The Regenerators, 2nd Edition Ramsay Cook, 2016-01-01 A crisis of faith confronted many Canadian Protestants in the late nineteenth century With their religious beliefs challenged by the new biological sciences and historical criticism of the Bible they turned from personal salvation to the dire social problems of the industrial age The Regenerators explores the nature of social criticism in this era and its complex ties to the religious thinking of the day showing how the path blazed by nineteenth century religious liberals led not to the Kingdom of God on earth but ironically to the secular city The winner of the Governor General s Literary Award for Non Fiction when it was first published in 1985 The Regenerators became an instant classic for its fascinating portraits of evolutionists rationalists spiritualists socialists and free thinkers before the turn of the century This new edition features an introduction by historian and biographer Donald Wright

Potter, 2020-05-21 During the 1920s and 1930s the new medium of radio broadcasting promised to transform society by fostering national unity and strengthening and popularising national cultures However many hoped that wireless would also encourage international understanding and world peace Intentionally or otherwise wireless signals crossed borders bringing talk music and news to enthusiastic distant listeners in other countries In Europe radio was regulated through international consultation and cooperation to restrict interference between stations and to unleash the medium's full potential to carry programmes to global audiences A distinctive form of wireless internationalism emerged reflecting and reinforcing the broader internationalist movement and establishing structures and approaches which endured into the Second World War the Cold War and beyond This study reveals this untold history *Wireless Internationalism and Distant Listening* also explores the neglected interwar experience of distant listening revealing the prevalence of listening across borders and explaining how individuals struggled to overcome unwanted noise tune in as many stations as possible and comprehend and enjoy what they heard The volume shows how radio brought the world to Britain and Britain to the world It revises our understanding of early BBC broadcasting and the BBC Empire Service the precursor to today's World Service and shows how government influence shaped early BBC international broadcasting in English Arabic Spanish and Portuguese It also explores the wider European and trans Atlantic context demonstrating how Fascism in Italy and Germany the Spanish

Civil War and the Japanese invasion of China combined to overturn the utopianism of the 1920s and usher in a new era of wireless nationalism

Forging Alberta's Constitutional Framework Richard Connors, John M. Law, University of Alberta. Centre for Constitutional Studies, 2005-11

Forging Alberta's Constitutional Framework analyzes the principal events and processes that precipitated the emergence and formation of the law and legal culture of Alberta from the foundation of the Hudson's Bay in 1670 until the eve of the centenary of the Province in 2005. The formation of Alberta's constitution and legal institutions was by no means a simple process by which English and Canadian law was imposed upon a receptive and passive population. Challenges to authority, latent lawlessness, interaction between indigenous and settler societies, periods pre and post 1905 of jurisdictional confusion and demands for individual group and provincial rights and recognitions are as much part of Alberta's legal history as the heroic and mythic images of an emergent and orderly Canadian west patrolled from the outset by red-coated mounted police and peopled by peaceful and law-abiding subjects of the Crown. Papers focus on the development of criminal law in the Canadian west in the nineteenth century, the Natural Resources Transfer Agreement of 1930, the National Energy Program of the 1980s, Federal-Provincial relations and the role and responsibilities of the offices of Justices of the Peace and of the Lieutenant Governor and the legacies of the Lougheed and Klein governments

University of Toronto Quarterly University of Toronto, 2003

Contemporary Quebec Michael D. Behiels, Matthew Hayday, 2011-11-30

In the last seventy years Quebec has changed from a society dominated by the social edicts of the Catholic Church and the economic interests of anglophone business leaders to a more secular culture that frequently elects separatist political parties and has developed the most comprehensive welfare state in North America. In Contemporary Quebec leading scholars raise provocative questions about the ways in which Quebec has been transformed since the Second World War and offer competing interpretations of the reasons for the province's quiet and radical revolutions

Education and Its Discontents Mark Moss, 2012

Education and Its Discontents: Teaching the Humanities and the Importance of a Liberal Education in the Age of Mass Information by Mark Moss is an exploration of how the traditional educational environment particularly in the post-secondary world is changing as a consequence of the influx of new technology. Students come to the classroom or lecture hall expecting to have their habits and tastes gleaned from the online world replicated in an educational environment. Faculty who do not adapt face enormous obstacles and faculty that do adapt run the risk of eroding the integrity of what they have been trained to teach. Students now have access to myriad of technologies that instead of supplementing the educational process have actually taken it over. Issues that run from plagiarism to the erosion of the humanities are now rampant concerns in the post-secondary world. Behavior issues, YouTube videos, cell phones and the incessant clicking of the computer keys are just a few of the technologies altering the educational landscape. Moss discusses that it is now not only how we learn but what we continue to teach and how that enormously important legacy is protected.

Education and Its Discontents: Teaching the Humanities and the Importance of a Liberal Education in the Age of Mass

Information by Mark Moss argues that education has changed and the supremacy of the book and the lecture is now open for debate What has been gained over the last five hundred years is now susceptible to the vagaries of technology which compel us to question their continuing relevance

The Secular Northwest Tina Block,2016-07-22 The image of a rough frontier where working men were tempted away from church on Sundays by more profane concerns was perpetuated by postwar church leaders who decried the decline of religious involvement In this pioneering book Tina Block debunks the myth of a godless frontier revealing a Pacific Northwest that consciously rejected the trappings of organized religion but not necessarily spirituality and not necessarily God Secularism was not only the domain of the working man women families and middle class communities all helped to shape the region s secular identity But rejection of religion led to family gender and class tensions Drawing on oral histories census data newspapers and archival sources Block explores the dynamics of Northwest secularity grounded in the cultural permeability of the Canada United States border the independent spirit of those who called the region home and their openness to secular ways of experiencing the world
