Pursuit Of Godliness Sanctification In Christological Perspective:

The Pursuit of Godliness Donald Alexander, 1999 The Pursuit of Godliness argues that holiness or sanctification is not something that someone achieves but entails something a person becomes Donald L Alexander defines sanctification as God's taking possession of people in Christ and setting them apart by restoring the character traits originally present in the creature created in God's image He derives evidence from the Bible that this restoration lies in the fruit of the Spirit and that Christ died not only to bring an end to sin but also to bring about a newness of life Alexander places the biblical teaching on sanctification within the context of personal spiritual maturity rather than as an obligation to fulfill specific religious requirements He suggests that a developmental connection exists between spiritual formation and personal maturity This approach connecting sanctification with personal development brings about a new and suggestive understanding of sanctification

Rethinking Holiness Bernie A. Van De Walle, 2017-03-14 Holiness is experiencing a renaissance both within and beyond the church today Based on years of conversations with students this approachable theological introduction to the Christian doctrine of holiness challenges the commonly held idea that holiness is primarily a moral category The author explains that holiness is grounded not in ethics but in the basic nature of God it is essentially and exclusively a divine property The book highlights the Bible's necessary and corrective role in defining holiness and shows how individual holiness is grounded in the community that is the church catholic

Paul, the Community, and Progressive Sanctification

James M. Howard, 2007 What role does the Christian community play in the process of growing in Christian maturity This book argues that in Pauline theology the redeemed community is a necessary means for the progressive sanctification of the individual believer an idea that is largely misunderstood in parts of the Western church It evaluates foundational theological considerations traditionally omitted from sanctification studies and places them within the context of Pauline theology Included are the missiological nature of holiness the initiatory character of God the creation of the new humanity as reflecting the image of God and the impact upon the church resulting from the radical redefinition by Christ of the cultural symbols surrounding the Jewish temple system This book offers a corrective to the individualized approach to Christian growth For Paul the focus of God's transformative activity culminates with the community rather than the individual the goal of which is to reveal God's glory to the broader creation

The Humanity of Christ and the Healing of the Dysfunction of the Human Spirit Donald L. Alexander, 2015-08-13 The book represents a personal quest in what Anselm referred to as faith seeking understanding The primary focus centers on proposing an interpretation of the nature and function of the human spirit and its relationship to the divine spirit and the living of a godly Christian life Thus the book has a dual concern namely an academic one and a spiritual one The undergirding premise is that apart of the human spirit the divine spirit is personally unknowable This premise contains the following supporting concepts First the core of human personhood resides in the human spirit and constitutes the unique capacity for personal self relatedness Second as the result of humanity's idolatrous

displacement of God a radical reversal occurred with the human spirit When restored to its original relationship with the divine spirit the human spirit as James Loder writes is called out of its futility and perversity into the light and truth of the divine spirit **Christian Spirituality** Donald Alexander,1989-01-11 How can we grow closer to God Is there a secret to spiritual life Do we need a second blessing Is sanctification instantaneous or is it a process The nature of Christian spirituality has been widely debated throughout the history of the church Donald L Alexander brings together five scholars in a fascinating debate on sanctification and spirituality Fundamental Christian Ethics Daniel Heimbach,2022-11-01 In Fundamental Christian Ethics Daniel Heimbach draws from decades of research and scholarship to introduce the field of Christian ethics in a comprehensive manner while showing how it dialogues with modern day ethical topics and issues

Sanctus David T. Williams,2010-12 Even a cursory glance at the moral state of society and regrettably often including the Church shows a remarkable lack of holiness Yet God commanded us to be holy as he is holy Is not the lack of holiness at the root of much of the weakness of today s church This in depth study of sanctification centres on what God Father Son and Holy Spirit has done to make us holy and what the Christian response should be It understands sanctification as both demanded by and dependent upon justification an ongoing process coupled with distinct events of grace Christ has died for us to enable forgiveness sanctification is the development of the life of Christ in us A feature of the book is its provision of several illustrations of the path of Christian sanctification **The Way of Salvation** Paul A. Rainbow,2012-12-01 Martin Luther invented the Reformation slogan sola fide by faith alone which Philipp Melanchthon and John Calvin brandished and defended Most Protestants since their time have swallowed it whole But is evangelical obedience the good works that follow faith and are produced by grace excluded from the basis for justification or otherwise Asserting that there is no more serious question bearing upon the destiny of human beings than how sinners can be justified before a Holy God Paul Rainbow examines current and traditional treatments of faith works and justification marshals a biblical case majoring on the New Testament teaching of Paul and James and offers a series of systematic historical and pastoral reflections **Pentecostal Theology** Wolfgang Vondey,2017-07-13 Winner of the Pneuma Book Award 2018 from The Society for Pentecostal Studies Pentecostalism is the most rapidly growing branch of Christianity since the 20th century yet it does not lend itself well to a singular doctrine and there is therefore no single comprehensive account of Pentecostal theology worldwide In this volume Wolfgang Vondey suggests an account of Pentecostal theology that is genuine to Pentecostals worldwide while allowing for different adaptation and explication among the various Pentecostal groups He argues that Pentecostal theology is fundamentally concerned with the renewal of the Christian life identified by the transforming work of the Holy Spirit and directed toward the kingdom of God The book unfolds in two main parts illustrating the full gospel story and theology Eleven chapters identify the spiritual underpinnings and motivations for Pentecostal theology formulate a Pentecostal theology of action translate apply and exemplify Pentecostal practices and experiences and integrate Pentecostal theology in the wider

Christian tradition **Communion with Christ and His People** Peter J. Morden, 2014-01-31 Charles Haddon Spurgeon 1834-1892 was the most famous Baptist minister of his generation. For such a significant figure, he has received surprisingly little scholarly coverage. This present work seeks to make a contribution to Spurgeon studies by examining him through the lens of his spirituality. A wealth of primary material, much of it previously untapped, is used to build up a picture of his spiritual life. Whereas older and more recent interpretations of Spurgeon have a tendency to be one-dimensional examinations of his spirituality, this reveals him to be a complex figure, one who was molded by a diverse range of factors. Despite this complexity, a unifying theme for Spurgeon's spirituality is traced, and fresh light is shed on the foremost popular preacher of the Victorian age.

Jonathan Edwards and the Life of God W. Ross Hastings, 2015 Jonathan Edwards and the Life of God aims to offer a retrieval of Edwards's theology of participation for contemporary evangelical theology. It critically expounds and elucidates the concept of participation in God or theosis in Edwards's Trinitarian theology as it relates to around three unions: the three persons of the Trinity, the hypostatic union of the divine and human in Christ, and that of believers with Christ. This volume brings Edwards's rich theological work into conversation with the patristic Augustine and the Cappadocians and Reformed traditions Calvin and especially Barth in order to construct with Edwards a more hopeful, liberating, and truly human version of Christian life. Consideration of the life of God in Edwards thus moves beyond, in two senses, first perspectives on participation beyond those of Edwards from Barth, Volff, the Cappadocian Fathers, and others in the tradition are engaged in order to locate and critique and enhance it, and secondly in the sense that, as Hastings argues, participation leads for Edwards and others into the beyond of the beatific vision, the glory of God, which is the hope that, amongst other things, motivates the Christian life.

Santidade Bernie A. Van de Walle, 2022-11-24 Para a maioria dos cristãos, a santidade é um estilo de vida ou uma tica que se espera atingir. Escrito de forma abrangente para leigos e estudiosos, Santos como Ele desafia esta ideia comumente aceita ao mergulhar no seu conceito teológico. Buscando ocupar um espaço antes desbravado no estudo do tema, o pastor e doutor em filosofia Bernie A. Van De Walle preparou esta introdução teológica para que você redescubra a santidade bíblica.

Saved, Sanctified and Serving Denis Metrustery, 2016-06-01 This comprehensive, significant work on Salvation Army theology and practice is designed to help reinforce Salvationists' appreciation of their movement's rationale and mission, helping to maintain and increase the Army's unique position within the Church and as part of global faith-based responses to humanitarian need. The writers in this volume hold and proclaim a clear vision for the Army's future, fully seizing contemporary opportunities while retaining the fire and zeal of the Primitive Movement.

Coptic Christology in Practice Stephen J. Davis, 2008-02-28 A pioneering study of ancient and medieval Christology. Employing a range of interdisciplinary methods, Stephen J. Davis shows how Christian identity in Egypt was shaped by a set of replicable christological practices. He thus enables readers to trace the Coptic church's theological and cultural transition from late antiquity to Dar al-Islam.

argues that we should take seriously the critique of religion and engage with that critique theologically The book argues that theologizing the critique of religion was central to the theological purposes of Karl Barth and Dietrich Bonhoeffer and that Barth and Bonhoeffer should be seen as traveling along the same trajectory in terms of their theological approaches to religion It is this trajectory that this book seeks to explore in thinking with and beyond Bonhoeffer and by identifying a series of themes around which construction engagements can take place The result is an exciting series of discussions which take seriously the interplay of the religious the secular pluralism and the concept of God with chapters on salvation the church the public square and other faiths
