Operation Rimbaud:

Arthur Rimbaud Seth Whidden, 2018-09-15 Before he turned twenty one Arthur Rimbaud 1854-91 had upended the house of French poetry and left it in shambles In this critical biography Seth Whidden argues that what makes Rimbaud's poetry important is part of what makes his life so compelling rebellion audacity creativity and exploration Almost all of Rimbaud's poems were written between the ages of fifteen and twenty Against the backdrop of the crumbling Second Empire and the tumultuous Paris Commune he took centuries old traditions of French versification and picked them apart with an unmatched knowledge of how they fitted together Combining sensuality with the pastoral parody political satire fable eroticism and mystery his poems range from traditional verse forms to prose poetry to the first two free verse poems written in French By situating Rimbaud's later writing in Africa as part of a continuum that spanned his entire life Whidden offers a corrective to the traditional split between Rimbaud's life as a poet and his life afterwards A remarkable portrait of the original damned poet Arthur Rimbaud reinvents a figure who continues to captivate readers artists and writers across the world

Operation Rimbaud Jacques Godbout, 2008 From Governor General's Award winner Patricia Claxton comes a new translation of a tale of intrigue impiety and insurrection by Quebec's original literary lion Jacques Godbout Thirty five year old Michel Larochelle an agnostic Jesuit sees his membership in the Society of Jesus in unconventional terms as a cover for all manner of clandestine activities as he travels the world and samples its many earthly delights At the end of the 1960s and with liberal expression reaching its peak it seems almost anything is available to this peripatetic man of the cloth So when Larochelle is personally chosen to execute a secret mission dubbed Operation Rimbaud on behalf of Haile Selassie Ethiopia's venerable King of Kings he doesn't hesitate Aware of an imminent coup threatening the kingdom Selassie entrusts Larochelle along with Selassie's alluring daughter with the perilous task of overseeing the safe removal of precious artifacts from the country the original stone tablets bearing the ten commandments Honouring his personal adage to kill only when necessary Larochelle keeps the tablets intact while managing to violate nearly every law they dictate on a wild romp through the African wilderness pursued by all manner of marauding outlaws and haunted by the ghost of one of its most famous visitors Arthur Rimbaud

Rimbaud's Impressionist Poetics Aimée Israel-Pelletier, 2012-10-15 In the mid nineteenth century Arthur Rimbaud the volatile genius of French poetry invented a language that captured the energy and visual complexity of the modern world This book explores some of the technical aspects of this language in relation to the new techniques brought forth by the Impressionist painters such as Monet Morisot and Pissarro *Disavowal: The Metaphysics of Escape* Jake Nabasny, 2019-12-04 Self Ego Subject these are the terms that philosophers have used to define that indelible mark of an individual At the same time however a counter current runs through the history of philosophy and culture that challenges the primordially and privilege of the purportedly self identical Subject This collection of texts from 2012-2018 traces the history of disavowal a line of escape from subjectivity Breaking free of the binary logic of affirmation negation these essays contend

that a third possibility exists in the realm of human action disavowal Disavowal is a sly sidestepping of boolean responses an absolute negation that nevertheless posits an alternative course of action Positing that a refusal to participate in the current global capitalist order need not be a refusal of the world as such this collection engages in topics from Cartesian subjectivity to Sia s live performance of Chandelier these essays provide a timely meditation on an urgent question and illuminate a path forward Records and Briefs of the United States Supreme Court ,1832 *Poetry at Stake* Carrie Noland,2021-03-09

Taking seriously Guillaume Apollinaire s wager that twentieth century poets would one day mechanize poetry as modern industry has mechanized the world Carrie Noland explores poetic attempts to redefine the relationship between subjective expression and mechanical reproduction high art and the world of things Noland builds upon close readings to construct a tradition of diverse lyricists from Arthur Rimbaud Blaise Cendrars and Ren Char to contemporary performance artists Laurie Anderson and Patti Smith allied in their concern with the nature of subjectivity in an age of mechanical reproduction **The**

One and the Others Andrew Cutrofello,2025-11-15 An original account of Western metaphysics based on Plato s Parmenides At the end of Plato s Parmenides Parmenides concludes that whether the One is or is not it and the Others both are and are not and both appear and do not appear all things in all ways Throughout the history of philosophy various attempts have been made to make sense of Plato s puzzling dialectical exercise In this ambitious book Andrew Cutrofello shows how Kant and Hegel extended it how contemporary philosophers including Graham Priest and Alain Badiou have reinterpreted it and how poets such as Dante Shakespeare Blake Wordsworth and Susan Howe have channeled it What emerges is an original conception of the history of metaphysics as a series of antinomies and of metaphysical poetry as a type of antinomianism Hope and Despair Monia Mazigh,2009-10-20

The inspiring story of Monia Mazigh s courageous fight to free her husband Maher Arar from a Syrian jail On September 26 2002 Maher Arar boarded an American Airlines plane bound for New York returning early from vacation with his family because a work project needed his attention He was a Canadian citizen a telecommunications engineer and entrepreneur who had never been in trouble with the law His nightmare began when he was pulled aside by Immigration officials at JFK airport questioned held without access to a lawyer and ultimately deported to Syria on the suspicion that he had terrorist links He would remain there tortured and imprisoned for over one year Meanwhile his wife Monia and their two children stayed on visiting family in Tunisia unaware that their lives were about to be torn apart Upon her return to Canada Monia was horrified at the media s and public s willingness to assume that the Canadian police and intelligence agencies and their American counterparts take on her husband as a terrorist was correct She began a tireless campaign to bring public attention and government action to her husband s plight eventually turning the tide of public opinion in Arar s favour and gaining his release and return to Canada Of her willingness to speak out she has said that she was never afraid I had lost my life I didn t have more to lose This is a remarkable story of personal courage and of an extraordinary woman who lets us into her life so that other Canadians can understand the denial of rights

and the discarding of human rights her family suffered Candid poignant and inspiring this is the most important book of the season Rimbaud's Rainbow Peter Bush, Kirsten Malmkjaer, 1998-12-15 This selection of papers from the ITI's landmark First International Colloquium on Literary Translation includes provocative perspectives on the teaching research and status of literary education in universities By way of introduction Peter Bush looks at strategies for raising the profile of the theory and practice of literary translation its professionalisation and role in the development of national and international cultures Nicholas Round and Edwin Gentzler explore undergraduate teaching of translation in the UK and the US while Douglas Robinson gives a Woody Allenish frame to an experience of pedagogy Susan Bassnett sets out an overview of the development of research in Translation Studies that is complemented by case studies of translations of Shakespeare's Letter Puns by Dirk Delabastita and of Molly Bloom's Soliloquy by Maria Angeles Code Parrilla Kirsten Malmkj r and Masako Taira respectively review translating Hans Christian Andersen and the Japanese particle ne as examples of the relationship between linguistics and literary translation Ian Craig examines the impact of censorship on the translation of children's fiction in Francoist Spain Developing the international perspective Else Vieira considers paradigms for translation in Latin America from concretist poetics to post modernism Conditions Alain Badiou, 2008-01-01 The essays contained within Conditions show the immense scope and potential of Badiou's extraordinary system **BOOK JACKET Strategic Intelligence** Bloomsbury Publishing, 2006-12-30 While several fine texts on intelligence have been published over the past decade there is no complementary set of volumes that addresses the subject in a comprehensive manner for the general reader This major set explains how the sixteen major U S intelligence agencies operate how they collect information from around the world the problems they face in providing further insight into this raw information through the techniques of analysis and the difficulties that accompany the dissemination of intelligence to policymakers in a timely manner Further in a democracy it is important to have accountability over secret agencies and to consider some ethical benchmarks in carrying out clandestine operations In addition to intelligence collection and analysis and the subject of intelligence accountability this set addresses the challenges of counterintelligence and counterterrorism as well covert action Further it provides comparisons regarding the various approaches to intelligence adopted by other nations around the world Its five volumes underscore the history the politics and the policies needed for a solid comprehension of how the U S intelligence community functions in the modern age of globalization characterized by a rapid flow of information across national boundaries *The Spenser Novels 28-33* Robert B. controversies it creates This book which opens with an introduction aimed at readers new to Badiou's work presents a range of essays which explore Badiou's most contentious claims in the fields of ontology politics ethics and aesthetics Alain Badiou has devised perhaps the only truly inventive philosophy of the subject since Sartre Almost alone among his peers Badiou's work promises a genuine renewal of philosophy a subject he sees as conditioned by innovation in spheres ranging from radical politics to artistic experimentation to mathematical formalization Slavoj Žižek is not alone in thinking that Alain Badiou's recent work is the event of contemporary philosophy Think Again the first publication of its kind goes a long way towards justifying his assessment Badiou is nothing if not polemical and the most suitable way to approach his philosophy is precisely through the controversies it creates This book which opens with an introduction aimed at readers new to Badiou's work presents a range of essays which explore Badiou's most contentious claims in the fields of ontology politics ethics and aesthetics

Borges' Travel, Hemingway's Garage Mark Axelrod, 2004 The author has scoured Europe and the Americas photographing products and businesses that bear the great names of Western civilization and then recounted the little known turns of fate by which the immortals ended in these mundane straits

The Age of the Poets Alain Badiou, 2014-11-04 The Age of the Poets revisits the age old problem of the relation between literature and philosophy arguing against both Plato and Heidegger's famous arguments Philosophy neither has to ban the poets from the republic nor abdicate its own powers to the sole benefit of poetry or art Instead it must declare the end of what Badiou names the age of the poets which stretches from Hölderlin to Celan Drawing on ideas from his first publication on the subject The Autonomy of the Aesthetic Process Badiou offers an illuminating set of readings of contemporary French prose writers giving us fascinating insights into the theory of the novel while also accounting for the specific position of literature between science and ideology
