**The Metaphysics of Night** Matthew Del Nevo, 2017-09-08 The Metaphysics of Night acknowledges a post secular philosophy one that puts philosophy into serious dialogue with religion rather than considering religion a thing of the past Matthew Del Nevo deals with the cultural unconscious inseparable from religious consciousness and draws on psychoanalysis and literature as well as philosophy The metaphysics of the night is Del Nevo's metaphor for the deep and mysterious expanse of the soul Philosophically the book is critical of Enlightenment presumptions about knowledge and truth and overly spiritualizing tendencies in religion Its critical edge cuts against materialist and historicist tendencies in the humanities and abstract intellectualism in philosophy Arguing for strong aesthetic values Del Nevo defends and explains soul and soulful experience the creation of depth the ineffable real presence beauty and saving words noting that the sources of all these are in us but often are blocked Each of the five parts of this book testify to what the author notes may be forgotten but which ought not to be forgotten It is necessary for life as socially religiously and educationally instituted within culture and as constitutive for culture Del Nevo deals with sensibility as a form of wisdom and instinct that is not cognitive or knowledge information based He argues for a shift of emphasis in culture from intellect to intuition This well written work filled with Catholic philosophic and artistic thought will be of interest to all philosophers theologians and students of culture

*Life* ,1925 *Orphic Tradition and the Birth of the Gods* Dwayne A. Meisner,2018-07-17 The hatching of the Cosmic Egg the swallowing of Phanes by Zeus and the murder of Dionysus by the Titans were just a few of the many stories that appeared in ancient Greek epic poems that were thought to have been written by the legendary singer Orpheus Most of this poetry is now lost surviving only in the form of brief quotations by Greek philosophers Orphic Tradition and the Birth of the Gods brings together the scattered fragments of four Orphic theogonies the Derveni Eudemian Hieronyman and Rhapsodic theogonies Typically theogonies are thought to be poetic accounts of the creation of the universe and the births of the gods leading to the creation of humans and the establishment of the present state of the cosmos The most famous example is Hesiod s Theogony which unlike the Orphic theogonies has survived But did Orphic theogonies look anything like Hesiod s Theogony Meisner applies a new theoretical model for studying Orphic theogonies and suggests certain features that characterize them as different from Hesiod the blending of Near Eastern narrative elements that are missing in Hesiod the probability that these were short hymns more like the Homeric Hymns than Hesiod and the continuous discourse between myth and philosophy that can be seen in Orphic poems and the philosophers who quote them Most importantly this book argues that the Orphic myths of Phanes emerging from the Cosmic Egg and Zeus swallowing Phanes are at least as important as the well known myth of Dionysus being dismembered by the Titans long thought to have been the central myth of Orphism As this book amply demonstrates Orphic literature was a diverse and ever changing tradition by which authors were able to think about the most current philosophical ideas through the medium of the most traditional poetic forms The Paradox of Trauma and Growth in Pastoral and Spiritual Care Mary Beth Werdel,2023-10-24 The Paradox of Trauma and Growth in Pastoral and Spiritual Care Night Blooming introduces and bridges the gap between the psychological and spiritual perspectives and responses in trauma work illuminating the complexity of the human phenomenon of growth though suffering that is too easily misunderstood in the context of pastoral and spiritual care Through the hopeful metaphor of night bloomers rare plants that grow because of light but bloom in the darkness it is suggested that while psychological trauma is inherently negative and suffering creates a spiritual inner night moving through it may reveal a new complex reality of the human experience not previously understood We may see ourselves others or the world in a way that is stronger wiser deeper or more brilliant than we had known before The book presents the goal of pastoral and spiritual work is not to extinguish darkness Nor is it to solely focus on the light The work is to learn how to stay awake through the night without
