Making Of Textual Culture:

The Making of Textual Culture Martin Irvine, 1994-04-28 This is the a major study of the cultural work performed by grammatica the central discipline concerned with literacy language interpretation and literature in medieval society Grammatica was with all aspects of Latin literary text its language meaning and value Martin Irvine demonstrates that grammatica though the first of the liberal arts was not simply one discipline among many it had an essentially constitutive function defining language meaning and texts for other medieval disciplines Martin Irvine draws together several aspects of medieval culture literary theory the nature of literacy education biblical interpretation the literary canon and linguistic thought in order to disclose the more far reaching social effect of grammatica chief of which was the making of textual culture in the medieval West *Rezension: Martin Irvine, "The Making of Textual Culture : "grammatica" and Literary Theory 350-1100"* Michael Stolz, 1995 Rezension Martin Irvine: The Making of Textual Culture, "grammatica" and Literary Theory, 350-1100 Anna A. Grotans, 1997 The Development of Education in Medieval Iceland Ryder Patzuk-Russell, 2021-02-08 Medieval Iceland is known for the fascinating body of literary works it produced from ornate court poetry to mythological treatises to sagas of warrior poets and feud culture This book investigates the institutions and practices of education which lay behind not only this literary corpus but the whole of medieval Icelandic culture religion and society By bringing together a broad spectrum of sources including sagas law codes and grammatical treatises it addresses the history of education in medieval Iceland from multiple perspectives It shows how the slowly developing institutions of the church shaped educational practices within an entirely rural society with its own distinct vernacular culture It emphasizes the importance of Latin despite the lack of surviving manuscripts and teaching and learning in a highly decentralized environment Within this context it explores how medieval grammatical education was adapted for bilingual clerical education which in turn helped create a separate and fully vernacularized grammatical discourse **Guardians of Letters** Kim Haines-Eitzen, 2000-12-07 Who were the scribes that copied early Christian literature during the second and third centuries What roles did they play in the reproduction and dissemination of these writings To answer these questions this study utilizes evidence from early Christian literature and the earliest Christian papyri including their form physical features and textual characteristics Joinings Jonathan Davis-Secord, 2016-01-01 The first comprehensive study of the use of compound words in Old English poetry homilies and philosophy Joinings explores the effect of compounds on style pace clarity and genre in Anglo Saxon vernacular literature Jonathan Davis Secord demonstrates how compounds affect the pacing of passages in Beowulf creating slow motion narrative at moments of significant violence how their structural complexity gives rhetorical emphasis to phrases in the homilies of Wulfstan and how they help to mix quotidian and elevated diction in Cynewulf s Juliana and the Old English translations of Boethius His work demonstrates that compound words were the epitome of Anglo Saxon vernacular verbal art combining grammar style and culture in a manner unlike any other feature of Old English

Models of Change in Medieval Textual Culture Jonatan Pettersson, Anna Blennow, 2024-08-07 **Locations of Knowledge in Medieval and Early Modern Europe** Kocku Von Stuckrad, 2010 Addressing discourses of perfect knowledge in Western culture between 1200 and 1800 this book integrates the study of Western esotericism in a larger analytical framework of European history of religion **Indigenous Textual Cultures** Tony Ballantyne, Lachy Paterson, Angela Wanhalla, 2020-08-10 The contributors to Indigenous Textual Cultures examined the ways in which indigenous peoples created textual cultures to navigate shape and contest empire colonialism and modernity **Textual Cultures of Medieval Italy** William Randolph Robins, 2011-01-01 Based on papers presented at the 41st Conference on Editorial Problems held at the University of Toronto Toronto Ont from Nov 6 8th 2005 **Race and Ethnicity in Anglo-Saxon Literature** Stephen Harris, 2004-06-01 What makes English literature English This question inspires Stephen Harris's wide ranging study of Old English literature From Bede in the eighth century to Geoffrey of Monmouth in the twelfth Harris explores the intersections of race and literature before the rise of imagined communities Harris examines possible configurations of communities illustrating dominant literary metaphors of race from Old English to its nineteenth century critical reception Literary voices in the England of Bede understood the limits of community primarily as racial or tribal in keeping with the perceived divine division of peoples after their languages and the extension of Christianity to Bede's Germanic neighbours was effected in part through metaphors of family and race Harris demonstrates how King Alfred adapted Bede in the ninth century how both exerted an effect on Archbishop Wulfstan in the eleventh and how Old English poetry speaks to images of race **The Matter of Capital** Christopher Nealon, 2011-04 Christopher Nealon's reexamination of North America's poetry in English from Ezra Pound and W H Auden to younger poets of the present day argues persuasively that the central literary project of the past century was to explore the relationship between poetry and capitalism its impact on individuals communities and cultures **The Protean Virgil** Craig Kallendorf, 2015 The Protean Virgil argues that when we try to understand how and why different readers have responded differently to the same text over time we should take into account the physical form in which they read the text as well as the text itself Using Virgil's poetry as a case study in book history the volume shows that a succession of material forms manuscript printed book illustrated edition and computer file undermines the drive toward textual and interpretive stability This stability is the traditional goal of classical scholarship which seeks to recover what Virgil wrote and how he intended it to be understood The manuscript form served to embed Virgil's poetry into Christian culture which attempted to anchor the content into a compatible theological truth Readers of early printed material proceeded differently breaking Virgil's text into memorable moral and stylistic fragments and collecting those fragments into commonplace books Furthermore early illustrated editions present a progression of re-envisionings in which Virgil's poetry was situated within a succession of receiving cultures In each case however the material form helped to generate a method of reading Virgil which worked with this form but which failed to survive the transition to a new union of the textual and the

physical This form induced instability reaches its climax with computerization which allows the reader new power to edit the text and to challenge the traditional association of Virgil's poetry with elite culture

Augustine and the Disciplines Karla Pollmann, Mark Vessey, 2005-06-09 Augustine and the Disciplines takes its cue from Augustine's theory of the liberal arts to explore the larger question of how the Bible became the focus of medieval culture in the West Augustine himself became increasingly aware that an ambivalent attitude towards knowledge and learning was inherent in Christianity By facing the intellectual challenge posed by this tension he arrived at a new theory of how to interpret the Bible correctly The topics investigated here include Augustine's changing relationship with the disciplines as he moved from an attempt at their Christianization in the philosophical dialogues of Cassiciacum to a radical reshaping of them within a Christian world view in the *De Doctrina Christiana* and *Confessiones* the factors that prompted and facilitated his change of perspective and the ways in which Augustine's evolving theory reflected contemporary trends in Christian pedagogy

Reading Renunciation Elizabeth A. Clark, 1999-07-19 A study of how asceticism was promoted through Biblical interpretation Reading Renunciation uses contemporary literary theory to unravel the writing strategies of the early Christian authors Not a general discussion of early Christian teachings on celibacy and marriage the book is a close examination in the author's words of how the Fathers' axiology of abstinence informed their interpretation of Scriptural texts and incited the production of ascetic meaning Elizabeth Clark begins with a survey of scholarship concerning early Christian asceticism that is designed to orient the nonspecialist Section Two is organized around potentially troubling issues posed by Old Testament texts that demanded skillful handling by ascetically inclined Christian exegetes The third section Reading Paul focuses on the hermeneutical problems raised by I Corinthians 7 and the Deutero Pauline and Pastoral Epistles Elizabeth Clark's remarkable work will be of interest to scholars of late antiquity religion literary theory and history

The Empire of the Text Christopher Leigh Connery, 1998 This unique study argues that in the Qin Han period there arose in China a regime of textual authority—one that overlapped but did not coincide with imperial authority Drawing on a wide range of research and theory Connery makes an original contribution to the analysis of early imperial elite culture particularly in the fields of literature and linguistics intellectual and institutional history The author provides new contexts for thinking about canonization and textual transmission systems an innovative framework for analysis and discussion of the early imperial elite a socio ideological exploration of one strand of late Han Confucian thought and a critique of the concepts of subjectivity and the birth of lyricism in China

Homo Narrans John D. Niles, 2010-08-03 It would be difficult to imagine what human life would be like without stories from myths recited by Pueblo Indian healers in the kiva ballads sung in Slovenian market squares folktales and legends told by the fireside in Italy to jokes told at a dinner table in Des Moines for it is chiefly through storytelling that people possess a past In *Homo Narrans* John D. Niles explores how human beings shape their world through the stories they tell The book vividly weaves together the study of Anglo Saxon literature and culture with the author's own engagements in

the field with some of the greatest twentieth century singers and storytellers in the Scottish tradition Niles ponders the nature of the storytelling impulse the social function of narrative and the role of individual talent in oral tradition His investigation of the poetics of oral narrative encompasses literary works such as the epic poems and hymns of early Greece and the Anglo Saxon Beowulf texts that we know only through written versions but that are grounded in oral technique That all forms of narrative even the most sophisticated genres of contemporary fiction have their ultimate origin in storytelling is a point that scarcely needs to be argued Niles's claims here are more ambitious than oral narrative is and has long been the chief basis of culture itself that the need to tell stories is what distinguishes humans from all other living creatures *New Medieval Literatures* 25 Laura Ashe, Philip Knox, Caroline Batten, Wendy Scase, 2025-04-15 This volume continues the series engagement with intellectual and cultural pluralism in the Middle Ages showing the best new work in the field Essays in this volume deal with texts from the ninth to the fifteenth century and include some unexpected comparisons with British Romanticism Great attention is paid to manuscripts in their contexts and situations of production thirteenth century mortuary rolls are examined as sites of fluidly variegated scribal training and practice revealing a scriptscape of social networks spread across the country Elsewhere close analysis of manuscripts known to have belonged to Henry Despenser bishop of Norwich 1370-1406 makes the case for an effective scribal atelier in the city presided over by the Despenser Master Three essays are linked by a consideration of didactic writing the Old English translation of Gregory the Great's Pastoral Care is analysed both textually and paleographically for what it reveals about grammatical study in England's early Middle Ages and the moral freight of that learning a comparative analysis of multilingual retellings of sheep fables making an important contribution to animal studies and recent violent historical events are shown to have been reshaped into a parable for the instruction of wives in the Mesnagier de Paris Finally Gower's expansive geographical and genealogical imaginary in the Confessio Amantis reveals the impossibility of controlling the affordances of his multivalent East while the Alliterative Morte Arthur is newly examined for its representation of mountains and mountaineering as sites of active moral allegory and spiritual importance as well as real world experiences of beauty and danger **The Reform of the Frankish Church** Martin A. Claussen, 2004 Chrodegang of Metz c. 712-766 was a leading figure of the late Merovingian and early Carolingian Church Born to one of the principal aristocratic families in Austrasia he served as referendary of Charles Martel and was appointed bishop of Metz in the 740s As bishop Chrodegang became one of the foremost churchmen in Francia chairing councils founding monasteries and beginning a reform of the lives of the canons of the Metz cathedral This book is a major study in the English language on Chrodegang examining his preoccupation with the creation of communities of faith and concord modelled on the early Church It explores his attempts to unite the Frankish episcopacy his rule for the cathedral clergy in Metz the Regula canonicorum and his introduction of new liturgical practices that sought to transform his see into a hagiopolis a holy city which provided a model for later Carolingian reform *Mere Christian Hermeneutics* Kevin J.

Vanhoozer, 2024-10-01 Southwestern Journal of Theology 2024 Book of The Year Christianity Today 2024 Theology Book Award The Gospel Coalition 2024 Biblical Studies Book Award Reading the Bible to the glory of God In 1952 C S Lewis's Mere Christianity eloquently defined the essential tenets of the Christian faith With the rise of fractured individualism that continues to split the church this approach is more important now than ever before for biblical hermeneutics Many Christians wonder how to read the text of Scripture well rightly and faithfully After all developing a strong theory of interpretation has always been presented by two enormous challenges A variety of actual interpretations of the Bible even within the context of a single community of believers The plurality of reading cultures denominational disciplinary historical and global interpretive communities each with its own frame of reference In response influential theologian Kevin J Vanhoozer puts forth a mere Christian hermeneutic essential principles for reading the Bible as Scripture everywhere at all times and by all Christians To center his thought Vanhoozer turns to the accounts of Jesus transfiguration a key moment in the broader economy of God's revelation to suggest that spiritual or figural interpretation is not a denial or distortion of the literal sense but rather its glorification Irenic without resorting to bland ecumenical tolerance Mere Christian Hermeneutics is a powerful and convincing call for both church and academy to develop reading cultures that enable and sustain the kind of unity and diversity that a mere Christian hermeneutic should call for and encourage
