Robert B. Westbrook

Pragmatism And Other Essays One Of The Most Important Documents In American Philosophy:

Pragmatism and Other Essays William James, 1963 **American Philosophy before Pragmatism** Russell B.

Goodman, 2015-07-02 Russell B Goodman tells the story of the development of philosophy in America from the mid 18th century to the late 19th century The key figures in this story Jonathan Edwards Benjamin Franklin Thomas Jefferson the writers of The Federalist and the romantics or transcendentalists Emerson and Thoreau were not professors but men of the world whose deep formative influence on American thought brought philosophy together with religion politics and literature Goodman considers their work in relation to the philosophers and other thinkers they found important the deism of John Toland and Matthew Tindal the moral sense theories of Francis Hutcheson Adam Smith and David Hume the political and religious philosophy of John Locke the romanticism of William Wordsworth and Samuel Taylor Coleridge and the transcendental idealism of Immanuel Kant Goodman discusses Edwards's condemnation and Franklin's acceptance of deism argues that Jefferson was an Epicurean in his metaphysical views and a Christian Stoic and Epicurean in his moral outlook traces Emerson's debts to writers from Madame de Staël to William Ellery Channing and considers Thoreau's orientation to the universe through sitting and walking The morality of American slavery is a major theme in American Philosophy before Pragmatism introduced not to excuse or condemn but to study how five formidably intelligent people thought about the question when it was as it no longer is for us open Edwards Franklin and Jefferson owned slaves though Franklin and Jefferson played important roles in disturbing the uneasy American moral equilibrium that included slavery even as they approved an American constitution that included it Emerson and Thoreau were prominent public opponents of slavery in the eighteen forties and fifties The book contains an Interlude on the concept of a republic and concludes with an Epilogue documenting some continuities in American philosophy particularly between Emerson and the pragmatists *The Palgrave Encyclopedia of the Possible* Vlad Petre Glăveanu, 2023-01-25 The Palgrave Encyclopedia of the Possible represents a comprehensive resource for researchers and practitioners interested in an emerging multidisciplinary area within psychology and the social sciences the study of how we engage with and cultivate the possible within self society and culture Far from being opposed either to the actual or the real the possible engages with concrete facts and experiences with the result of transforming them This encyclopedia examines the notion of the possible and the concepts associated with it from standpoints within psychology philosophy sociology neuroscience and logic as well as multidisciplinary fields of research including anticipation studies future studies complexity theory and creativity research Presenting multiple perspectives on the possible the authors consider the distinct social cultural and psychological processes e.g imagination counterfactual thinking wonder play inspiration and many others that define our engagement with new possibilities in domains as diverse as the arts design and business *The Nation*, 1907 **The Reception of Pragmatism in France and the Rise of Roman Catholic Modernism, 1890-1914** David G. Schultenover, 2009 This collection of essays provides a small revolution in the

study of Roman Catholic Modernism a movement that until now has been largely seen as an episode that underscored institutional Catholicism's isolation from the mainstream intellectual currents of the time

Dictionary of Twentieth-Century British Philosophers Stuart Brown, 2005-06-01 This is a two volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date Typically the individuals included have been born by 1935 and by now have made their main contributions Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included The dictionary includes amateurs as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonialization and the changing denotation of the term The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U K but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture

William James and the Transatlantic Conversation Martin Halliwell, Joel D. S. Rasmussen, 2014-01-30 William James and the Transatlantic Conversation focuses on the American philosopher and psychologist William James 1842 1910 and his engagements with European thought together with the multidisciplinary reception of his work on both sides of the Atlantic since his death James's encounters with European thinkers and ideas ran throughout his early life and across his distinguished international career in which he participated in a number of transatlantic conversations in science philosophy psychology religion ethics and literature This volume explores and extends these conversations by drawing together twelve scholars from a range of disciplines on both sides of the Atlantic to assess James's work in all its variety to trace his multidisciplinary reception across the twentieth century and to evaluate his legacy in the twenty first century The first half of the book considers James's many intellectual influences and the second half focuses on A Pluralistic Universe 1909 the published text of his 1908 Hibbert Lectures at Oxford University as a key text for assessing James's transatlantic conversations The pluralistic transatlantic currents addressed in the first part of the volume enable a fuller understanding of James's philosophy of pluralism that forms the explicit focus for the second part Taken as a collection the volume is unique in scholarship on James in generating transatlantic interdisciplinary and cross generational dialogues and it repositions James as an important international thinker and arguably the most distinctive American intellectual figure of the nineteenth and twentieth centuries

The Reader's Adviser Barbara Ann Chernow, George A. Vallasi, Fred Kaplan, Maurice Charney, Paula T. Kaufman, 1986 This new edition

provides a wealth of updated book information in a more accessible format Volume one provides an overview of British and American fiction and poetry from Beowulf and British folk ballads to the 20th century antihero and nonfiction novels It also presents concise introductions to the lives works and significance of each writer in the area Annotated bibliographies and lists of key references provide added book selection guidance This edition also covers Commonwealth Literature and an expanded chapter on Essays and Criticism Volume two covers American and British drama and world literature in English translation Volume three presents general reference literature the social sciences and the arts ISBN 0 83542 2145 8 v 1 ISBN 0 8352 2146 6 v 2 ISBN 0 8352 2147 4 v 3 75 00 each For use only in the library **In the American Province** David A.

Hollinger,1989-04 American intellectual historians need to pay more attention to how elites relate to broader audiences Hollinger s work is in the vanguard of recent intellectual history and it is a joy to observe a true intellectual in discourse with his peers History Reviews of Books Postcolonial Reconstruction: A Sociological Reading of Octavio Paz Oliver

Kozlarek,2016-08-23 This book presents a close reading of the work of the Mexican writer and Nobel Prize Laureate Octavio Paz It does so from the specific perspective of sociology and the more general perspective of the social sciences The book identifies opportunities for relating Paz sociological ideas to contemporary debates arguing that Paz sociology is linked very closely to his assessment of what could be called the post colonial condition that Mexico has been experiencing The book thus advances the understanding of the differences between post colonial experiences in Latin America and those of other areas of the world In addition to revealing Paz sociology the book focuses on Modernity and examines Paz critique of Modernity and his project of Modernity It shows that a close examination of the works of Octavio Paz helps redefine Modernity from a Latin American perspective as an experience in which the global and local are intertwined and helps to point in the direction of a new kind of humanism **History of the U. S. with Topics** Jerry R. Baydo,Zimmerman,1994-12

American Philosophy: An Encyclopedia John Lachs,2008-03-31 The Encyclopedia of American Philosophy provides coverage of the major figures concepts historical periods and traditions in American philosophical thought Containing over 600 entries written by scholars who are experts in the field this Encyclopedia is the first of its kind It is a scholarly reference work that is accessible to the ordinary reader by explaining complex ideas in simple terms and providing ample cross references to facilitate further study The Encyclopedia of American Philosophy contains a thorough analytical index and will serve as a standard comprehensive reference work for universities and colleges Topics covered include Great philosophers Emerson Dewey James Royce Peirce Santayana Subjects Pragmatism Progress the Future Knowledge Democracy Growth Truth Influences on American Philosophy Hegel Aristotle Plato British Enlightenment Reformation Self Assessments Joe Margolis Donald Davidson Susan Haack Peter Hare John McDermott Stanley Cavell Ethics Value Pleasure Happiness Duty Judgment Growth Political Philosophy Declaration of Independence Democracy Freedom Liberalism Community Identity

Choice ,1999 The Personalist Ralph Tyler Flewelling,1922 Philosophy and Social Hope Richard Rorty,1999-08-26

Richard Rorty is one of the most provocative figures in recent philosophical literary and cultural debate This collection brings together those of his writings aimed at a wider audience many published in book form for the first time In these eloquent essays articles and lectures Rorty gives a stimulating summary of his central philosophical beliefs and how they relate to his political hopes he also offers some challenging insights into contemporary America justice education and love *Intellect*,1975

Feminist Interpretations of William James Erin C. Tarver, Shannon Sullivan, 2015-12-15 Widely regarded as the father of American psychology William James is by any measure a mammoth presence on the stage of pragmatist philosophy But despite his indisputable influence on philosophical thinkers of all genders men remain the movers and shakers in the Jamesian universe while women exist primarily to support their endeavors and serve their needs How could the philosophy of William James a man devoted to Victorian ideals be used to support feminism Feminist Interpretations of William James lays out the elements of James s philosophy that are particularly problematic for feminism offers a novel feminist approach to James s ethical philosophy and takes up epistemic contestations in and with James s pragmatism The results are surprising In short James s philosophy can prove useful for feminist efforts to challenge sexism and male privilege in spite of James himself

In this latest installment of the Re Reading the Canon series contributors appeal to William James s controversial texts not simply as an exercise in feminist critique but in the service of feminism Along with the editors the contributors are Jeremy Carrette Lorraine Code Megan Craig Susan Dieleman Jacob L Goodson Maurice Hamington Erin McKenna Jos Medina and Charlene Haddock Seigfried *John Dewey and American Democracy* Robert B. Westbrook, 2015-07-22 Over a career spanning American history from the 1880s to the 1950s John Dewey sought not only to forge a persuasive argument for his conviction that democracy is freedom but also to realize his democratic ideals through political activism Widely considered modern America s most important philosopher Dewey made his views known both through his writings and through such controversial episodes as his leadership of educational reform at the turn of the century his support of American intervention in World War I and his leading role in the Outlawry of War movement after the war and his participation in both radical and anti communist politics in the 1930s and 40s Robert B Westbrook reconstructs the evolution of Dewey s thought and practice in this masterful intellectual biography combining readings of his major works with an engaging account of key chapters in his activism Westbrook pays particular attention to the impact upon Dewey of conversations and debates with contemporaries from William James and Reinhold Niebuhr to Jane Addams and Leon Trotsky

Countering prevailing interpretations of Dewey s contribution to the ideology of American liberalism he discovers a more unorthodox Dewey a deviant within the liberal community who was steadily radicalized by his profound faith in participatory democracy Anyone concerned with the nature of democracy and the future of liberalism in America including educators moral and social philosophers social scientists political theorists and intellectual and cultural historians will find John Dewey and American Democracy indispensable reading **Democratic Hope** Robert B. Westbrook, 2015-05-27 The pragmatists response to the

claim that theirs is a deeply American philosophy has been less to challenge the claim than to attempt to embrace it on their own terms One could speak of a national philosophy as one could not speak of a national chemistry or physics But national cultures were complicated and often conflicted Hence the relationship between a philosophy and a national culture could be at once close and fraught with tension from Democratic Hope Pragmatism as Richard Rorty has said names the chief glory of our country s intellectual tradition In Democratic Hope Robert B Westbrook examines the varieties of classical pragmatist thought in the work of John Dewey William James and Charles Peirce testing in good pragmatic fashion the truth of propositions by their consequences in experience Westbrook also attends to the recent revival of pragmatism by Rorty Cheryl Misak Richard Posner Hilary Putnam Cornel West and others and to pragmatist strains in contemporary American political thinking Westbrook s aims are both historical and political to ensure that the genealogy of pragmatism is an honest one and to argue for a hopeful vision of deliberative democracy underwritten by a pragmatist epistemology and ethics Sign Crossroads in Global Perspective Susan Petrilli, 2017-09-08 Language is the species specific human version of the animal system of communication In contrast to non human animals language enables humans to invent a plurality of possible worlds reflect upon signs be responsible for our actions gain conscious awareness of our inevitable mutual involvement in the network of life on this planet and be responsibly involved in the destiny of the planet The author looks at semiotics the study of signs symbols and communication as developing sequentially rather than successively more synchronically than diachronically She discusses the contemporary phenomenon that people in today s society have witnessed and participated in as part of the development of semiotics Although there is a long history preceding semiotics in a sense the field is as a phenomenon more of our time than of any time past Its leading figures whom Petrilli examines belong to the twentieth and twenty first century Semiotics is associated with a capacity for listening This capacity is also the condition for reconnecting to and recovering the ancient vocation of semiotics as that branch of medical science relating to the interpretation of signs or symptoms The pragmatic aspect of global semiotics studies the impact of language or signs on those who use them and looks for consequences in actual practice In this respect Petrilli theorizes that the task for semiotics in the era of globalization is nothing less than to take responsibility for life in its totality

The Enigmatic Realm of **Pragmatism And Other Essays One Of The Most Important Documents In American Philosophy**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic.
