Bomhard,1984-01-01 This book represents the culmination of the author s work to date it incorporates and updates previous articles and adds much new material This book is not nor was it ever intended to be a comparative grammar of either the Indo European or the Afroasiatic language families It is rather a comparison of Proto Indo European with Proto Afroasiatic While this is not the first attempt to demonstrate that Proto Indo European and Proto Afroasiatic are genetically related it is the first to use the radical revision of the Proto Indo European consonantal system proposed by Thomas V Gamkrelidze Paul J Hopper and Vja eslav V Ivanov Moreover unlike previous endeavors this is the first to make extensive use of data from the non Semitic branches of Afroasiatic The assumptions underlying this investigation of the possibility of the common genetic origin of Proto Indo European and Proto Afroasiatic differ considerably from the assumptions made in other works on Nostratic the methodological approach followed in this monograph has been one of rigorous adherence to the time honored principles of comparative reconstruction
