memoir As each section unfolds we gain a clearer sense of Hansen s aesthetic the parallels he sees between writing and the sacraments between literature s capacity to make history present to us and the Church s rich array of traditions including the Jesuit charism that has inspired great writers such as Gerard Manley Hopkins and himself Equally adept at telling a hilarious anecdote and guiding us through a complex ambiguous episode in history Hansen s language remains fresh and invigorating Hotly in Pursuit of the Real takes you inside one writer s imagination only to send you back out into the wide world with new eyes Persuasive Games Ian Bogost,2010-08-13 An exploration of the way videogames mount arguments and make

expressive statements about the world that analyzes their unique persuasive power in terms of their computational properties Videogames are an expressive medium and a persuasive medium they represent how real and imagined systems work and they invite players to interact with those systems and form judgments about them In this innovative analysis Ian Bogost examines the way videogames mount arguments and influence players Drawing on the 2 500 year history of rhetoric the study of persuasive expression Bogost analyzes rhetoric s unique function in software in general and videogames in particular The field of media studies already analyzes visual rhetoric the art of using imagery and visual representation persuasively Bogost argues that videogames thanks to their basic representational mode of procedurality rule based representations and interactions open a new domain for persuasion they realize a new form of rhetoric Bogost calls this new form procedural rhetoric a type of rhetoric tied to the core affordances of computers running processes and executing rule based symbolic manipulation He argues further that videogames have a unique persuasive power that goes beyond other forms of computational persuasion Not only can videogames support existing social and cultural positions but they can also disrupt and change these positions themselves leading to potentially significant long term social change Bogost looks at three areas in which videogame persuasion has already taken form and shows considerable potential politics advertising and learning Children's Books in Print, 2007 ,2006 **Books In Print 2004-2005** Ed Bowker Staff,Staff Bowker, Ed,2004
