Pushcart Prize XVII Best Of The Small Presses:

The Pushcart Prize, XVII, 1993 The short stories essays and poems in Pushcart s newest volume selected from literary magazines and small presses across the country represent some of the best and most innovative writing in America today As always this 17th edition of The Pushcart Prize offers a fascinating peek at the vast and largely hidden world of noncommercial publishing Time *The Magic of Blood* Dagoberto Gilb, 1994 In this dynamic collection of short stories including eight from Winners on the Pass Line 1985 Dagoberto Gilb captures the texture of the Southwest s working class in clear ironic and bitingly realistic fiction about regular people going about their complex lives **Pushcart Prize XXIX** Bill Henderson, 2004-11-02 A yearly anthology of fiction essays and poetry from the small presses chosen by writers **Short Story Index**, 2004 **Peculiar Passages** Carol Allen, 2005 This book features African American women playwrights from 1875 to 2000 with an emphasis on the late nineteenth century a period rarely treated in regard to women s drama Highlighting the lesser known Pauline Hopkins Angelina Weld Grimk Georgia Douglas Johnson Eulalie Spence and May Miller and the well known Zora Neale Hurston Alice Childress Adrienne Kennedy and Ntozake Shange Peculiar Passages argues that these playwrights efforts define a tradition characterized by quick change mobility sensitivity to vernacular forms and dedication to intertextual dialogue Situating the plays within a broader context the book also connects them to minstrelsy the Passion Play and the Black Arts Movement **Small Press**, 1993 **Small Press Record of Books in Print** Len Fulton, 1993 *Pure* Carol Frost, 1994-05-11 Pure is a fierce passionate series of meditations on experience and consciousness morals and customs and on the natural world that surrounds and shapes human life Frost s poems bear the stamp of a thoroughly original artistic vision and style they are discursive yet filled with concrete images they inquire into moral issues pleasure guilt jealousy without moralizing they catch the echoes of western myths in domestic and quotidian events they sharply diagnose relations between the sexes *Counting the Black Angels* Len Roberts, 1994 Len Roberts is a poet of unwavering truthfulness and unwavering mercy commented Sharon Olds about Black Wings a 1988 National Poetry Series selection Counting the Black Angels Roberts s eighth book of poetry is a piercingly painful and redemptive work in which he probes memories of a violent family history and his covenants with God and the Black Angels Roberts s new work is among the most intelligent moving and expressive poetry now being written Hayden Carruth **Literature and Music**, 2016-08-09 This collection of essays centers on musical elements that authors have employed in their work thus joining heard sounds to a visual perception of their stories The spectrum of authors represented is a wide one from Pound to Durrell from Steinbeck to Cather from Beckett to Gaines but even more unusual is the variety of musical type represented Classical music the quartet the fugue the symphony Jazz the jazz riff and jazz improv and the spiritual all appear along with folk song and so called random noise Such diversity suggests that there are few limits when readers consider how great writers utilize musical styles and techniques Indeed each author seems to realize that it is not the type of music that s he chooses to employ

that is important Rather it is the realization that such musical elements as harmony dissonance tonal repetition and beat are just as important in prose composition as they are in poetry and song The essayists have selected some works that may be considered obscure and some that are modern classics Each one however has captured one of the varied ways in which words and music complement and enhance each other 2011 Poet's Market Robert Lee Brewer,2010-07-19 The Must Have Resource for Every Poet Poets of all skill levels have turned to Poet s Market for more than two decades for all the information they need on publishing poetry This new edition includes Features on the realities of poetry publishing mistakes to avoid identifying scams giving great readings and promoting your work Articles on translating poetry social networking self publishing alternative outlets for poetry collections and more Information on workshops organizations and online resources that help poets perfect their skills and network with fellow poets and editors Thorough indexes to make choosing the best potential markets easier And access to all Poet s Market listings in a searchable online database **Contemporary American Women Writers** Catherine Rainwater,William J. Scheick,2021-05-11 Ann Beattie Annie Dillard Maxine Hong Kingston Toni Morrison Cynthia Ozick Grace Paley Marge Piercy Anne Redmon Anne Tyler and Alice Walker all seem to be especially concerned with narrative management The ten essays in this book raise new and intriguing questions about the ways these leading women writers appropriate and transform generic norms and ultimately revise literary tradition to make it more inclusive of female experience vision and expression The contributors to this volume discover diverse narrative strategies Beattie Dillard Paley and Redmon in divergent ways rely heavily upon narrative gaps surfaces and silences often suggesting depths which are lamentably absent from modern experience or which mysteriously elude language For Kingston and Walker verbal assertiveness is the focus of narratives depicting the gradual empowerment of female protagonists who learn to speak themselves into existence Ozick and Tyler disrupt conventional reader expectations of the anti novel and the family novel respectively Finally Morrison s and Piercy s works reveal how traditional narrative forms such as the Bildungsroman and the soap opera are adaptable to feminist purposes In examining the writings of these ten important women authors this book illuminates a significant moment in literary history when women s voices are profoundly reshaping American literary tradition *Some Other Frequency* Larry McCaffery,1996 McCaffery converses with the young recklessly daring and furiously productive William Vollmann and with Marianne Hauser who published her first novel nearly sixty years ago with Native American trickster novelist Gerald Vizenor and guerrilla writer Harold Jaffe whose literary technique is to plant a bomb sneak away with stark minimalist Lydia Davis and text and collage artist Derek Pell with muscular pop icon Mark Leyner and proto punk diva Kathy Acker They are a diverse lot shaped by very different literary and personal influences and addressing divergent readerships **Musing the Mosaic** Matthew Roberson,2003-05-08 Examines Sukenick s role in reshaping the American literary tradition **The Jewish Idea and Its Enemies** Hadley Cantril,Edward Alexander,2019-08-21 This volume deals with the modern fate of the traditional conception of Jews as a covenanted people

chosen to receive the Law whose ultimate purpose is contributing to the universal salvation of mankind The author shows how under the influence of liberalism rationalism relativism and other Enlightenment ideologies this idea was distorted denied inverted yet never entirely obliterated In his discussions of modern Jewish thinkers and writers and the ideological and political struggles of Zionism and the state of Israel against enemies from without and from within Alexander shows that the ancient idea of covenant is still alive today if only in the assumption that Jewish life can lead somewhere so long as Jews remember that it began somewhere Ranging from literary criticism and the history of ideas to journalism and politics the book is unified by a point of view unabashedly espousing the Jewish idea and challenging its enemies *Writing and Rewriting the Holocaust* James Edward Young,1988-10-22 A carefully prepared historiographical work interprets the meaning of Holocaust literature as it examines the perpetuation of Holocaust memory and understanding in several forms of media studied Includes an extensive bibliography of works **Crisis and Covenant** Alan L. Berger,1985-01-01 Examines the effect of the Holocaust on traditional attempts to explain the Jewish people s sufferings while retaining the concept of covenant with God also examines its influence on the self image of American Jewry Analyzes the works of Elie Wiesel Isaac Bashevis Singer Saul Bellow and Cynthia Ozick among others and suggests that awareness of a covenantal concept of Judaism is a criterion for authentic Holocaust literature Adopts the definition of the Holocaust as a unique event the plan to exterminate an entire nation and describes various approaches to theological problems raised by the Holocaust

Existentialist Engagement in Wallace, Eggers and Foer Allard den Dulk,2016-06-30 The novels of David Foster Wallace Dave Eggers and Jonathan Safran Foer are increasingly regarded as representing a new trend an aesthetic sea change in contemporary American literature Post postmodernism and New Sincerity are just two of the labels that have been attached to this trend But what do these labels mean What characterizes and connects these novels Den Dulk shows that the connection between these works lies in their shared philosophical dimension On the one hand they portray excessive self reflection and endless irony as the two main problems of contemporary Western life On the other hand the novels embody an attempt to overcome these problems sincerity reality commitment and community are portrayed as the virtues needed to achieve a meaningful life This shared philosophical dimension is analyzed by viewing the novels in light of the existentialist philosophies of S ren Kierkegaard Jean Paul Sartre Ludwig Wittgenstein and Albert Camus **2009 Poet's Market** Editors Of Writers Digest Books,2008-07-01 2009 Poet s Market will give you all the information necessary to research markets and submit your poetry for publication In addition to market listings you ll find guidance for preparing and submitting manuscripts identifying markets relating to editors and more Plus the book includes additional listings for conferences workshops organizations for poets print and online resources and the latest trends in poetry writing and publishing
