**Geology and Warfare** Edward P. F. Rose, C. Paul Nathanail, 2000 Records lessons learnt from military experience in World War I and II It also contains perspectives from America which show how in warfare military geologists irrespective of nationality have pursued tactical and strategic terrain analysis fortifications and tunnelling and resource acquisition defence installations and field constructions and logistics It shows how in peace time military geologists train for wartime operations and may be involved in peace keeping and nation building deployments Bullets, Bombs, and Bayonets Edward N. Ross, 2016-08-25 Bullets Bombs and Bayonets draws attention to a significant part of Canadian military history a period in which almost an entire generation of young men never returned from the battlefields of Europe In 2017 Canada commemorates the 100th year of the Battle of Vimy Ridge The triumphant conquering of Vimy by the Canadian Corps in April 1917 was considered a defining moment in Canada's rise to nationhood Equally significant but much less publicized was the Canadian victory at Passchendaele in the fall of 1917 It was there that more than 4 000 Canadian soldiers died and almost 12 000 wounded The Battle of Passchendaele will be forever remembered as a colossal slaughter in the mud of Flanders fields Bullets Bombs and Bayonets acknowledges those members of the 43rd Battalion who fought and died in the Ypres Salient in the name of freedom Library of Congress Subject Headings Library of Congress, 2002 Library of Congress Subject Headings Library of Congress. Cataloging Policy and Support Office, 2002 *First World War Great Battles: 5 Minute History* Scott Addington, 2014-04-01 How did the First World War start Who were the main players Where did the fighting begin And why were there so many casualties If the 100 year anniversary of this war to end all wars has left you feeling a little under informed Five Minute History is the perfect way to read up on this major conflict in short bursts and without pages of intricate detail A perfect overview for the uninitiated each book will inform and educate you of the ups and downs of the First World War even if you have never read a history book in your life **Battle Scarred** Craig Deayton, 2011-03-07 The dead and wounded of the 47th lay everywhere underfoot With these words Charles Bean Australia's Official War Historian described the battlefield of Dernancourt on the morning of the 5th of April 1918 strewn with the bodies of the Australian dead It was the final tragic chapter in the story of the 47th Australian Infantry Battalion in the First World War One of the shortest lived and most battle hardened of the 1st Australian Imperial Force's battalions the 47th was formed in Egypt in 1916 and disbanded two years later having suffered one of the highest casualty rates of any Australian unit Their story is remarkable for many reasons Dogged by command and discipline troubles and bled white by the desperate attrition battles of 1916 and 1917 they fought on against a determined and skilful enemy in battles where the fortunes of war seemed stacked against them at every turn Not only did they have the misfortune to be called into some of the A I F's most costly campaigns chance often found them in the worst places within those battles Though their story is one of almost unrelieved tragedy it is also story of remarkable courage endurance and heroism It is the story of the 1st A I F itself punished beaten

sometimes reviled for their indiscipline they fought on fewer leaner and harder until final victory was won And at its end in an extraordinary gesture of mateship the remnants of the 47th Battalion reunited Having been scattered to other units after their disbandment the survivors gathered in Belgium for one last photo together Only 73 remained Supporting Tunnelling Operations in the Great War Damien Finlayson,2018-09-30 Few soldiers on the Western Front had heard of the Australian Electrical and Mechanical Mining and Boring Company even after it had been renamed the Alphabet Company by an AIF wag Yet many knew the work of this tiny unit which numbered fewer than 300 at full strength Despite its small size the Alphabet Companys influence was enormous and spanned the entire British sector of the Western Front from the North Sea to the Somme This is the story of the Alphabeticals who led by Major Victor Morse DSO operated and maintained pumps generators ventilation fans drilling equipment and other ingenious devices in extreme circumstances Given the horrendous conditions in which the troops lived and fought this equipment was desperately needed as were the men who operated it in the same often nightmarish setting This is the first account of the dynamic little unit that was the Alphabet Company a unit that has been neglected by history for a century It is the story of the men their machinery and the extraordinary grit they displayed in performing some of the most difficult tasks in a war noted for the horrific conditions in which it was waged They do not deserve to be forgotten **The Welsh at War: The Grinding War** Steven John,2020-01-31 The Welsh at War trilogy is the culmination of over twelve years of painstaking research by the author into the Welsh men and infantry units who fought in the Great War These units included the four regular regiments the Royal Welsh Fusiliers South Wales Borderers Welsh Regiment and Welsh Guards as well as the Territorial Monmouthshire Regiment the Yeomanry regiments the Denbighshire Hussars Pembroke Yeomanry Montgomeryshire Yeomanry Glamorgan Yeomanry and Welsh Horse Yeomanry and their amalgamation into service battalions for the regular regiments during 1917 Welsh troops fought with great courage in every theater of the war the Western Front Aden China Gallipoli Egypt India Italy Salonika and in Palestine and in addition to the casualties suffered during these campaigns many men gained recognition for acts of gallantry The three volumes split chronologically cover all of the major actions and incidents in which each of the Welsh infantry regiments took part as well as stories of Welsh airmen Welshmen shot at dawn Welsh rugby players who fell Welsh gallantry winners and the Welshmen who died in non Welsh units such as the Dominion forces and other units of the British armed forces The Welsh at War records the gallant work of Welsh units and servicemen during the period between the arrival of the 38th Welsh Division in France during December 1915 until the aftermath of the Battle of Arras in the summer of 1917 covering the campaigns in Mesopotamia Salonika Egypt and Palestine the Battle of Jutland the Somme offensive the German Withdrawal to the Hindenburg Line the Battle of Arras the Battle of Messines Ridge and the build up to the Third Battle of Ypres *Narrow Gauge in the Ypres Sector* Martin J B Farebrother,Joan S Farebrother,2024-06-06 The Ypres sector of the Western Front was held predominantly by the British and Dominions Armies from 1914 to 1918 The Ypres Salient at the centre of this sector was

one of the most intensively fought over single locations of the First World War By the end of 1917 the sector was full of railways dumps camps and other facilities Much was lost in the German advance in April 1918 but from September 1918 the German Army was driven eastwards until the Armistice Although Ypres and most of the forward areas are in Belgium much of the support area is in northern France In this book the meter gauge networks of both countries established before the First World War are examined with their uses and extensions during the War The build up of light 60cm gauge railways from 1916 to 1918 is described with an assessment of the contribution of both narrow gauges to the war effort After the war the light railways in this sector were generally used only for short term clearing up and salvage The meter gauge railways in Belgium were rebuilt or repaired Those in France had been less affected The story is followed to the closure of the last of these railways This book is a companion volume to those on the Arras Sector 2015 and the Somme Sector 2018 It refers to other previous works on British French and Belgian railways especially during the First World War but contains sufficient information to stand alone

*Beneath Flanders Fields* Peter Barton, Peter Doyle, Johan Vandewalle, 2005 After Messines the tunnellers turned to the construction of deep dugouts structures which housed tens of thousands of troops men for whom life on the surface had become almost untenable Often electrically lit and ventilated they incorporated headquarters cookhouses soup kitchens hospitals drying rooms and workshops Hundreds were built and thanks to the Flanders geology many still survive today and are can be seen in photographs in this book

lucky escapes of some the tragic end of others The homecoming why there was no hero's welcome Includes over 300 photographs and items of memorabilia from the lives of these brave men and their families An important book that opened up the conversation in Ireland about our role in World War I Updated and with a new introduction Conflict Landscapes Nicholas J. Saunders, Paul Cornish, 2021-06-24 Conflict Landscapes explores the long under acknowledged and under investigated aspects of where and how modern conflict landscapes interact and conjoin with pre twentieth century places activities and beliefs as well as with individuals and groups Investigating and understanding the often unpredictable power and legacies of landscapes that have seen and often still viscerally embody the consequences of mass death and destruction the book shows through these landscapes the power of destruction to preserve refocus and often reconfigure the past Responding to the complexity of modern conflict the book offers a coherent integrated and sensitized hybrid approach which calls on different disciplines where they overlap in a shared common terrain Dealing with issues such as memory identity emotion and wellbeing the chapters tease out the human experience of modern conflict and its relationship to landscape Conflict Landscapes will appeal to a wide range of disciplines involved in studying conflict such as archaeology anthropology material culture studies art history cultural history cultural geography military history and heritage and museum studies

**'Ours'** Ian Ronayne, 2009-08-03 For the first time the story of Jersey in the First World War is revealed Whilst the island's role in the Second World War is well documented a generation earlier another devastating war had struck Jersey jeopardising the lives and liberties of its people In 1915 a band of 300 young men known as the Jersey Company volunteered to fight for king and country in a war beyond the comprehension of many Feted as heroes they proudly took their place in the trenches of the Western front But the war was to have a devastating effect both on the Jersey Company and their island Soon the volunteers were not only fighting the enemy but also waging a bitter struggle for continued recognition and support from home Accompanied by some incredible rare photographs this book tells the moving but ultimately tragic story of one small and unique unit caught in the maelstrom of the Great War This is an eye opening account of one of the most important periods in Jersey's history and promises to fascinate anyone interested in the island's extraordinary past **Someone Else's War** John Connor, 2019-08-22 World War I was the first truly global conflict and its effects were felt across the British Empire When war broke out in 1914 Great Britain had the largest empire encompassing one quarter of the population of the world Many colonial citizens were to be enlisted into the war effort and shipped from their homes in Africa Asia and Australasia to fight on the battlefields of the Western Front What was the experience of war like for citizens of empire whether combatants or not How did the empire affect countries administered by Great Britain but geographically located tens of thousands of miles from the conflict In this book John Connor tells the story of the people whose lives were profoundly affected by someone else's war dragged against their will into a geopolitical conflict vastly removed from their normal lives
