## **Sense Of History In Greek Shakespeare:**

The Sense of History in Greek and Shakespearean Dram Tom F. Driver, 2012-06-01      *Shakespeare's Early History Plays* Dominique Goy-Blanquet, 2003 Like many of his fellow playwrights Shakespeare turned to national history for inspiration In this study Dominique Goy Blanquet provides a close comparison of the Henry VI plays and Richard III with their historical and theatrical sources demonstrating how Shakespeare was able to meet not only the ideological but also the technical problems of turning history into drama how by cutting carving shaping casting his unwieldy material into performable plays he matured into the most influential dramatist and historian of his time Recent criticism of Shakespeare s history plays has often consisted of fierce arguments over their ideological import and Shakespeare s position on the spectrum of current political opinions This book however stems from the belief that a more constructive starting point for research is the exploration of the technical problems raised by turning heavy narratives into performable plays rather than the political motives that could inspire a playwright s representation of national history Illuminating and instructive Shakespeare s Early History Plays includes not only close investigation of the verbal poetic and political texture of the plays but also provides a broad overview of the wider sixteenth century historiographical contexts of the plays and their significance to Shakespeare s oeuvre more generally      *The Cambridge Companion to Shakespeare's History Plays* Michael Hattaway, 2002-12-05 Shakespeare s history plays have been performed more in recent years than ever before in Britain North America and in Europe This 2002 volume provides an accessible wide ranging and informed introduction to Shakespeare s history and Roman plays It is attentive throughout to the plays as they have been performed over the centuries since they were written The first part offers accounts of the genre of the history play of Renaissance historiography of pageants and masques and of women s roles as well as comparisons with history plays in Spain and the Netherlands Chapters in the second part look at individual plays as well as other Shakespearean texts which are closely related to the histories The Companion offers a full bibliography genealogical tables and a list of principal and recurrent characters It is a comprehensive guide for students researchers and theatre goers alike      **The Sense of History in Greek and Shakespearean Drama** Tom Faw Driver, 1967      *Shakespeare and the Shapes of Time* David Scott Kastan, 1982-06-18      *From Shakespeare to Obama* J. Hart, 2013-12-17 From Shakespeare to Obama discusses language slavery and place from the Portuguese enslavement of African people through slavery in Shakespeare s plays to President Obama s 2012 speech on modern slavery Balancing close reading with context this expansive book offers new insight into questions of otherness rhetoric and stereotyping      **Shakespeare Survey** Stanley Wells, 2002-11-28 The first fifty volumes of this yearbook of Shakespeare studies are being reissued in paperback      Shakespeare / Sense Simon Smith, 2020-05-14 Shakespeare Sense explores the intersection of Shakespeare and sensory studies asking what sensation can tell us about early modern drama and poetry and conversely how Shakespeare explores the senses in his literary craft his fictional worlds and his stagecraft 15 substantial new essays by leading

Shakespeareans working in sensory studies and related disciplines interrogate every aspect of Shakespeare and sense from the place of hearing smell sight touch and taste in early modern life literature and performance culture through to the significance of sensation in 21st century engagements with Shakespeare on stage screen and page The volume explores and develops current methods for studying Shakespeare and sensation reflecting upon the opportunities and challenges created by this emergent and influential area of scholarly enquiry Many chapters develop fresh readings of particular plays and poems from Hamlet A Midsummer Night's Dream King Lear and The Tempest to less studied works such as The Comedy of Errors Venus and Adonis Troilus and Cressida and Cymbeline

*Shakespeare the Playwright* Victor L. Cahn, 1991-03-12 A useful guide for the general reader as well as high school and undergraduate students to Shakespeare's 37 plays After a brief introduction outlining Shakespeare's life and career Cahn carefully guides the reader through each play from first scene to last using a mixture of quotation paraphrase and critical comment His style is accessible and unpretentious The bibliographies at the end of each chapter and at the end of the volume provide a guide to further study for the nonspecialist

Library Journal

*A Cultural History of the Senses in Antiquity* Jerry Toner, 2014-10-23 The ancient world used the senses to express an enormous range of cultural meanings Indeed the senses were functionally significant in all aspects of ancient life often in ways that were complex and interconnected Antiquity was also a period where the senses were experienced vividly cities stank statues were brightly painted and literature made full use of sensory imagery to create its effects In a steeply hierarchical world with vast differences between the landed wealthy the poor and the slaves the senses played a key role in establishing and maintaining boundaries between social groups but the use of the senses in the ancient world was not static New religions such as Christianity developed their own way of using the senses acquiring unique forms of sensory related symbolism in processes which were slow and often contested The aim of this volume is to provide an overview of these structures and developments and to show how their study can yield a more nuanced understanding of the ancient world

*A Cultural History of the Senses in Antiquity* presents essays on the following topics the social life of the senses urban sensations the senses in the marketplace the senses in religion the senses in philosophy and science medicine and the senses the senses in literature art and the senses and sensory media

**Shakespeare's Arguments with History** R. Knowles, 2001-12-21 Argument was the basis of Renaissance education both rhetoric and dialectic permeated early modern humanist culture including drama This study approaches Shakespeare's history plays by analyzing the use of argument in the plays and examining the importance of argument in Renaissance culture Knowles shows how analysis of arguments of speech and action take us to the core of the plays in which Shakespeare interrogates the nature of political morality and truth as grounded in the history of what men do and say

Handel's Oratorios and Eighteenth-Century Thought Ruth Smith, 1995-05-04 In this wide ranging and challenging book Ruth Smith claims that the words to Handel's oratorios reflect the events and ideas of their time and have far greater meaning than has hitherto been realised She explores eighteenth

century literature music aesthetics politics and religion to reveal Handel's texts as conduits for the thought and sensibility of their time. The book thus enriches our understanding of Handel, his times and the close relationship between music and its intellectual contexts. *The Year's Work in English Studies*, 1963. *Shakespeare's English Histories and Their Afterlives* Peter Holland, 2010. Shakespeare Survey is a yearbook of Shakespeare studies and production. Since 1948 Survey has published the best international scholarship in English and many of its essays have become classics of Shakespeare criticism. Each volume is devoted to a theme or play or group of plays; each also contains a section of reviews of that year's textual and critical studies and of the year's major British performances. The theme for volume 63 is Shakespeare's English Histories and their Afterlives. The complete set of Survey volumes is also available online at <http://www.cambridge.org/online/shakespearesurvey>. This fully searchable resource enables users to browse by author, essay and volume, search by play, theme and topic, and save and bookmark their results. The Time Is Out of Joint Agnes Heller, 2002-07-23. The Time Is Out of Joint handles the Shakespearean oeuvre from a philosophical perspective, finding that Shakespeare's historical dramas reflect on issues and reveal puzzles which were taken up by philosophy proper only in the centuries following them. Shakespeare's extraordinary handling of time and temporality, the difference between truth and fact, that of theory and that of interpretation and revelatory truth are evaluated in terms of Shakespeare's own conjectural endeavors and are compared with early modern, modern and postmodern thought. Heller shows that modernity, which recognized itself in Shakespeare only from the time of Romanticism, found in Shakespeare's work a revelatory character which marked the end of both metaphysical system building and a tragic reckoning with the inaccessibility of an absolute, timeless truth. Heller distinguishes the four stages found in constantly unique relation in Shakespeare's work: historical, personal, political and existential, and probes their significance as time comes to fall out of joint and may be again set aright. Rather than initially bestowing upon Shakespeare the dubious honorary title of philosopher, Heller probes the concretely situated reflections of characters who must face a blind and irrational fate, either without taking responsibility for the discordance of time or with a responsibility which may both transform history into politics and set right the time which is out of joint. In the ruminations and undertakings of these characters, Shakespeare's dramas present a philosophy of history, a political philosophy and a philosophy of individual moral personality. Heller weighs each as distinctly modern confrontations with the possibility of truth and virtue within a human historical condition, no less multifarious for its momentariness. *Shakespeare* Stanley Wells, 1990. In this comprehensive and compelling study, Stanley Wells explores the wide range of meanings that the plays can generate and analyzes their literary and dramatic craftsmanship in terms that are accessible to the nonspecialist, even to readers with no previous knowledge or experience of Shakespeare. In particular, he looks at Shakespeare's impact through the ages and especially on the varied realizations of his plays in modern theater. **The Language of Achilles and Other Papers** Adam Parry, 1989. This book presents the collected papers of Adam Parry, a brilliant young classical scholar who died prematurely in 1971. A

professor at Yale and lecturer in London he wrote a number of highly respected articles in major classics journals on subjects ranging from Homer his special interest to Attic tragedy Thucydides Plato and Virgil

**The Biblical Presence in Shakespeare, Milton, and Blake** Harold Fisch, 1999 In this penetrating study of the poetics of influence the indebtedness of Shakespeare Milton and Blake to a common source namely the Bible becomes a powerful tool for displaying three fundamentally different poetic options as well as three different ways of dealing with a conflict central to western culture In fresh and original discussions of Julius Caesar Antony and Cleopatra Hamlet and King Lear Fisch discerns what he terms the metagon not the struggle between the characters on the stage but a struggle for the control of the play between biblical and non biblical modes of imagining Milton seems more single minded in his reliance on biblical sources yet from his analysis of Paradise Lost and Samson Agonistes Fisch concludes that there are unresolved contradictions both aesthetic and theological which threaten the coherence and balance of these poems as well Blake in his turn perceived these contradictions in the work of his predecessors condemning both Shakespeare and Milton for allowing their writing to be curbed by Greek and Latin models and claiming for himself a more authentic inspiration that of the Sublime of the Bible But Blake's marvellous achievements in the sublime mode as for instance in his Illustrations to Job often reverse the direction of his biblical source replacing dialogue with monologue Harold Fisch's work combines an unrelenting attention to the minutiae of the texts with a dazzling capacity for broad insights and judgements He is equally at home in theological learning as in English literature

**Shakespeare's Christian Dimension** Roy Wesley Battenhouse, 1994-05-22 An impressive collection of ninety two abridged essays identifying the Christian elements in Shakespeare's plays a great feast of learning and beauty First Things This is an exceptionally valuable book very highly recommended Sixteenth Century Journal an exemplary work In an age when footling matters often replace the great religious quandaries about what it means to live and die before God Shakespeare's Christian Dimension helps restore our focus Pro Ecclesia This anthology reprints abridged versions of 92 critical commentaries on the influence of Shakespeare's Christian heritage on the shaping of his plays It does not attempt to be exhaustive in its coverage but to provide a useful sampling of valuable work A supplementary bibliography of more than 250 further items encourages interested readers to further exploration

**The Christian Century**, 1960
