Putting Liberalism In Its Place:

Putting Liberalism in Its Place Paul W. Kahn, 2009-01-10 In this wide ranging interdisciplinary work Paul W Kahn argues that political order is founded not on contract but on sacrifice Because liberalism is blind to sacrifice it is unable to explain how the modern state has brought us to both the rule of law and the edge of nuclear annihilation We can understand this modern condition only by recognizing that any political community even a liberal one is bound together by faith love and identity Putting Liberalism in Its Place draws on philosophy cultural theory American constitutional law religious and literary studies and political psychology to advance political theory It makes original contributions in all these fields Not since Charles Taylor's *The Sources of the Self* has there been such an ambitious and sweeping examination of the deep structure of the modern conception of the self Kahn shows that only when we move beyond liberalism's categories of reason and interest to a Judeo Christian concept of love can we comprehend the modern self Love is the foundation of a world of objective meaning one form of which is the political community Arguing from these insights Kahn offers a new reading of the liberalism communitarian debate a genealogy of American liberalism an exploration of the romantic and the pornographic a new theory of the will and a refoundation of political theory on the possibility of sacrifice Approaching politics from the perspective of sacrifice allows us to understand the character of twentieth century politics which combined progress in the rule of law with massive slaughter for the state Equally important this work speaks to the most important political conflicts in the world today It explains why American response to September 11 has taken the form of war and why for the most part Europeans have been reluctant to follow the Americans in their pursuit of a violent sacrificial politics Kahn shows us that the United States has maintained a vibrant politics of modernity while Europe is moving into a postmodern form of the political that has turned away from the idea of sacrifice Together with its companion volume *Out of Eden* Putting Liberalism in Its Place finally answers Clifford Geertz's call for a political theology of modernity **Awaiting the Impossible** See Seng Tan, 2022-06-08 This book dialogues with deconstruction's religion without religion and its implications for theology In the view of many deconstruction is a purely nihilistic force bent on the wanton destruction of long held philosophical religious and moral traditions However this perspective ignores the fact that deconstruction in the hands of its standard bearers like Jacques Derrida John Caputo and others has all along been a religious exercise in demythologization Furnishing a Christian rejoinder to deconstruction's claims about and objections to orthodox religion and particularly to Christianity the book addresses the following questions How can deconstruction open a space for an affirmative faith to occur and be professed Can deconstruction ever be hospitable toward Jesus of Nazareth as the Messiah for which it waits Apocalyptic and the Future of Theology Joshua B. Davis, Douglas Harink, 2012-11-07 Ernst Kasemann famously claimed that apocalyptic is the mother of Christian theology J Louis Martyn's radical interpretation of the overarching significance of apocalyptic in Paul's theology has pushed Kasemann's claim further and deeper Still despite the recognition that apocalyptic is at the core of New

Testament and Pauline theology modern theology has often dismissed domesticated or demythologized early Christian apocalyptic A renewed interest in taking apocalyptic seriously is one of the most exciting developments in recent theology The essays in this volume taking their point of departure from the work of Martyn and Kasemann wrestle critically with the promise and possible peril of the apocalyptic transformation of Christian theology With original contributions from established scholars including Beverly Gaventa Stanley Hauerwas Robert Jenson Walter Lowe Joseph Mangina Christopher Morse and Fleming Rutledge as well as younger voices this volume makes a substantial contribution to the discussion of apocalyptic and theology today A unique feature of the book is a personal reflection on Ernst Kasemann by J Louis Martyn himself

Great Delusion John J. Mearsheimer, 2018-09-25 A renowned scholar argues that liberal hegemony the policy America has pursued since the Cold War ended is doomed to fail Named a Financial Times Best Book of 2018 Idealists as well as realists need to read this systematic tour de force Robert D Kaplan author of *The Return of Marco Polo's World* It is widely believed in the West that the United States should spread liberal democracy across the world foster an open international economy and build international institutions The policy of remaking the world in America's image is supposed to protect human rights promote peace and make the world safe for democracy But this is not what has happened Instead the United States has become a highly militarized state fighting wars that undermine peace harm human rights and threaten liberal values at home In this major statement the renowned international relations scholar John Mearsheimer argues that liberal hegemony the foreign policy pursued by the United States since the Cold War ended is doomed to fail It makes far more sense he maintains for Washington to adopt a more restrained foreign policy based on a sound understanding of how nationalism and realism constrain great powers abroad *The Great Delusion* is a lucid and compelling work of the first importance for scholars policymakers and everyone interested in the future of American foreign policy

Gandhi's Thought and Liberal Democracy Sanjay Lal, 2019-03-13 With an intense focus on both the depth and practicality of Mahatma Gandhi's political and religious thought this book reveals the valuable insights Gandhi offers to anyone concerned about the prospects of liberalism in the contemporary world Gandhi's Religious Thought and Liberal Democracy makes the case that for Gandhi in stark contrast to commonly accepted liberal orthodoxy religion is indispensable to the public life and indeed the official activity of any genuinely liberal society Gandhi scholars political theorists and activist members of a lay audience alike will all find much to digest comment upon and be motivated by in this work

living under rules jurisprudential issues affecting exchange and the market and the burden and methods of legal judgement It also includes Ba kowski s 2011 valedictory lecture and a bibliography of his work Comprising all original contributions the contributors represent a balance of established leading figures and younger emerging scholars in the field of legal and social theory

Our God Loves Justice W. Travis McMaken,2017-11-01 Helmut Gollwitzer was a direct heir of the theological legacy of the great Protestant theologian Karl Barth More than any of Barth s other interpreters Gollwitzer embraced and extended the sociopolitical impulses and implications within Barth s theology In this Gollwitzer embodies a salient and necessary alternative in the American context of increasingly intertwined theological and political discourses This volume the first book length study of Gollwitzer available in English provides a helpful introduction to the life theology and political thought of this crucial theologian and public intellectual

Liberalism, Theology, and the Performative in Antebellum American Literature Patrick McDonald,2023-09-19 The 1850s United States witnessed a far reaching political social and economic crisis Symptomatic of this a wide range of narrative fiction from sentimental novels to sensational drama identifies a foundational link between liberal institutions and performative utterances Auctions trials marriages and contracts this fiction contends all depend on the self constituting authority of words and performances which anybody and everybody can appropriate and are always subject to misfiring Rather than viewing this as a liberatory and egalitarian political force however writers from Herman Melville and James Fenimore Cooper to Captain Mayne Reid and E D E N Southworth insist that such naked authority must be supplemented A broad swath of 1850s literature insists that this supplement ought to come from Christianity Anticipating thinkers like Carl Schmitt and Giorgio Agamben these works suggest that legitimate political authority depends upon its ability to represent Christian transcendence and account for revealed truth something firmly outside of speech acts and performance s purview In so doing this diverse body of fiction registers a desire to reconstitute political authority on transcendent and representable ground augmenting institutional reliance on mere words and assuaging the contemporary crises of confidence and authority

Law and Religious Diversity in Education Kyriaki Topidi,2020-08-05 Religion is a prominent legal force despite the premise constructed and promoted by Western constitutionalism that it must be separated from the State in democracies Education constitutes an area of human life that leaves ample scope for the expression of religious identity and shapes the citizens of the future It is also the place of origin of a considerable number of normative conflicts involving religious identity that arise today in multicultural settings The book deals with the interplay of law and religion in education through the versatility of religious law and legal pluralism as well as religion s possible adaptation and reconciliation with modernity in order to consider and reflect on normative conflicts It adopts the angle of the constitutional dimension of religion narrated in a comparative perspective and critically reflects on regulatory attempts by the State and the international community to promote new ways of living together

Milton and the Post-Secular Present Feisal Mohamed,2011-08-09 Our post secular present argues Feisal Mohamed has much to learn

from our pre secular past Through a consideration of poet and polemicist John Milton this book explores current post secularity an emerging category that it seeks to clarify and critique It examines ethical and political engagement grounded in belief with particular reference to the thought of Alain Badiou Jacques Derrida Jürgen Habermas and Gayatri C Spivak Taken to an extreme such engagement produces the cult of the suicide bomber But the suicide bomber has also served as a convenient bogey for those wishing to distract us from the violence in Western and Christian traditions and for those who would dismiss too easily the vigorous iconoclasm that belief can produce More than any other poet Milton alerts us to both anti humane and liberationist aspects of belief and shows us relevant dynamics of language by which such commitment finds expression

Considering Compassion Frits de Lange, L. Juliana Claassens, 2018-09-17 In light of the numerous challenges posed by globalization living together as humanity on one planet needs to be reinvented in the twenty first century To create a new peaceful just and sustainable world order is vital to the survival of us all In this regard humankind will have to expand the limited scope of its moral imagination beyond the borders of family tribe class religion nation and culture Will the cultivation of compassion as scholars like Martha Nussbaum and Karen Armstrong and religious leaders like the Dalai Lama maintain contribute to a more just world A global movement to cultivate and extend compassion beyond the immediate circle of concern may indeed find inspiration from many different religious traditions The question at the heart of this book is whether the Christian legacy provides us with sources of moral imagination needed to guide us into the global era Can the Christian practice of faith contribute to a more compassionate world If so how And is it true that compassion is what we need or do we need something else justice for example In *Considering Compassion* colleagues from different theological disciplines at Stellenbosch South Africa and Groningen Netherlands take up these challenging questions from a variety of interdisciplinary angles

Law, Love and Freedom Joshua Neoh, 2019-07-04 Moving from monasticism to constitutionalism and from antinomianism to anarchism this book reveals law's connection with love and freedom

Liberal Wars Alan Cromartie, 2015-04-24 This book addresses the relationship between the liberal values of Anglo Saxon cultures and the way that they conduct themselves when they are fighting or preparing to fight wars The United States and the United Kingdom are characterised by a consensus that their social and political arrangements are in a very broad sense liberal Liberalism is not pacifism nor are liberals necessarily respectful of traditional prohibitions that have set out to moderate excessive violence But liberals do seek to understand their violent actions as part of a wider project of defending or expanding liberal freedoms The perceived alternative is to undermine the will to keep on fighting Sustaining a liberal picture of what is going on is an indispensable part of a liberal strategy Contributors with disciplinary backgrounds in history international relations and strategic studies discuss what liberalism means in this particular context and how it might relate to strategy both in the recent past and in the future The chapters consider how liberal states understand the wars they fight the constraints liberal values place on these states the role of public opinion and the appropriate strategies for modern

liberal states Topics addressed include civilian bombing the nature of US military culture the British Iraq inquiries the effects of the erosion of Westphalian sovereignty and the rise of new ideas about globalization and the decline in popular involvement This book will be of much interest to students of strategic studies political philosophy foreign policy security studies and IR in general Covenants Without Swords Jeanne Morefield,2016-06-28 Covenants without Swords examines an enduring tension within liberal theory that between many liberals professed commitment to universal equality on the one hand and their historic support for the politics of hierarchy and empire on the other It does so by examining the work of two extremely influential British liberals and internationalists Gilbert Murray and Alfred Zimmern Jeanne Morefield mounts a forceful challenge to disciplinary boundaries by arguing that this tension on both the domestic and international levels is best understood as frequently arising from the same l Revisioning, Renewing, Rediscovering the Triune Center Derek J. Tidball,Brian S. Harris,Jason S Sexton,2014-11-10 An international cast of theologians come together in this volume to offer essays in tribute to the late Stanley J Grenz one of the leading theologians of his generation Accordingly the volume includes timely explorations in some of the most exciting areas in contemporary theology It is only fitting that these very explorations revolve around the key motifs of Grenz s theology Trinity community eschatology and the key sources from which he drew for theology s construction Scripture tradition culture While engaging key features seen in Grenz s work some of the essays here interact with Grenz s own writings reflecting on his theological journey and his contributions to evangelical theology In these ways this volume highlights the kind of evangelical theology that so many have experienced in recent years and of which Stan Grenz was a leading proponent Revisioning Renewing Rediscovering the Triune Center then makes a significant contribution to discussions in contemporary theology while itself setting out to honor the life and work of an eminent theologian who did so much for evangelical theology History, Politics, Law Annabel Brett,Megan Donaldson,Martti Koskenniemi,2021-10-07 Juxtaposes standpoints from which disciplines of history political thought and law conceive and generate political order beyond the state *Binding Violence* Moira Fradinger,2010-06-03 Binding Violence exposes the relation between literary imagination autonomous politics and violence through the close analysis of literary texts in particular Sophocles Antigone D A F de Sade s 120 Days of Sodom and Vargas Llosa s The Feast of the Goat that speak to a blind spot in democratic theory namely how we decide democratically on the borders of our political communities These works bear the imprint of the anxieties of democracy concerning its other violence especially when the question of a redefinition of membership is at stake The book shares the philosophical interest in rethinking politics that has recently surfaced at the crossroads of literary criticism philosophy critical theory and psychoanalysis Fradinger takes seriously the responsibility to think through and give names to the political uses of violence and to provoke useful reflection on the problem of violence as it relates to politics and on literature as it relates to its times Mapping the Legal Boundaries of Belonging Rene Provost,2014-11-04 For several decades culture played a central role in challenging the liberal tradition More recently however religion has re emerged as

one of the central challenges facing Western liberal societies conception of multiculturalism Mapping the Legal Boundaries of Belonging explores the complex relationship between religion and multiculturalism and the role of the state and law in the creation of boundaries The intersection between religion nationalism and other vectors of difference in Canada and Israel offer an ideal laboratory in which to examine multiculturalism in particular and the governance of diversity in general The contributors to this volume investigate concepts of religious difference and diversity and the ways in which these two states and legal systems understand and respond to them As a consequence of a purportedly secular human rights perspective they show state laws may appear to define religious identity in a way that contradicts the definition found within a particular religion Both state and religion make the same mistake if they take a court decision that emphasizes individual belief and practice as effecting a direct modification of a religious norm the court lacks the power to change the authoritative internal definition of who belongs to a particular faith Similarly in the pursuit of a particular model of social diversity the state may adopt policies that imply a particular private public distinction foreign to some religious traditions Public Passion Rebecca Kingston,2011-09-13 Taking a broad historical perspective Public Passion traces the role of emotion in political thought from its prominence in classical sources through its resuscitation by Montesquieu to the present moment Combining intellectual history philosophy and political theory Rebecca Kingston develops a sophisticated account of collective emotion that demonstrates how popular sentiment is compatible with debate pluralism and individual agency and shows how emotion shapes the tone of interactions among citizens She also analyzes the ways in which emotions are shared and transmitted among citizens of a particular regime paying particular attention to the connection between political institutions and the psychological dispositions that they foster Public Passion presents illuminating new ways to appreciate the forms of popular will and reveals that emotional understanding by citizens may in fact be the very basis through which a commitment to principles of justice can be sustained **Humanity at Sea** Itamar Mann,2016-09-29 This book integrates legal historical and philosophical materials to illuminate the migration topic and to provide a novel theory of human rights
