Origins Of Human Aggression Dynamics And Etiology

**Vamik D. Volkan, Demetrios A.
Julius, Joseph V. Montville**

Origins Of Human Aggression Dynamics And Etiology:

Origins of Human Aggression Gerard G. Neuman, 1987 **Troubled Times** David W. Frayer, Debra L. Martin, 2014-05-01 Evidence amassed in *Troubled Times* indicates that much like in the modern world violence was not an uncommon aspect of prehistoric dispute resolution From the civilizations of the American Southwest to the Mesolithic of Central Europe the contributors examine violence in hunter gatherer as well as state societies from both the New and Old Worlds Drawing upon cross cultural analyses archaeological data and skeletal remains this collection of papers offers evidence of domestic violence homicide warfare cannibalism and ritualized combat among ancient peoples Beyond the physical evidence various models and explanations for violence in the past are explored **Psychological Undercurrents of History** Henry Lawton, Jerry S. Piven, 2001 *Psychological Undercurrents of History* gathers together salient works of scholarship which endeavor to interpret the madness and imagination of our past from ancient religion to the Holocaust to Millennialism and Apocalyptic violence **Routledge Library Editions: Security and Society** Various, 2021-09-30 This 12 volume set contains titles originally published between 1934 and 1995 An eclectic mix of titles this collection draws from anthropology economics ethics politics psychology and sociology Exploring security in both war and peacetime it includes volumes looking at the causes of war and its effect on society as a whole the soldiers themselves and their place in society the portrayal of war in the press both in words and photographs and the politics behind them **California Slavic Studies, Volume XIV** Henrik Birnbaum, Thomas Eekman, Hugh McLean, Nicholas V. Riasanovsky, 2023-11-15 This volume completes a program of publishing distinguished essays on a wide range of Slavic topics This volume completes a program of publishing distinguished essays on a wide range of Slavic topics **Queer Iberia** Josiah Blackmore, Gregory S. Hutcheson, 1999-08-12 A collection of essays exploring ideologies and discourses that center on sexual otherness in medieval Iberian cultures

Genetic Seeds of Warfare R. Paul Shaw, Yuwa Wong, 2020-12-22 For millennia humanity has simultaneously deplored and waged war With each conflict the stakes have risen and we now face global annihilation for the sake of a practice all the world claims to condemn Is there some seemingly irresistible force that impels us toward our own destruction To explain this central paradox of human behaviour *Genetic Seeds of Warfare* originally published in 1989 advances a startling new theory It traces the origins of warfare back to early groups of Homo sapiens in competition for scarce resources showing that warfare evolved as these groups evolved kin group against kin group tribe against tribe nation against nation Rather than being tied to a specific gene warfare emerged as one of many behavioural strategies for maximising genetic survival As social groups became more complex motivations for warfare developed from simple protection of blood relations to political appeals to shared ethnicity religion and national identity But the ultimate cause of warfare is rooted in the most basic of human drives the need to ensure that one's genes will survive and reproduce The authors challenge many assumptions about human behaviour in general and warfare in particular They convincingly present the case for an evolutionary understanding of the

propensity for warfare supporting their argument with data from a vast array of social and natural science research In doing so they reveal why previous attempts at ending war have failed and make proactive suggestions toward the development of a new agenda for world peace

Human Natures Paul R. Ehrlich,2001-12-31 Why do we behave the way we do Biologist Paul Ehrlich suggests that although people share a common genetic code these genes do not shout commands at us at the very most they whisper suggestions He argues that human nature is not so much result of genetic coding rather it is heavily influenced by cultural conditioning and environmental factors With personal anecdotes a well written narrative and clear examples Human Natures is a major work of synthesis and scholarship as well as a valuable primer on genetics and evolution that makes complex scientific concepts accessible to lay readers

California Slavic Studies Henrik Birnbaum,1992 This volume completes a program of publishing distinguished essays on a wide range of Slavic topics

Research on Men who Batter Edward W. Gondolf,1988

National Library of Medicine Current Catalog National Library of Medicine (U.S.),1988

Gabbard's Treatments of Psychiatric Disorders Glen O. Gabbard,2007 A staple of psychiatric practice this edition reflects clinical expertise in an accessible volume It covers all major treatments in psychiatry linked to specific disorders with a pluralistic approach including all major treatment modalities Each chapter has been completely updated and is organized along the lines of DSM IV TR

Hidden Intentions: Unmasking the Depths of Human Violence Pasquale De Marco,2025-04-09 Embark on a thought provoking journey into the depths of human violence with Hidden Intentions Unmasking the Depths of Human Violence a comprehensive exploration of the hidden intentions that drive individuals towards acts of unspeakable cruelty This book delves beyond the surface manifestations of aggression delving into the psychological social and biological factors that shape violent behavior Through meticulous analysis of case studies expert insights and cutting edge research Hidden Intentions Unmasking the Depths of Human Violence unveils the intricate tapestry of motivations that fuel violence in all its forms It confronts uncomfortable truths about our own capacity for violence recognizing that it is not simply a product of circumstance but a deeply ingrained aspect of human nature Within these pages readers will gain a profound understanding of the minds of perpetrators the experiences of victims and the tireless efforts of those dedicated to eradicating violence from our world This book shines a light on the hidden intentions that drive violence shedding light on the darkness that lurks within us all Pasquale De Marco masterfully weaves together diverse perspectives offering a comprehensive examination of violence in all its forms From domestic abuse and intimate partner violence to terrorism and genocide this book leaves no stone unturned in its exploration of this pervasive social issue Hidden Intentions Unmasking the Depths of Human Violence is not merely an academic treatise it is a call to action a plea for a more compassionate and just society where violence is not tolerated and peace prevails It highlights the extraordinary work of those who work tirelessly to prevent violence heal its wounds and foster a culture of peace This book is an essential read

for anyone seeking a deeper understanding of the roots of violence and the path towards a more peaceful world With its thought provoking insights and compelling narrative *Hidden Intentions Unmasking the Depths of Human Violence* is a powerful testament to the resilience of the human spirit and the indomitable will to overcome adversity If you like this book write a review *Journal of Near-death Studies* ,1987 ***Psychiatric Quarterly*** ,1988 ***Current Catalog*** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 *The Origins of Violence* Anatol Rapoport,2020-02-18 In this fundamental analysis Rapoport asks Why do we have wars Doesn t humanity always seem on the verge of self annihilation Is there something in human genetic structure that makes people want to kill each other Perhaps this impulse is a matter of good versus evil or just plain human nature Rapoport moves beyond cliches by claiming that the sources of modern violence reside in the imbalance between a lag in the system of values inherited from the past and the structure of science and technology that awaits no revision of values to move ahead As a result Rapoport argues that the study of war and peace should be considered a science just like biology or for that matter political science The same rules of empirical engagement and experimentation should apply Before we can have a theory of peace we need a methodology of conflict Using the writings of thinkers who have made significant contributions to the predominant ideas and ideals of our society Rapoport weaves together the strands of independent thought and research into a single thought provoking work After investigating the whys of violence using ideological psychological strategic and systemic perspective Rapoport moves to an in depth analysis of possible varieties of conflict resolution He explores such mechanisms as mediation education and applying the results of scientific research He documents the impact of ideologies countervailing dominant ones that place obstacles in the way of peacemaking Rapoport argues that conciliation and game theories can be utilized to replace the concept of winner take all or total victory *The Origins of Violence* is a needed contribution to our understanding of warfare and provides a forward looking perspective that can be of wide use to each of the policy sciences starting with military strategy and ending with international development ***The ^AOrigins and Dynamics of Inequality*** Jon D. Wisman,2022-05-24 In *The Origins and Dynamics of Inequality* Jon Wisman provides a re interpretation of economic history and society He argues that the struggle over income wealth and privilege inequality has been the principal defining issue in human history and provides a novel framework for understanding inequality today *Progress Report of the National Commission on the Causes and Prevention of Violence to President Lyndon B. Johnson* United States. National Commission on the Causes and Prevention of Violence,1969
