What Is Going On In The Land Of Freedom?

Eliane Belshaw,2022-08-01 The ability to critical thinking is our first ability that should come before our right of freedom of speech If we cannot think by ourselves we cannot speak by ourselves either In this book we analyze a few controversial events and subjects breaking them down under a moderate rational point of view analyzing them together with the readers and in the light of the ration to exercise our ability to critical think following Descartes rationalism I was born under a dictatorship regime where we were not able to vote for president we didn t have freedom of expression and we could not fight for a better future Many people that fought against the regime are now dead Now that I can enjoy freedom here in America it is very difficult to observe people trying to implement the censorship in our environment and suppressing one of our rights the freedom of expressing ourselves In addition it is impossible to be in silence while the mainstream media is trying to manipulate our minds and curtail our right to think by ourselves This book is a good exercise to everyone that wants to grow strong against the mainstream media mind control and to everyone that is strong enough to empower the thinking diversity and the discussion exercise
