Postmodernism of Resistance in Roberto Bolaño's Fiction and Poetry J. Agustín Pastén B., 2020-12 Postmodernism of Resistance in Roberto Bola o s Fiction and Poetry examines the ways in which Bola o employs a type of literary aesthetics that subverts traits traditionally associated with postmodernism Past n B coins these aesthetics postmodernism of resistance and argues that this resistance stands in direct opposition to critical discourses that construe the presence of hopeless characters and marginal settings in Bola o s works as signs of the writer s disillusionment with the political as a consequence of the defeat of the Left in Latin America Rather he contends Bola o creates a fictional world comprised of characters and situations that paradoxically refuse to accept defeat even while displaying the scars of terrible historical events In this work Past n B challenges some critical assumptions about Bola o s fiction and poetry that led to decontextualized interpretations of his work and offers a singularly comprehensive investigation that synthesizes multiple perspectives of a complicated author into one text

De Castro,2022-02-15 At a time in which many in the United States see Spanish America as a distinct and for some threatening culture clearly differentiated from that of Europe and the US it may be of use to look at the works of some of the most representative and celebrated writers from the region to see how they imagined their relationship to Western culture and literature In fact while authors across stylistic and political divides like Gabriela Mistral Jorge Luis Borges or Gabriel Garc a M rquez see their work as being framed within the confines of a globalized Western literary tradition their relationship rather than epigonal is often subversive Borges and Kafka Bola o and Bloom is a parsing not simply of these authors reactions to a canon but of the notion of canon writ large and the

inequities and erasures therein It concludes with a look at the testimonial and autobiographical writings of Rigoberta Mench and Lurgio Gavil n who arguably represent the trajectory of Indigenous testimonial and autobiographical writing during the last forty years noting how their texts represent alternative ways of relating to national and on occasion Western cultures This study is a new attempt to map writers diverse ways of thinking about locality and universality from within and without what is known as the canon

Posthuman Worlds Adolfo Cacheiro, 2022-03-03 Posthuman Worlds Roberto Bola o s Narrative and Virtual Reality presents interpretations of several novels and one short story by Roberto Bola o As befits the global setting of most of these

narratives they are analyzed from the perspective of global culture and politics Particular attention is paid to transnational European politics as this topic is central to an understanding of the intertwined themes of politics and the law in Bolaño's work In *Distant Star* and *Labyrinth* these themes exist within the context of a preoccupation with personal identity and ideology Adolfo Cacheiro utilizes psychoanalytic interpretation and philosophical exegesis to clarify the subjective component of this preoccupation in the aforementioned texts The law is also a prominent theme of *The Savage Detectives* which Cacheiro interprets in relation to mythology One of the most innovative aspects of this book is the discussion of the role of virtual reality in *Amulet* and *2666* These novels are read as representations of a posthuman world that manifest an intertextual relationship with science fiction In *2666* virtual reality unifies the diverse components of a world system in time and space A phenomenological investigation of this reality supports the conclusion that the principle subject matter of *2666* is a naturalistic theology based on technology
