## **Pursuit Of Local History:**

**The Pursuit of Local History** Carol Kammen, American Association for State and Local History, 1996 In this work readers can discover the role local historians play find out what the experts see as the values of the local history while exploring their theories and see how local history has been practised by those who have dedicated their lives to it **On Doing Local History** Carol Kammen, 2003-12-01 Since 1986 *On Doing Local History* has been an invaluable aid to local historians Now Carol Kammen has completely updated and revised this classic to reflect more than fifteen years of experience working with local historians She challenges all historians of the local to think about what they are doing and how they are doing it She dispels the myth that amateur historians who are frequent practitioners of local history necessarily produce a history less rigorous or useful For many years the author of a column in *History News* Kammen's thoughtful level headed ideas and personable writing style will keep this book a classic for years to come Local History H. P. R. Finberg, Victor Henry Thomas Skipp, 1973 **Local History** Herbert Patrick Reginald Finberg, 1967 **A Local History Reader** Carol Kammen, 1991-01-01 , Why Place Matters Wilfred McClay, Ted McAllister, 2014-02-25 Contemporary American society with its emphasis on mobility and economic progress all too often loses sight of the importance of a sense of place and community Appreciating place is essential for building the strong local communities that cultivate civic engagement public leadership and many of the other goods that contribute to a flourishing human life Do we in losing our places lose the crucial basis for healthy and resilient individual identity and for the cultivation of public virtues For one can't be a citizen without being a citizen of some place in particular one isn't a citizen of a motel And if these dangers are real and present ones are there ways that intelligent public policy can begin to address them constructively by means of reasonable and democratic innovations that are likely to attract wide public support *Why Place Matters* takes these concerns seriously and its contributors seek to discover how given the American people as they are and American economic and social life as it now exists and not as those things can be imagined to be in some utopian scheme we can find means of fostering a richer and more sustaining way of life The book is an anthology of essays exploring the contemporary problems of place and placelessness in American society The book includes contributions from distinguished scholars and writers such as poet Dana Gioia former chairman of the National Endowment for the Arts geographer Yi Fu Tuan urbanist Witold Rybczynski architect Philip Bess essayists Christine Rosen and Ari Schulman philosopher Roger Scruton transportation planner Gary Toth and historians Russell Jacoby and Joseph Amato *Tompkins County New York* Municipal Historians of Tompkins County, Tompkins County Historian, 2009-09-01 Decades of memories culled from attics albums and organizations alike are preserved in this charming collection of photographs chronicling the everyday lives of Tompkins County residents This book showcases images of activity such as farmers hard at work and people dancing into the early hours of the morning as well as the more subdued images of universal human connection such as moments of sorrow contemplation and reflection The

stories of those from the past unfold as they bring to life a history long forgotten and a sense of continuity and familiarity uniting these disparate worlds

**Practicalities for the pursuit of local history (pbk).** W. a Roberts, 1988 **Adapting to Capitalism** Pamela Sharpe, 2016-07-27 This book considers patterns of women's employment in the period 1700-1850. Focusing on the county of Essex, material on the worsted industry, agriculture, fashion, trades, service, prostitution, and marriage and family life will shed light on contemporary debates in history such as the sexual division of labour, controversy over continuity or change in women's employment, the importance of ideas of separate spheres and domestic ideology, and the overall effects of capitalism on women's employment.

**Remembering Roadside America** John A. Jakle, Keith A. Sculle, 2011-09-30 The use of cars and trucks over the past century has remade American geography, pushing big cities ever outward toward suburbanization, spurring the growth of some small towns while hastening the decline of others, and spawning a new kind of commercial landscape marked by gas stations, drive-in restaurants, motels, tourist attractions, and countless other retail entities that express our national love affair with the open road. By its very nature, this landscape is ever changing; indeed, ephemeral. What is new quickly becomes old and is soon forgotten. In this absorbing book, John Jakle and Keith Sculle ponder how Roadside America might be remembered, especially since so little physical evidence of its earliest years survives. In straightforward and lively prose, supplemented by copious illustrations, historic and modern photographs, advertising postcards, cartoons, roadmaps, they survey the ways in which automobility has transformed life in the United States. Asking how we might best commemorate and preserve this part of our past, which has been so vital economically and politically, so significant to the cultural aspirations of ordinary Americans, yet so often ignored by scholars who dismiss it as kitsch, they propose the development of an actual outdoor museum that would treat seriously the themes of our roadside history. Certainly, museums have been created for frontier pioneering, the rise of commercial agriculture, and the coming of water and steam-powered industrialization and transportation, especially the railroad. Is now not the time the authors ask for a museum forcefully exploring the automobile's emergence and the changes it has brought to place and landscape? Such a museum need not deny the nostalgic appeal of roadsides past, but if done properly, it could also tell us much about what the authors describe as the most important kind of place yet devised in the American experience. John A. Jakle is Emeritus Professor of Geography at the University of Illinois Urbana-Champaign. Keith A. Sculle is the former head of research and education at the Illinois Historic Preservation Agency. They have coauthored such books as *America's Main Street Hotels*, *Transiency and Community in the Early Automobile Age*, *Motoring: The Highway Experience in America*, *Fast Food: Roadside Restaurants in the Automobile Age*, and *The Gas Station in America*.
