Puzzling Through Mark:

Solving the Synoptic Puzzle Eric Eve, 2021-10-04 The question of how the Gospels of Matthew Mark and Luke relate to each other has become the subject of often intense debate No longer is it safe to assume that the long dominant Two Document Hypothesis can be accepted without much question In this book Eve introduces students and other interested readers to the issues surrounding the Synoptic Problem and goes on to argue for an alternative theory the Farrer Hypothesis which does away with the need for the hypothetical source Q In the course of doing so he also provides a helpful discussion of the how and why of first century Gospel authorship While the reader is alerted to the difficulties and complexities that surround solving the puzzle of Synoptic relations the discussion is kept as accessible as possible and assumes no prior knowledge of New Testament scholarship or Greek

The Son of Man in Mark's Gospel David Forrest Mitchell,2020-01-09 Many scholars disagree about what was meant by Jesus s intriguing self designation the Son of Man This book attempts to find some clarity by working through every example of the phrase in the Gospel of Mark to determine how the phrase functions and what it means in that narrative While every use of the phrase is self referential and describes Jesus and his ministry the analysis yields three main distinctions in use of the phrase as well as three significant unifying features The book then moves to explore whether despite of the skepticism of some scholars there is some background for the phrase in the book of Ezekiel s use of son of man in relation to basic form and function and to thematic import *Unlocking the Puzzle* David Oliver Smith,2016-11-22 A shorter simpler first draft of the Gospel of Mark has been theorized by New Testament scholars for almost two hundred years Using literary tools David Oliver Smith strips away interpolation and redaction from the canonical Gospel to reveal that long sought first draft the Original Gospel of Mark Original Mark shorter than the canonical version and with several large blocks of text replaced in their original locations reveals a coherent structure and a different picture of who Jesus is But it is anything other than simple The Original Gospel also presents puzzles for the curious reader of Mark to solve and Smith has found the keys to their solution Analysis of the text that was interpolated into Mark reveals who that redactor might have been Evidence is presented that it was the author of the Gospel of Luke who redacted the first written Gospel jumbled its structure and changed its Christology Follow the analysis of literary structures created by the genius who wrote Mark s Gospel and discover the astounding design of the Original Gospel of Mark
