Modernism 1890 1930:

Modernism Malcolm Bradbury, James McFarlane, 1991 The period 1890 1930 produced literature that still feels contemporary and few movements can boast such an international wealth of innovative writers Apollinaire Brecht Joyce Kafka Strindberg Woolf and Yeats among many others This now classic survey explores the ideas the groupings and the social tensions that shaped this transformation as well as the literature itself and identifies the elements of shock and crisis central to Modernist style Appropriately the contributors display a stimulating variety of critical approaches and methods resulting in some of the most exciting and scholarly criticism yet written on Modernism **Modernism** Malcolm Bradbury, James Walter McFarlane, 1981 *Modernism* Malcolm Bradbury, James Walter McFarlane, McFarlane, James William McFarlane, 1976 **Modernism** Malcolm Bradbury, James Walter McFarlane, McFarlane, James William McFarlane, 1976 *Modernism [eighteen Ninety] 1890-1930. Ed. by Malcolm Bradbury, James McFarlane. (Repr.).*, 1981

Encounters Across Borders Mary Lee Bretz, 2001 Utilizing current literary and cultural theories with particular emphasis on theories of the other it traces the cultural specificity of modernism as it evolves in Spain and its links to the international movement **Modernism, Empire, World Literature** Joe Cleary, 2021-06-17 Offers a bold new argument about how Irish American and Caribbean modernisms helped remake the twentieth century world literary system **The Concept of Modernism** Astradur Eysteinnsson, 2018-07-05 The term modernism is central to any discussion of twentieth century literature and critical theory Astradur Eysteinnsson here maintains that the concept of modernism does not emerge directly from the literature it subsumes but is in fact a product of critical practices relating to nontraditional literature Intervening in these practices and correlating them with modernist works and with modern literary theory Eysteinnsson undertakes a comprehensive reexamination of the idea of modernism Eysteinnsson critically explores various manifestations of modernism in a rich array of American British and European literature criticism and theory He first examines many modernist paradigms detecting in them a conflict between modernism's culturally subversive potential and its relatively conservative status as a formalist project He then considers these paradigms as interpretations and fabrications of literary history Seen in this light modernism both signals a historical change on the literary scene and implies the context of that change Laden with the implications of tradition and modernity modernism fills its major function that of highlighting and defining the complex relations between history and postrealist literature Eysteinnsson focuses on the ways in which the concept of modernism directs our understanding of literature and literary history and influences our judgment of experimental and postrealist works in literature and art He discusses in detail the relation of modernism to the key concepts postmodernism the avant garde and realism Enacting a crisis of subject and reference modernism is not so much a form of discourse he asserts as its interruption a possible other modernity that reveals critical aspects of our social and linguistic experience in Western culture Comparatists literary theorists cultural historians and others interested in twentieth century literature and art will profit

from this provocative book **Modernism** Astradur Eysteinnsson, Vivian Liska, 2007-10-04 The two volume work *Modernism* has been awarded the prestigious 2008 MSA Book Prize. *Modernism* has constituted one of the most prominent fields of literary studies for decades. While it was perhaps temporarily overshadowed by postmodernism, recent years have seen a resurgence of interest in modernism on both sides of the Atlantic. These volumes respond to a need for a collective and multifarious view of literary modernism in various genres, locations, and languages. Asking and responding to a wealth of theoretical, aesthetic, and historical questions, 65 scholars from several countries test the usefulness of the concept of modernism as they probe a variety of contexts from individual texts to national literatures, from specific critical issues to broad cross-cultural concerns. While the chief emphasis of these volumes is on literary modernism, literature is seen as entering into diverse cultural and social contexts. These range from inter-art conjunctions to philosophical, environmental, urban, and political domains, including issues of race and space, gender and fashion, popular culture and trauma, science and exile, all of which have an urgent bearing on the poetics of modernity. The Challenge of Periodization Lawrence Besserman, 2014-02-04 In these essays, some of today's leading literary scholars and cultural critics re-examine major writers, genres, and themes in relation to their traditional period affiliations. The essays cover a broad range of writers and periods from the Middle Ages to the present, grouped in two main areas: Chaucer and Medieval, and Renaissance studies. Larry D. Benson, Heiko A. Oberman, Lee Patterson, and Aldo Scaglione, and English and American literary history. Sanford Budick, H. M. Daleski, Denis Donoghue, Robert J. Griffin, Geoffrey Hartman, J. Hillis Miller, Jerome McGann, and Helen Vendler. In addition to shedding new light on a specific author, each essay also refines or reinvigorates critical approaches to specific periods. The analyses illuminate and clarify our understanding of what are traditionally but problematically called the Medieval, Renaissance, Enlightenment, Romantic, Modern, and Postmodern eras in European cultural history. *Aesthetes and Decadents of the 1890s* Karl Beckson, 2005-08-30 The Aesthetic and Decadent Movement of the late 19th century spawned the idea of Art for Art's Sake, challenged aesthetic standards, and shocked the bourgeoisie. From Walter Pater's study *The Renaissance* to *Salome*, the truly decadent collaboration between Oscar Wilde and Aubrey Beardsley, Karl Beckson has chosen a full spectrum of works that chronicle the British artistic achievement of the 1890s. In this revised edition of a classic anthology, *The Ballad of Reading Gaol* has been included in its entirety; the bibliography has been completely updated. Professor Beckson's notes and commentary have been expanded from the first edition published in 1966. The so-called Decadent or Aesthetic period remains one of the most interesting in the history of the arts. The poetry and prose of such writers as Yeats, Wilde, Symonds, Johnson, Dowson, Barlas, Pater, and others are included in this collection, along with sixteen of Aubrey Beardsley's drawings. Cézanne and Modernism Joyce Medina, 1995-01-25 This book explores the contemporary modification of traditional relations among the arts. Interpreting Cézanne as a founder of Modernism, it focuses on an aesthetics of the image with roots in Bergson, Heidegger, and Merleau-Ponty, of equivalent value across the arts and in

literature The author argues that C zanne s transformation of traditional pictorial images and invention of radically new types of images resulted in the replacement of the mimetic motivation of the pictorial sign by symbolist plastic contemplative and visionary motivations These yielded four corresponding types of images all of which can be generally found together in all the great Modernist masters After surveying the transformation of the image in the psychological theories of the nineteenth century this investigation focuses on the Bergsonian philosophy of the image as a hermeneutical parallel of C zanne s pictorial theory and practice Included are original readings of the most important serial paintings of C zanne including the Mont Ste Victoire the Bathers and the Cardplayers Encyclopedia of Literary Modernism Paul Poplawski,2003-12-30

Modernism is still widely acknowledged as perhaps the most important and influential artistic and cultural phenomenon of the 20th century Written by expert scholars from around the world and covering hundreds of different topics in a clear incisive and critical manner this reference maps the complex field of modernism in a fresh and original way The principal focus of the book is on English language literary modernism and the period 1890 1939 yet many entries extend beyond those parameters to include important precursors and successors of the movement The book also covers the crucial European and interdisciplinary dimensions of modernism and provides complementary comparative perspectives from countries and regions not usually included in traditional accounts of the subject Entries cite works for further reading and the volume closes with a selected general bibliography *Modernism and Fascism* R. Griffin,2007-05-22 Intellectual debates surrounding modernity modernism and fascism continue to be active and hotly contested In this ambitious book renowned expert on fascism Roger Griffin analyzes Western modernity and the regimes of Mussolini and Hitler and offers a pioneering new interpretation of the links between these apparently contradictory phenomena **The Agon of Modernism** Anne Quéma,1999 Lewis s political writings present ambiguities his stated belief in the autonomy of art from life is contradicted by other statements he made and by his critical analyses of writers and his political writings blur any a priori generic distinction between art and non art Given this blurring between art and life artistic genre and non artistic genre Quema claims that Lewis s political texts present characteristics usually attributed to avant gardism However this radicalism has to be balanced against Lewis s conservatism Thus his political writings can be read as allegories with two pragmatic aims to organize the life of the polis from an artistic standpoint and to persuade the reader to adhere to authoritarian politics **BOOK JACKET** *The Turn of the Century* Christian Berg, Frank Durieux, Geert Lernout,1995 Rewritten versions of contributions to an international conference held at the University of Antwerp in May 1992 Starting point for the conference was the vagueness of the very terms modernism and modernity In the first section a group of comparatists address the theoretical and terminological problems of modernism Practical readings of modernist writers discussions of different modernist movements and the work of critics who have contributed to debates about modernism make up the second section The third section looks at the problem of modernism from an interartistic and interdisciplinary perspective *The Turn of the Century/Le tournant du*

Le tournant du siècle **The New Encyclopedia of Southern Culture** Charles Reagan Wilson, 2014-02-01 This volume of *The New Encyclopedia of Southern Culture* addresses the cultural social and intellectual terrain of myth manners and historical memory in the American South Evaluating how a distinct southern identity has been created recreated and performed through memories that blur the line between fact and fiction this volume paints a broad multihued picture of the region seen through the lenses of belief and cultural practice The 95 entries here represent a substantial revision and expansion of the material on historical memory and manners in the original edition They address such matters as myths and memories surrounding the Old South and the Civil War stereotypes and traditions related to the body sexuality gender and family such as debutante balls and beauty pageants institutions and places associated with historical memory such as cemeteries monuments and museums and specific subjects and objects of myths including the Confederate flag and Graceland Together they offer a compelling portrait of the southern way of life as it has been imagined lived and contested

Women Artists and Writers B. J. Elliott, Jo Ann Wallace, 2014-06-03 In this beautifully illustrated and provocative study Bridget Elliott and Jo Ann Wallace reappraise women's literary and artistic contribution to Modernism Through comparative case studies including Natalie Barney Virginia Woolf Vanessa Bell and Gertrude Stein the authors examine the ways in which women responded to Modernism and created their artistic identity and how their work has been positioned in relation to that of men Bringing together women's studies visual arts and literature *Women Writers and Artists* makes an important contribution to 20th century cultural history It puts forward a powerful case against the academic division of cultural production into departments of Art History and English Studies which has served to marginalize the work of female Modernists Modernism and Masculinity Gerald Izenberg, 2000-11 *Modernism and Masculinity* argues that a crisis of masculinity among European writers and artists played a key role in the modernist revolution Gerald Izenberg revises the notion that the feminine provided a premodern refuge for artists critical of individualism and materialism Industrialization and the growing power of the market inspired novelist Thomas Mann playwright Frank Wedekind and painter Wassily Kandinsky to feel the problematic character of their own masculinity As a result these artists each came to identify creativity transcendence and freedom with the feminine But their critique of masculinity created enormous challenges How could they appropriate a feminine aesthetic while retaining their own masculine identities How did appropriating the feminine affect their personal relationships or their political views *Modernism and Masculinity* seeks to answer these questions In this absorbing combination of biography and formal critique Izenberg reconsiders the works of Mann Wedekind Kandinsky and demonstrates how the curses of masculinity they endure are found not just within the images and forms of their art but in the distinct and very personal impulses that inspired it
