Pygmalions Figure Reading Old French Romance:

Pygmalion's Figure Jean M. Dornbush, 1990 **Myth, Montage, & Visuality in Late Medieval Manuscript Culture** Marilynn Desmond, Pamela Sheingorn, 2006 A broad multidisciplinary study that uses the Epistre Othea to examine the visual presentation of knowledge **Rewriting Resemblance in Medieval French Romance** Paul Vincent Rockwell, 1995 First published in 1995 Routledge is an imprint of Taylor Francis an informa company The Danger of Romance Karen Sullivan, 2018-03-07 The curious paradox of romance is that throughout its history this genre has been dismissed as trivial and unintellectual yet people have never ceased to flock to it with enthusiasm and even fervor In contemporary contexts we devour popular romance and fantasy novels like The Lord of the Rings Harry Potter and Game of Thrones reference them in conversations and create online communities to expound passionately and intelligently upon their characters and worlds But romance is unrealistic critics say doing readers a disservice by not accurately representing human experiences It is considered by some to be a distraction from real literature a distraction from real life and little more Yet is it possible that romance is expressing a truth and a truth unrecognized by realist genres The Arthurian literature of the Middle Ages Karen Sullivan argues consistently ventriloquizes in its pages the criticisms that were being made of romance at the time and implicitly defends itself against those criticisms The Danger of Romance shows that the conviction that ordinary reality is the only reality is itself an assumption and one that can blind those who hold it to the extraordinary phenomena that exist around them It demonstrates that that which is rare ephemeral and inexplicable is no less real than that which is commonplace long lasting and easily accounted for If romance continues to appeal to audiences today whether in its Arthurian prototype or in its more recent incarnations it is because it confirms the perception or even the hope of a beauty and truth in the world that realist genres deny *Fictions of Identity in Medieval France* Donald Maddox, 2000-11-23 In this study of vernacular French narrative from the twelfth century through the later Middle Ages first published in 2000 Donald Maddox considers the construction of identity in a wide range of fictions He focuses on crucial encounters widespread in medieval literature in which characters are informed about fundamental aspects of their own circumstances and selfhood These always arresting and highly significant moments of specular encounter are examined in numerous Old and Middle French romances hagiographic texts epics and brief narratives Maddox discloses the key role of identity in an original reading of the Lais of Marie de France as a unified collection as well as in Arthurian literature fictions of the courtly tryst genealogies and medieval family romance The study offers many new perspectives on the poetic and cultural implications of identity as an imaginary construct during the long formative period of French literature **Conjunctures**, 2025-01-20 **Naming and Namelessness in Medieval Romance** Jane Bliss, 2008 A survey of the significance of names or their absence in medieval English French and Anglo Norman romance Naming and namelessness are among the major themes of medieval romance Because the genre is so difficult to define scholars have viewed romance as containing a critical number of themes this book

treats naming as a major theme of romance and furthermore examines romance's relationship with contemporary naming theory. A new genre, it is able to play with naming in a way that previously established genres are not. The book begins with a discussion of the medieval background to romance and explores a series of naming patterns found across a broad range of texts. It continues with detailed analysis of twenty-one romances in English, French, and Anglo-Norman from 1130 to 1500 to show how naming themes are treated differently in each and to demonstrate the importance of name as a generic marker. Finally, an appendix provides details of each romance's context together with indications for further research. JANE BLISS is an independent scholar; she gained her PhD from Oxford Brookes University.

The Pygmalion Effect Victor I. Stoichita, 2008-06-15 Pygmalion's sculpture which the gods endowed with life marks, according to this book, perhaps the first instance in Western art of an image that exists on its own terms rather than simply imitating something else. Stoichita delivers this image and its avatars from the shadow cast by art that merely replicates reality.

Approaches to Teaching the Romance of the Rose Daisy Delogu, Anne-Hélène Miller, 2023-03-21 One of the most influential texts of its time, the *Romance of the Rose* offers readers a window into the world view of the late Middle Ages in Europe, including notions of moral philosophy and courtly love. Yet the *Rose* also explores topics that remain relevant to readers today, such as gender, desire, and the power of speech. Students, however, can find the work challenging because of its dual authorship by Guillaume de Lorris and Jean de Meun, its structure as an allegorical dream vision, and its encyclopedic length and scope. The essays in this volume offer strategies for teaching the poem with confidence and enjoyment. Part 1, Materials, suggests helpful background resources. Part 2, Approaches, presents contexts, critical approaches, and strategies for teaching the work and its classical and medieval sources, illustrations, and adaptations, as well as the intellectual debates that surrounded it.

Translatio Studii Renate Blumenfeld-Kosinski, 2000

Lancelot and Guinevere Lori J. Walters, 2015-12-03 Beginning with an introduction that examines the portrayal of the characters of Lancelot and Guinevere from their origins to the present day, this collection of 16 essays, five of which appear here for the first time, puts particular emphasis on the appearance of the two characters in medieval and modern literature. Besides several studies exploring feminist concerns, the volume features articles on the representation of the lovers in medieval manuscript illuminations. 18 plates focus on scenes of their first kiss and the consummation of the adultery in film and in other visual arts. A 200-item bibliography completes the volume.

Historical Fabrication, Ethnic Fable and French Romance in Twelfth-century England David Rollo, 1998

Internal Difference and Meanings in the Roman de la Rose Douglas Kelly, 1995 Argues that the 13th-century French poem can best be understood not by trying to resolve or choose among the diverse meanings within it or among the myriad of interpretations by scholars and medieval and modern readers, but to accept those differences and reflect on our own willingness to accept or reject those meanings as a guide for a love or morality.
