Conflict Management and African Politics Terrence Lyons, Gilbert M. Khadiagala, 2010-10-04 This book builds on the overarching theme of conflict management to reflect on negotiations mediation and conflict resolution in Africa *A Matter of Weeks Rather Than Months* J R T Wood, 2012-08-02 Founded on 35 years of research into the post 1945 Anglo Rhodesian history this book complements Richard Wood's The Welensky Papers A History of the Federation of Rhodesia and Nyasaland 1953 1963 1983 and So Far and No Further Rhodesia's bid for independence during the retreat from empire 1959 1965 2005 Of So Far Michael Hartnack wrote that Once in a lifetime comes a book which must force a total shift in the thinking person's perception of an epoch and of all the prominent

characters who featured in it *A Matter of Weeks Rather than Months* recounts the action and reaction to Ian Smith's unilateral declaration of Rhodesia's independence the second such declaration since the American one of 1776 It examines the dilemmas of both sides Smith's problem was how to legitimise his rebellion to secure crucial investment capital markets trade and more His antagonist the British Prime Minister Harold Wilson was determined not to transfer sovereignty until Rhodesia accepted African majority rule in common with the rest of Africa Given British feelings for their Rhodesian kith and kin and Rhodesia's landlocked position Wilson eschewed the use of force He could only impose sanctions but hoped they would defeat Smith in a matter weeks rather than months The Rhodesians however evaded the sanctions with such success that they forced Wilson to negotiate a settlement Negotiations were nevertheless doomed because the self-confident Rhodesians would not accept a period of direct British rule while rapid progress to majority rule was made or the imposition of restraints on powers they had possessed since gaining self-government in 1923 In tune with their allies in the African National Congress of South Africa the Rhodesian or Zimbabwean African nationalists had already adopted the Marxist concept of the Armed Struggle as a means to power Sponsored by the Communist Bloc its surrogates and allies they began a series of armed incursions from their safe haven in Zambia Although bloodily and easily repulsed they would learn from their mistakes as the Rhodesian forces would discover in the 1970s Consequently this is a tale of sanctions negotiations and counter-insurgency warfare **Soviet-American Conflict Resolution in the Third World** Mark N. Katz, 1991

Challenge To Imperialism Carol B. Thompson, 2019-08-27 Challenge to Imperialism is the first comprehensive analysis of the Zimbabwean struggle for independence in its international context Based on extensive research in the southern African region and on interviews with the ZANU and ZAPU leaders in exile during the war this study is an analysis of the crucial support given to the Zimbabwean nationalists by the five Frontline States Angola Botswana Mozambique Tanzania and Zambia The book begins with a summary of the variable relations among the Frontline States and between those states and the Zimbabwean nationalists More than once Frontline governments put Zimbabwean nationalists in their own jails as tensions arose over leadership conduct of the war and terms for peace Yet the Frontline States maintained their support in spite of the extremely high cost to their own economic development How could these weak and economically dependent states confront the dominant interests in the region Was Lancaster House simply a capitulation to imperialist interests a constitution forced on the nationalists by the beleaguered Frontline States This theoretical analysis addresses the complexity of these questions and suggests lessons for the current struggles in Namibia and in South Africa Further Dr Thompson discusses the formation of the Southern African Development Coordination Conference SADCC as an attempt to transform the Zimbabwean political victory into regional economic cooperation This study of the political and economic background of Zimbabwean independence is important not only to those concerned about Zimbabwe and southern Africa but also to those interested in the nature of liberation struggles and in the role of the state in developing countries **AF Press Clips**, 1982

The Legacies of Law

Jens Meierhenrich,2008-10-13 Focusing on South Africa during the period 1650 2000 this book examines the role of law in making democracy work in changing societies The Legacies of Law sheds light on the neglected relationship between path dependence and the law Meierhenrich argues that legal norms and institutions even illiberal ones have an important and hitherto undertheorized structuring effect on democratic outcomes Under certain conditions law appears to reduce uncertainty in democratization by invoking common cultural backgrounds and experiences In instances where interacting adversaries share qua law reasonably convergent mental models transitions from authoritarian rule are shown to be less intractable Meierhenrich s historical analysis of the evolution of law and its effects in South Africa during the period 1650 2000 compared with a short study of Chile from 1830 1990 shows how and when legal norms and institutions serve as historical causes to both liberal and illiberal rule

Conflict Resolution in Africa Francis M. Deng,I. William

Zartman,2011-07-01 While dramatic changes are taking place on the international scene and among the major powers Africa

continues to suffer from a multitude of violent conflicts The toll of these conflicts is monumental in terms of war damage to productivity scarce resources diverted to armaments and military organizations and the resulting insecurity displacement and destruction At the same time Africans in response to internal demands as well as to international changes have begun to focus their attention and energies on these problems and are trying innovative ways to resolve differences by nonviolent means The outcomes of these attempts have urgent and complex implications for the future of the continent with respect to human rights principles of democracy and economic development In this book African European and U S experts examine these important issues and the prospects for conflict management and resolution in Africa They review the scholarship in resolution in light of international changes now taking place Addressing the undying internal causes of conflict they question whether global events will promote peace or threaten to unleash even more conflict The authors focus their analysis on the issues involved in African conflicts and examine the areas in need of the most dramatic changes They offer specific recommendations for dealing with current problems but caution that unless policymakers confront the security situation in Africa further destruction to national unity and political and economic stability is imminent Case studies and themes for further long term research are recommended

Negotiation and Conflict Management I. William Zartman, 2007-12-20 This book presents a series of essays by I William Zartman outlining the evolution of the key concepts required for the study of negotiation and conflict management such as formula ripeness pre negotiation mediation power process intractability escalation and order Responding to a lack of useful conceptualization for the analysis of international negotiation Zartman has developed an analytical framework and specific concepts that can serve as a basis for both study and practice Negotiation is analyzed as a process and is linked to other major themes in political science such as decision structure justice and order This analysis is then applied to negotiations to manage particular types of conflicts and cooperation including ethnic conflicts civil wars and regime building It also develops typologies and strategies of mediation dealing with such aspects as leverage bias interest and roles Written by the leading exponent of negotiation and mediation Negotiation and Conflict Management will be of great interest to all students of negotiation mediation and conflict studies in general
