Send Me? The Itinerancy in Crisis Donald E. Messer, 1991-12 The Soul of Methodism Philip F. Hardt, 2000 A weekly class meeting among Methodists in early 19th century New York formed the basis for growth and unity in the small Christian sect Author Rev Dr Philip F Hardt describes these meetings as a means to close personal relationships among class members They also provided a place in which lay leadership could emerge and monitor behavior among members Hardt connects the decline in Methodist membership over the years with the dissolution of the weekly meeting This book advocates a return to the meetings as a means to increase church membership It is Rev Hardt s belief that a weekly meeting can revitalize the church s efforts to initiate people into the faith and assimilate them into the body of Christ *Feminization of the Clergy in America* Paula D. Nesbitt, 1997-04-24 Feminization is said to occur when women enter any given occupation in substantial numbers and ostensibly leads to such dynamics as sex segregation reduced opportunities for men and depressed wages and diminished prestige for the occupation as a whole Spanning more than 70 years Paula Nesbitt s study of feminization concentrates on the Episcopal Church and the Unitarian Universalist Association utilizing both statistical results and interviews to compare occupational patterns prior and subsequent to the large influx of women clergy Among her findings the author discovers that a decline in men s opportunities is evident before the 1970s preceding the great influx of women over the last two decades She also finds that increases in the number of women ordained reduced occupational prospects for other women but enhanced those for men thus contradicting the popular myth that women in the workplace are responsible for occupational decline Global Safari Zekeh Gbotokuma, 2015-10-05 Global Safari is a memoir travelogue offering an account of the author s intercontinental travel experiences from his local village to the more global village from Africa to Europe the Americas and Asia This book is a story about courage international friendship hope survival procrastinated return and homecoming to the Democratic Republic of the Congo The book shows the process of achieving international competency and cosmocitizenship or global citizenship through a world ready education working networking and immersion into world cultures and languages Its distinguishing **Encyclopedia of Protestantism** Hans J. problems for those interested in studying the origins and development of the history and theology of world Methodism The literature describing the history and development of Methodism has been growing as scholars and general readers have become aware of its importance as a world church with approximately 40 million members in 300 Methodist denominations in 140 nations The tercentenary celebrations of the births of its founders John and Charles Wesley in 2003 and 2007 provided an additional focus on the evolution of the movement which became a church This book researches questions problems and resources for further study Itinerant Kingship and Royal Monasteries in Early Medieval Germany, C.936-1075 John W. Bernhardt, 2002-08-22 In examining the relationship between the royal monasteries in tenth and eleventh century Germany and the German monarchs this book assimilates a great deal of European scholarship on a central problem that of the realities and structures of power It focuses on the practical aspects of governing without a capital and while constantly in motion and on the payments and services which monasteries provided to the king and which in turn supported the king's travel economically and politically Royal monastic relations are investigated in the context of the itinerant kingship of the period to determine how this relationship functioned in practice It emerges that German rulers did in fact make much greater use of their royal monasteries than has hitherto been recognised **Fatal Revolutions** Christopher P.

Iannini, 2013-03-12 Drawing on letters illustrations engravings and neglected manuscripts Christopher Iannini connects two dramatic transformations in the eighteenth century Atlantic world the emergence and growth of the Caribbean plantation system and the rise of natural science Iannini argues that these transformations were not only deeply interconnected but that together they established conditions fundamental to the development of a distinctive literary culture in the early Americas In fact eighteenth century natural history as a literary genre largely took its shape from its practice in the Caribbean an oft studied region that was a prime source of wealth for all of Europe and the Americas The formal evolution of colonial prose narrative Iannini argues was contingent upon the emergence of natural history writing which itself emerged necessarily from within the context of Atlantic slavery and the production of tropical commodities As he reestablishes the history of cultural exchange between the Caribbean and North America Iannini recovers the importance of the West Indies in the formation of American literary and intellectual culture as well as its place in assessing the moral implications of colonial slavery
