**Pyramids of Light** Meg Blackburn Losey, Meg Blackburn Losey, Msc.D., PH.D., 2004-12-12 How do we manifest what we want Can we change our lives by creating a reality different from the one we know How How do miracles happen Can we really produce them How does our soul enter our body When What happens when we die and where do we really go or is this all there is Is this reality an illusion What is the connection between our consciousness and our body Are we really part of everything If so what is our relationship to it all Can we interrelate with beings in other dimensional realities Can we travel in time to other places experience events in history our future Sure we can Recognize the simplicity of all creation as step by step Dr Blackburn Losey answers these questions and more by weaving a straightforward yet comprehensive account of the universal construct its relationship with sacred geometry the manifestation of matter consciousness and the harmonic relationship of all things beyond quantum physics from the essence and fabric of creation to this here and now Understand how to tap in to the Akashic records the universal consciousness to access any and all information you desire Realize how you can experience unlimited realities through easy and fun exercises that assist you to leap from third dimensional reality to existing as multi dimensional beings Learn how to apply these techniques to create unlimited possibilities within your life and the lives of others You are the creator you seek Whether a beginner or an advanced student of metaphysics **Pyramids of Light** is a must read **Light from the Pyramid** ,197? [Seven Steps to the Temple of Light](#) Uranda, 2010-09-16 Illustrated hardcover version of Seven Steps to the Temple of Light booklet **The Universal Family of Light** Barbara Marciniak, 2013-02-03 Introduction by the Pleiadians Introduction from the Pleiadians Greetings dear friends It is our distinct pleasure to partake of your reality once again and to journey with you for a while on the road to adventure and self discovery What journey you may rightly ask for it may seem that you are traveling in circles and the idea of a great adventure in your life is a far cry and distant dream from the daily dogma and relentless burdens of living you face Nonetheless allow us to accompany you for a while as companions offering to entertain you and enliven your step as we point out the sites and symbols along the way We are storytellers extraordinaire or so we ve been told and we too have traveled in seemingly endless circles so we have much in common Our destination is the same as yours for we are you in another version and form of reality as deeply entrenched and entrapped as you believe yourselves to be What sort of paradox is this And who indeed are we claiming kin to you and yours And why do we desire to journey with you Well these things you must decide for yourselves We relate great tales and relish a resplendently irreverent good humor all intended to figure things out in all due respect as best we can We strive to make sense of existence gathering multidimensional pieces of a puzzle into a form and shape that encompass untold and unrecognized societies How can pieces of a puzzle be multidimensional and what is multidimensional anyway We can hear your questions now and we guarantee that you will have many more before the journey is complete So we ask may we join you and enter your reality by invitation For it is through your beckoning and with

your permission that we spring forth as a part of your life Feel into the depths of your being before you respond Seek inside for an answer for to invite us into your reality as friends and companions will with certainty confound and change your lives and perhaps some of you are quite content with where you are Perhaps you are not really interested in multi dimensional realities and perceive these ideas as vague notions and tidbits of unfounded fiction fracturing and fragmenting a logic you paid so dearly to achieve If that is the case then you may do well to stop short now and put our tale aside Perhaps in another time and place we will meet again If however we have piqued your curiosity and you feel compelled to continue so be it It is best to start with the truth As a matter of fact if there is such a thing it is best to end with the truth as well And how about the middle and all along the way you may ask Well the truth is essential throughout the journey however the ongoing paradox invariably involves your point of view Remember that Now we are travelers through time which is the best way to describe us We call ourselves Pleiadians though we answer to many names and characters We are as real as you believe yourselves to be When we encounter you we meet ourselves located on a slice of time poised as you believe in a solid physical 3 D world You fascinate us and perhaps by the end of our travels and tales you will be fascinated with yourselves as well For now the task of telling is at hand and so the tale begins      *Great Pyramid Fundamentals* David Davidson,1932      **The Universal Family of Light** Barbara Marciniak,2013-03-25 Introduction by the Pleiadians Greetings dear friends It is our distinct pleasure to partake of your reality once again and to journey with you for a while on the road to adventure and self discovery What journey you may rightly ask for it may seem that you are traveling in circles and the idea of a great adventure in your life is a far cry and distant dream from the daily dogma and relentless burdens of living you face Nonetheless allow us to accompany you for a while as companions offering to entertain you and enliven your step as we point out the sites and symbols along the way We are storytellers extraordinaire or so we ve been told and we too have traveled in seemingly endless circles so we have much in common Our destination is the same as yours for we are you in another version and form of reality as deeply entrenched and entrapped as you believe yourselves to be What sort of paradox is this And who indeed are we claiming kin to you and yours And why do we desire to journey with you Well these things you must decide for yourselves We relate great tales and relish a resplendently irreverent good humor all intended to figure things out in all due respect as best we can We strive to make sense of existence gathering multidimensional pieces of a puzzle into a form and shape that encompass untold and unrecognized societies How can pieces of a puzzle be multidimensional and what is multidimensional anyway We can hear your questions now and we guarantee that you will have many more before the journey is complete So we ask may we join you and enter your reality by invitation For it is through your beckoning and with your permission that we spring forth as a part of your life Feel into the depths of your being before you respond Seek inside for an answer for to invite us into your reality as friends and companions will with certainty confound and change your lives and perhaps some of you are quite content with where you are Perhaps you are not really interested in multi dimensional realities and perceive these ideas as
