Micki McGee,2005-09-08 Why doesn't self help help Cultural critic Micki McGee puts forward this paradoxical question as she looks at a world where the market for self improvement products books audiotapes and extreme makeovers is exploding and there seems to be no end in sight Rather than seeing narcissism at the root of the self help craze as others have contended McGee shows a nation relying on self help culture for advice on how to cope in an increasingly volatile and competitive work world Self Help Inc reveals how makeover culture traps Americans in

endless cycles of self invention and overwork as they struggle to stay ahead of a rapidly restructuring economic order A lucid and fascinating treatment of the modern obsession with work and self improvement this lively book will strike a chord with its acute diagnosis of the self help trap and its sharp suggestions for how we can address the alienating conditions of modern work and family life *Managing* Henry Mintzberg, 2009-09-01 A half century ago Peter Drucker put management on the map Leadership has since pushed it off Henry Mintzberg aims to restore management to its proper place front and center We should be seeing managers as leaders Mintzberg writes and leadership as management practiced well This landmark book draws on Mintzberg s observations of twenty nine managers in business government health care and the social sector working in settings ranging from a refugee camp to a symphony orchestra What he saw the pressures the action the nuances the blending compelled him to describe managing as a practice not a science or a profession learned primarily through experience and rooted in context But context cannot be seen in the usual way Factors such as national culture and level in hierarchy even personal style turn out to have less influence than we have traditionally thought Mintzberg looks at how to deal with some of the inescapable conundrums of managing such as How can you get in deep when there is so much pressure to get things done How can you manage it when you can t reliably measure it This book is vintage Mintzberg iconoclastic irreverent carefully researched myth breaking *Managing* may be the most revealing book yet written about what managers do how they do it and how they can do it better **Modernity And Postmodern Culture** McGuigan, Jim, 2006-07-01

Modernity and Postmodern Culture critically assesses claims made about the postmodernization of culture and society and explores the complex interplay between the modern and the postmodern in an increasingly globalized world The author argues that although culture may be postmodern in terms of art entertainment and everyday life modernity still exists and is pervasive The second edition is revised throughout updating the literature and viewing international events through a modernist postmodernist gaze The theories of Baudrillard Beck Castells Giddens Jameson Lyotard and others are discussed and specific issues concerning architecture theme parks screen culture science technology and the environment are examined Topics include Postmodern architecture and the hyperreality of Disney How poststructuralist theory questions modern rationality and reason The relations between postmodern culture global capitalism and the technological changes brought about by electronics and computing The network society The book is key reading for students on courses in cultural politics cultural theory popular culture and sociology Quality Improvement Techniques in Construction Steven

The Management Myth Matthew Stewart,2009-08-10 A devastating bombardment of managerial thinking and the profession of management consulting A serious and valuable polemic Wall Street Journal Fresh from Oxford with a degree in philosophy and no particular interest in business Matthew Stewart might not have seemed a likely candidate to become a consultant But soon he was telling veteran managers how to run their companies In narrating his own ill fated and often hilarious odyssey at a top tier firm Stewart turns the consultant s merciless penetrating eye on the management industry itself The Management Myth offers an insightful romp through the entire history of thinking about management a withering critique of pseudoscience in management theory and a clear explanation of why the MBA usually amounts to so much BS leading us through the wilderness of American business thought

Fifty Key Figures in Management Morgen Witzel,2003-09-02 A collection of biographies of fifty people who have helped make management what it is today

No-collar Andrew Ross,2004 While the internet bubble has burst the New Economy that the internet produced is still with us along with the myth of a workplace built around more humane notions of how people work and spend their days in offices No Collar is the only close study of New Economy workplaces in their heyday Andrew Ross a renowned writer and scholar of American intellectual and social life spent eighteen months deep inside Silicon Alley in residence at two prominent

New Economy companies Razorfish and 360hiphop and interviewed a wide range of industry employees in other cities to write this remarkable book. Maverick in their organizations and permissive in their culture, these workplaces offered personal freedoms and rewards that were unheard of in corporate America. Employees feared they may never again enjoy such an irresistible work environment. Yet for every apparent benefit, there appeared to be a hidden cost: 70-hour workweeks, a lack of managerial protection, an oppressive shouldering of risk by employees, an illusory sense of power sharing, and no end of emotional churning. The industrialization of bohemia encouraged employees to think outside the box but also allowed companies to claim their most free and creative thoughts and ideas. In these workplaces, Andrew Ross encountered a new kind of industrial personality and emerged with a sobering lesson: Be careful what you wish for. When work becomes sufficiently humane, we tend to do far too much of it, and it usurps an unacceptable portion of our lives. He concludes that we should not have to choose between a personally gratifying and a just workplace; we should strive to enjoy both. Author note: Andrew Ross is Professor in the American Studies program at New York University. A writer for Artforum, The Nation, The Village Voice, and many other publications, he is the author or editor of thirteen books, including *The Celebration Chronicles*, *Real Love*, *The Chicago Gangster*, *Theory of Life*, *Strange Weather*, *No Respect*, and most recently *Low Pay, High Profile: The Global Push for Fair Labor*.
