Making Of A Class Cadres In French Society:

The Making of a Class Luc Boltanski, 1987 **Anticommunism in French Society and Politics, 1945-1953** Aaron Clift, 2023 A work which evaluates anticommunism among the French population 1945 1953 examining its causes character and consequences through a series of case studies on areas of French society including the scouting movement family organisations agricultural associations middle class groups and trade unions and other working class organisations The Making of the Chinese Middle Class Jean-Louis Rocca, 2016-11-07 This book analyses the making of the Chinese middle class that started in the 1990s using a constructivist approach With the development of the Chinese economy a new group of middle wage earners appeared Chinese social scientists and state institutions promoted the idea that China needs a middle class to achieve modernization Middle class members are defined and define themselves as good consumers educated people politically engaged but reasonable citizens As such the making of the middle class is the result of three convergent phenomena an attempt to define the middle class a process of civilization and the development of protest movements The making of the Chinese middle class Rocca argues is a way to end the stalemate that modern Chinese society is facing in particular the necessity to democratize without introducing an election system **Americanization and Its Limits** Jonathan Zeitlin, Gary Herrigel, 2004 An analysis of Americanization in European and Japanese industry after World War II The contributors analyze the creative role of local actors in selectively adapting US technology and management methods to suit local conditions and in creating hybrid forms combining foreign and indigenous practices in unforeseen yet remarkably competitive ways Good Neighbors Sylvie Tissot, 2015-06-01 Does gentrification destroy diversity Or does it thrive on it Boston s South End a legendary working class neighborhood with the largest Victorian brick row house district in the United States and a celebrated reputation for diversity has become in recent years a flashpoint for the problems of gentrification It has born witness to the kind of rapid transformation leading to pitched battles over the class and race politics throughout the country and indeed the contemporary world This subtle study of a storied urban neighborhood reveals the way that upper middle class newcomers have positioned themselves as champions of diversity and how their mobilization around this key concept has reordered class divisions rather than abolished them **Comparing European Workers** David Brady, 2011-06-22 Focuses on the politics economics sociology and history of work and workers in Europe This title places the labor markets workplaces jobs and workers of Europe in comparative perspective and compares contemporary patterns and the history of European workers with other models of work worldwide **Classic and Contemporary Readings in Sociology** Ian Marsh, Rosie Campbell, Mike Keating, 2014-05-12 Classic and Contemporary Readings in Sociology introduces the reader to sociological issues theories and debates providing extracts of primary source material from both classical and contemporary theorists Theorists are examined within their historical and sociological framework and the text provides an analysis of developments in sociological thought and research The text is divided into four main sections Part One Origins

and Concepts surveys the history of the discipline of sociology and examines key themes which have influenced sociological theorising and investigation in particular social control culture and socialisation Parts Two and Four Sociological Theories and Sociological Research include a number of readings from the founding theorists and investigators including Auguste Comte Emile Durkheim Karl Marx Max Weber and Charles Booth and also include more recent theoretical writing and research approaches The focus on theory and research is extended by a selection of readings centred around the theme of Differences and Inequalities Part Three these readings provide students with examples of work from an area where sociological theorising and research has been widely applied

Social Europe Joe Bailey, 2014-06-03 Since the first edition of Social Europe was published in 1992 profound social changes have occurred throughout Europe as a result of conflicting pressures on the one hand to become more integrated and on the other to protect national interests and identity This second edition of Social Europe has been fully revised to provide a comprehensive and focused account of basic social issues and structures which provide the context for these changes Each chapter covers a key topic such as education crime gender health and religion and provides valuable comparisons between the key nation states of Western Europe

A History and Theory of the Social Sciences Peter Wagner, 2001-07-17 Divided into two parts this book examines the train of social theory from the 19th century through to the organization of modernity in relation to ideas of social planning and as contributors to the rationalistic revolution of the golden age of capitalism in the 1950s and 60s Part two examines key concepts in the social sciences It begins with some of the broadest concepts used by social scientists choice decision action and institution and moves on to examine the collectivist alternative the concepts of society culture and polity which are often dismissed as untenable by postmodernists today This is a major contribution to contemporary social theory and provides a host of essential insights into the task of social science today

Managerial Capitalism Gérard Duménil, Dominique Lévy, 2018-03-20 The debate around growing inequality is raging amongst economists and Marxists are finding new ways to map out the modern economy Managerial Capitalism introduces a new way of understanding the changing structure of our economy through the emergence and behaviour of a new class managers In the post war years as social democracy reigned managers tended to form compromises with workers However under neoliberalism allegiances have shifted Today a new alliance is forming between managers and capitalist owners changing the nature of the hierarchy of power under capitalism Additionally the authors argue this is happening much faster and universally than was previously thought By applying Marx's basic concepts to the reality of the system today through the use of extensive data sets as well as firmly rooting the argument in its historical context Managerial Capitalism updates Marxism for the twenty first century through showing how the modes of production today are shaped by a new class that must be understood if it is to be challenged

Fertility, Class and Gender in Britain, 1860-1940 Simon Szreter, 2002-07-25 This book offers an original interpretation of the history of falling fertilities in Britain between 1860 and 1940 It integrates the approaches of the social sciences and of demographic feminist and labour

history with intellectual social and political history It exposes the conceptual and statistical inadequacies of the orthodox picture of a national unitary class differential fertility decline and presents an entirely new analysis of the famous 1911 fertility census of England and Wales Surprising and important findings emerge concerning the principal methods of birth control births were spaced from early on in marriage and sexual abstinence by married couples was a far more significant practice than previously imagined The author presents a new general approach to the study of fertility change raising central issues concerning the relationship between history and social science *The Spirit of Luc Boltanski* Simon Susen, Bryan S. Turner, 2014-11-01 What is the relevance of Luc Boltanski s pragmatic sociology of critique to central issues in contemporary social and political analysis In seeking to respond to this question this book contains critical commentaries from prominent social theorists attempting to map out the influence and broad scope of Boltanski s oeuvre The France of the Little-Middles Marie Cartier, Isabelle Coutant, Olivier Masclet, Yasmine Siblot, 2016-08-01 The Poplars housing development in suburban Paris is home to what one resident called the Little Middles a social group on the tenuous border between the working and middle classes In the 1960s The Poplars was a site of upward social mobility which fostered an egalitarian sense of community among residents This feeling of collective flourishing was challenged when some residents moved away selling their homes to a new generation of upwardly mobile neighbors from predominantly immigrant backgrounds This volume explores the strained reception of these migrants arguing that this is less a product of racism and xenophobia than of anxiety about social class and the loss of a sense of community that reigned before **The Politics of French Business 1936-1945** Richard Vinen, 2002-08-08 A re examination of French industry s relations with the Popular Front government and its Vichy successor **The Politics of Social Solidarity** Peter Baldwin, 1990 By analyzing the competing concerns of different social actors behind the evolution of social policy this study explains why some nations had an easy time in developing a welfare state while others fought long entrenched battles *Gender And Career In Science And Engineering* Julia Evetts, 1996-02-23 What happens to women and men who become professional engineers and scientists and work for British industrial organizations This book explores this question by focusing on real case studies The gender differences in how such careers are developed The Social Construction of Democracy George Reid Andrews, Herrick Chapman, 1997-05 The recent revival of democracy across much of the globe and the fragility of many of the new regimes have inspired renewed interest in the origins of dictatorship and democracy in modern times This book assembles renowned specialists on Eastern and Western Europe the U S Latin America and Japan to explore why democracies have succeeded and why they have failed over the past 100 years **The Concept of Community from a Global Perspective** , 2024-05-21 This volume presents essays analysing the ambivalent history of the globally influential political and social concept of community and the paradigms it has engendered in academia and politics While the term community often evokes positive sentiments it is also linked to oppressive regimes and exclusion A survey of the term s use is followed by studies of the sociologist Ferdinand T

nnies and of the use of the term in disciplines such as politics applied linguistics anthropology literary theory philosophy and intellectual history The volume concludes with an analysis of the application of the concept in politics in the UK debates between liberals and communitarianists utopianism and African philosophy Contributors are Niall Bond Christopher Adair Toteff Daniel Alvaro Alexander Wierzock Sebastian Klauke Antonin Cohen Jan Buts St phane Vibert R mi Astruc Elisabeth Bouzonviller Fran oise Orazi Andrew Vincent Astrid von Busekist Robert Kramm and Thaddeus Metz An Invitation to Reflexive Sociology Pierre Bourdieu,Loïc J.
