Soil and Sense Michael Graham,2015-02-22 Here is the crux of the matter as I see it The food for men cannot be grown unless the land is also fed I searched the public library for a short book that would give the key to this puzzle but I did not find what I wanted There were indeed some good books by good scientists and they are in my list of references at the end of this book but they each dealt with only a part of the problem For example books that described the soil bacteria made no mention of landlords The popular books on agriculture included novels biographies and essays but these all avoided technical details and it is difficult to state or solve a practical problem without setting it against a background of details Because I found no one book I had to wrestle out the problem for myself from various books and with the help of such experience of the land as a man may gain in his leisure This then is a short book on the central problem of
