Smash Hits James E. Perone, 2016-10-17 We are what we listen to. That's the premise of this study of 100 songs that have shaped and defined the American experience from the Colonial period to the present. Well-known music author James Perone looks at 100 songs that helped tell America's story. He examines why each song became a hit, what cultural and social values it embodies, what issues it touches upon, what audiences it attracted, and what made it such a definitive part of American history and popular culture. The chart-topping singles presented here crossed gender, age, race, and class lines to appeal to the mass American audience. The book discusses patriotic songs, minstrel music, and sacred songs and hymns, as well as music in the broad categories of pop, rock, hip-hop, jazz, country, and folk. An introduction provides an overview of the history and significant issues raised by the songs as a whole. Individual songs are then presented chronologically based on when they were written. The revealing commentary for each hit is not only interesting and fun but reveals what it was like to live in the United States at a particular time by unveiling the social, economic, and political issues, as well as the musical tastes that made life what it was.

Schizoanalytic Ventures at the End of the World Jan Jagodzinski, 2019-03-21 This book provides a thorough application of theoretical ideas from Deleuze and Guattari to a series of examples drawn from contemporary film and new media arts. Chapters demonstrate examples of how to do schizoanalysis in philosophically informed cinema studies, new media, and arts-based education. Schizoanalysis, as proposed by Deleuze and Guattari in distinction to Lacanian psychoanalysis, provides an imaginary basis to address the precarity of the contemporary

world order from the growing populism with its authoritarian fascist tendencies to the growing concerns regarding climate change within the Anthropocene Part I of this book initiates this understanding through cinematic examples Part II calls for a schizoanalytic pedagogical imagination which is needed to provide insight into the structures of desire as they circulate in media especially videogames and the tensions between analogue and digital technological manifestations Such pedagogy enables an understanding of the new materialism where nonhuman and inhuman AI agencies are taken into account To this end schizoanalytic pedagogy calls for a new earth of transformed values and relationships
