Semper Mars:

Semper Mars Ian Douglas, 2009-03-17 The Year is 2040 The Marines have landed on Mars to guard the unearthed secrets of an ancient and dangerous alien race Ourselves Scientists have discovered something astonishing in the subterranean ruins of a sprawling Martian city startling evidence of an alternative history that threatens to split humanity into opposing factions and plunge the Earth into chaos and war The USMC a branch of a military considered until just recently to be obsolete has dispatched the Marine Mars Expeditionary Force a thirty man weapons platoon to the Red Planet to protect American civilians and interest with lethal force if necessary Because great powers are willing to devastate a world in order to keep an ancient secret buried Because something that was hidden in the Martian dust for half a million years has just been unearthed something that calls into question every belief that forms the delicate foundation of civilization

Something inexplicably human The Heritage Trilogy: Semper Mars Ian Douglas, 1998 Star Corps Ian

Douglas, 2009-10-06 In the future earth's warriors have conquered the heavens But on a distant world Humanity is in chains Many millennia ago the human race was enslaved by the Ahanu a fearsome alien people whose cruel empire once spanned the galaxies until they were defeated and consigned to oblivion But a research mission to the planet Ishtar has made a terrifying and fatal discovery the Ahanu ancestors of the former masters live on far from the reach of Earth born weapons and technology and tens of thousands of captive human souls still bow to their iron will Now Earth's Interstellar Marine Expeditionary Unit must undertake a rescue operation as improbable as it is essential to humankind's future embarking on a ten year voyage to a hostile world to face an entrenched enemy driven by dreams of past glory and intent once more on domination For those who for countless generations have known nothing but toil and subjugation must be granted at all costs the precious gift entitled to all of their star traveling kind freedom **The Complete Heritage Trilogy: Semper Mars, Luna Marine, Europa Strike**

Ian Douglas, 2014-03-27 The Marines have landed on Mars to guard the unearthed secrets of an ancient and dangerous alien race Ourselves This bundle includes the complete Heritage Trilogy by New York Times bestselling author Ian Douglas The Toast, an Epic Poem William King, 1732 *Future Wars* David Seed, 2012-01-01 This timely book investigates fiction that speculates about wars likely to break out in the near or distant future Ranging widely across periods and conflicts real and imagined Future Wars explores the interplay between politics literature science fiction and war in a range of classic texts Individual essays look at Reagan's infamous Star Wars project nuclear fiction Martian invasion and the Pax Americana The use of future war scenarios in military planning dates back to the nineteenth century and Future Wars concludes with a US Army officer's assessment of the continuing usefulness of future wars fiction **Kim Stanley Robinson** Robert Markley, 2019-10-30 Award winning epics like the Mars Trilogy and groundbreaking alternative histories like The Days of Rice and Salt have brought Kim Stanley Robinson to the forefront of contemporary science fiction Mixing subject matter from a dizzying number of fields with his own complex ecological and philosophical concerns Robinson

explores how humanity might pursue utopian social action as a strategy for its own survival Robert Markley examines the works of an author engaged with the fundamental question of how we as individuals as a civilization and as a species might go forward By building stories on huge time scales Robinson lays out the scientific and human processes that fuel humanity's struggle toward a more just and environmentally stable world or system of worlds His works invite readers to contemplate how to achieve and live in these numerous possible futures They also challenge us to see that SF's literary cultural and philosophical significance have made it the preeminent literary genre for examining where we stand today in human and planetary history

Nature Sir Norman Lockyer, 1909 *Worldmakers* Gardner Dozois, 2011-04-01 When mankind moves out to the stars the colonists of the future will remake the worlds they inhabit in their image Included here are twenty stories from the most imaginative writers in the field Poul Anderson Cordwainer Smith Arthur C Clarke Richard McKenna Roger Zelazny John Varley Gregory Benford Ian McDonald Bruce Sterling Charles Sheffield Robert Reed G David Nordley Joe Haldeman Phillip C Jennings Geoffrey A Landis Stephen Baxter William H Keith Jr Kim Stanley Robinson Pamela Sargent Laura J Mixon These are the stories of the explorers and pioneers who transform their destinations in the image of their distant home exciting tales of alien landscapes and the struggle to make them suit human desires

The Marines, Counterinsurgency, and Strategic Culture Jeannie L. Johnson, 2018-05-01 The United States Marine Corps has a unique culture that ensures comradery exacting standards and readiness to be the first to every fight Yet even in a group that is known for innovation culture can push leaders to fall back on ingrained preferences Jeannie L Johnson takes a sympathetic but critical look at the Marine Corps's long experience with counterinsurgency warfare Which counterinsurgency lessons have been learned and retained for next time and which have been abandoned to history is a story of battlefield trial and error but also a story of cultural collisions The book begins with a fascinating and penetrating look inside the culture of the Marine Corps through research in primary sources including Marine oral histories and interviews with Marines Johnson explores what makes this branch of the military distinct their identity norms values and perceptual lens She then traces the history of the Marines counterinsurgency experience from the expeditionary missions of the early twentieth century through the Vietnam War and finally to the Iraq War Her findings break new ground in strategic culture by introducing a methodology that was pioneered in the intelligence community to forecast behavior Johnson shows that even a service as self-aware and dedicated to innovation as the Marine Corps is constrained in the lessons learned process by its own internal predispositions by the wider US military culture and by national preferences Her findings challenge the conclusions of previous counterinsurgency scholarship that ignores culture This highly readable book reminds us of Sun Tzu's wisdom that to be successful in war it is important to know thyself as well as the enemy This is a must read for anyone interested in the Marines Corps counterinsurgency warfare military innovation or strategic culture
