactor intended these texts redefine the divine human relationship using three significant and theologically laden categories kinship kingship and cult Thus they provide an important lens through which to view the relationship between God and humanity as presented in the rest of the Bible

An Ox of One's Own T. M. Sharlach, 2017-09-11 Shulgi simti is an important example of a woman involved in sponsoring religious activities though having a family life An Ox of One's Own will be of interest to Assyriologists particularly those interested in Early Mesopotamia and scholars working on women in religion An Ox of One's Own centers on the archive of a woman who died about 2050 B C one of King Shulgi's many wives Her birth name is unknown but when she married she became Shulgi simti Suitable for Shulgi Attested for only about 15

years she existed among a court filled with other wives who probably outranked her A religious foundation was run on her behalf whereby courtiers male and female donated livestock for sacrifices to an unusual mix of goddesses and gods Previous scholarship has declared this a rare example of a queen conducting women s religion perhaps unusual because they say she came from abroad The conclusions of this book are quite different An Ox of One s Own lays out the evidence that another woman was queen at this time in Nippur while Shulgi simti lived in Ur and was a third ranking concubine at best with few economic resources Shulgi simti s religious exercises concentrated on a quartet of north Babylonian goddesses **Achaïos** Evangelia Papadopoulou,Vassilis Chrysikopoulos,Gioulika Christakopoulou,2016-07-10 In Achaïos thirty five scholars from six different countries have contributed with thirty one papers as a small token of appreciation gratitude and affection to a true scholar who devoted his life studying and revealing the long journeys of the Mycenaeans and their culture *Ritual in Narrative* David Pearson Wright,2001 Ugaritic ritual texts are varied and by nature problematic But another source for ritual understanding is found in the narrative writings of Ugarit namely its myths and legends Ritual texts in myths were not simply textual inserts but an integral part of the narrative This present study is devoted to the examination of the way that ritual functions within the context of these stories **Hittite Texts and Greek Religion** Ian Rutherford,2020-09-23 Our knowledge of ancient Greece has been transformed in the last century by an increased understanding of the cultures of the Ancient Near East This is particularly true of ancient religion This book looks at the relationship between the religious systems of Ancient Greece and the Hittites who controlled Turkey in the Late Bronze Age 1400 1200 BC The cuneiform texts preserved in the Hittite archives provide a particularly rich source for religious practice detailing festivals purification rituals oracle consultations prayers and myths of the Hittite state as well as documenting the religious practice of neighbouring Anatolian states in which the Hittites took an interest Hittite religion is thus more comprehensively documented than any other ancient religious tradition in the Near East even Egypt The Hittites are also known to have been in contact with Mycenaean Greece known to them as Ahhiyawa The book first sets out the evidence and provides a methodological paradigm for using comparative data It then explores cases where there may have been contact or influence such as in the case of scapegoat rituals or the Kumarbi Cycle Finally it considers key aspects of religious practices shared by both systems such as the pantheon rituals of war festivals and animal sacrifice The aim of such a comparison is to discover clues that may further our understanding of the deep history of religious practices and when used in conjunction with historical data illuminate the differences between cultures and reveal what is distinctive about each of them
