Imagining Arab Womanhood A. Jarmakani, 2008-03-31 A fascinating demonstration of how U S representations of veils harems and belly dancers have operated as nostalgic and exotic symbols to help rationalize dominant U S narratives about power and progress A Female Poetics of Empire Julia Kuehn, 2013-10-30 Many well known male writers produced fictions about colonial spaces and discussed the advantages of realism over romance and vice versa in the art of fiction debate of the 1880s but how did female writers contribute to colonial fiction This volume links fictional non fictional and pictorial representations of a colonial otherness with the late nineteenth century artistic concerns about representational conventions and possibilities The author explores these texts and images through the postcolonial framework of exoticism arguing that the epistemological dilemma of a self encountering an other results in the interrelated predicament to find poetic modalities mimetic realistic and documentary on the one hand romantic fantastic and picturesque on the other that befit an exotic representation Thus women writers did not only participate in the making of colonial fictions but also in the late nineteenth century artistic debate about the nature of fiction This book maps the epistemological concerns of exoticism and of difference self and other home and away familiarity and strangeness onto the representational modes of realism and romance The author focuses exclusively on female novelists travel writers and painters of the turn of the century exotic and especially on neglected authors of academically under researched genres such as the bestselling novel and the travelogue **All Things Arabia** , 2020-11-16 By employing the innovative lenses of thing theory and material culture studies this collection brings together essays focused on the role played by Arabia s things from cultural objects to commodities to historical and ethnographic artifacts to imaginary things in creating an Arabian identity over time The Arabian identity that we convey here comprises both a fabulous Arabia that has haunted the European imagination for the past three hundred years and a real Arabia that has had its unique history culture and traditions outside the Orientalized narratives of the West All Things Arabia
