Create Your Own Fate Elaine Northrop, 2011-01-19 Nothing is Beyond Belief Imagination is the key to creating a new reality Whatever you can imagine you can implement Whatever you believe to be actually creates the world you see Life doesn't just happen to you It responds to you and the thoughts that you are creating on a continuing basis Although thoughts are not tangible they are programmable and powerful Thoughts can transform the abstract into the absolute This book is about creative visualization or wishcraft which is a way of thinking that can change your life The principles proposed in this book can propel you from poverty to prosperity and jumpstart your JOY as you learn how to transform your thoughts into reality The process starts with a dream a desire or even just a wish Wishes come in all sizes One can wish small or one can wish big or tall One can even choose not to wish at all but wishing is really the key to creating a new reality Everything that you can conceive of already exists or you couldn't even conceive of it Creative visualization

simply makes the invisible visible Your beliefs are the key to making the invisible materialize Predicting the future actually becomes possible once you realize that you can create your own future by propelling your dreams into reality The world can be yours to have and to hold once you take control of your own destiny That doesn't mean that you can control the events that will happen in your life but you can control how you envision those events Those visualizations can either empower you to excel or cripple you in crisis If you want your life to change try doing something strange If you want your life to be different do different think different Sometimes all that you need to change is your mind and your beliefs Stop setting limits on your life Become part of the cycle of life which is to Dream desire create and inspire **CU Love & Respect Book &**

Love Respect is also available in Spanish Amor y Respeto **Making Marriage Work** Rob Pascale, Louis H. Primavera, 2016-02-23 Staying happily married has become a difficult proposition in recent times Although the institution is still firmly embedded in our culture divorce rates have steadily climbed since the 1960s While some marriages are truly divorce worthy many other broken marriages can be saved Recent emphasis on personal needs and greater social acceptance of divorce and alternative lifestyles may have weakened the resolve of partners to work through their problems Furthermore many couples may not realize that problems in their current marriages are likely to surface in other relationships Consequently while they may consider divorce a solution it may in fact only be a stepping stone to the next relationship where patterns may repeat Solving marital differences can be difficult They tend to be linked to or caused by other problems and that can make it hard to identify the real reasons for conflicts Without knowing the true nature of their problems couples cannot arrive at solutions that actually work To understand the underlying issues that plague many marriages the authors look to the research conducted on the subject over the past fifty years and to real life stories of success and failure to outline the major issues that detract from marital stability Drawing on Louis Primavera s twenty five years in private practice as a marriage counselor each chapter is peppered with anecdotes that every married person can relate to and that help bring issues to life The authors also propose frank and honest solutions that can help couples have more satisfying relationships Anyone looking to improve their marriage will find suggestions for sussing out the underlying problems they may be experiencing and guidance for addressing those problems **Preparing Couples for Love and Marriage** Cameron Lee, James L. Furrow, 2013-10-15 Good preparation enables couples to take a first step together in facing their future

challenges While no one can smooth away all the rough spots in the marital road ahead couples can be coached to pay attention to warning signs see the bumps before they hit them and deal more skillfully with inevitable conflicts This book provides pastors with a framework and tools for this ministry The good news is that you don't need any formal background in counseling because the kind of work we're talking about isn't counseling it's coaching a coach who can help couples to respond positively to the differences between them It's not about having the answers but is it about helping couples manage difficulties before they become serious threats to the marriage
