Indian industrial commission, 1916-18, 1917 [The Gambling Act 2005](#) Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2012-07-24 High street betting shops and casinos alike are currently allowed a maximum of four B2 FOBT gaming machines which allow stakes up to 100 and a 500 prize Casinos should instead be permitted to operate up to twenty B2 type gaming machines Limiting the number of B2 machines in betting shops has encouraged them to cluster in some high streets in order to satisfy customer demand Local Authorities should have the power to permit more than the four B2 machines per shop if they believe it will help with clustering The Committee also recommends that any local authority be able to make the decision as to whether or not they want a casino As a step towards this existing 1968 Act Casino licences should be made portable allowing operators to relocate to any local authority provided that they continue to be constrained by the need to obtain local authority approval a premises licence and planning permission The failure to set remote gambling taxation at a level at which online operators could remain within the UK has led to almost every online gambling operator moving offshore whilst most are still able to advertise and operate into the UK The Committee further recommends the Gambling Commission should introduce a new licence fee structure which reduces the current anomaly where small independent bookmakers pay much higher fees per shop than large chains Particularly given the absence of a significant UK regulated online sector or any Regional Casinos the Gambling Commission remains an overly expensive bureaucratic regulator **Parliamentary Papers** Great Britain. Parliament. House of Commons, 1919 *Minutes of Evidence, 1916-18: Delhi, United Provinces and Bihar and Orissa* India. Industrial Commission, 1917 [HM Revenue & Customs](#) Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2012-08-29 In April 2010 the Department launched its renewed strategy to reduce the amount of tax lost each year due to alcohol duty evasion principally through fraud In 2010 11 the renewed strategy delivered 433 million in financial benefits against a target of 390 million However it is estimated that there is a tax gap the difference between taxes due and

the amount actually collected of up to 1 2 billion The Department has not produced an estimate of the tax gap for wine despite a commitment to do so Without reliable information on the scale and nature of duty evasion for each category of alcohol the Department cannot tailor its approach or make best use of the additional 917 million it plans to spend on reducing all kinds of tax avoidance and evasion The Department is consulting on a range of measures to reduce alcohol duty fraud including a proposal to introduce fiscal stamps for beer but does not yet have a full understanding of the costs and benefits of these proposals The Department also does not make best use of intelligence and technology to detect and prevent alcohol duty evasion and needs to work more closely with the industry to improve its understanding of legitimate export markets and improve how it works with the UK Border Force In addition the full capability of the Excise Movement Control System EMCS which facilitates the tracking of freight across the European Union and could be used to target interventions and investigations more effectively is not used **Report Commonwealth Shipping Committee,1919 Delhi, United**

Provinces, and Bihar and Orissa India. Industrial Commission,1919 The student immigration system in Scotland Great Britain: Parliament: House of Commons: Scottish Affairs Committee,2011-07-26 In this report the Scottish Affairs Committee warns that the proposed changes to the student visa system could have a disproportionate impact on Scottish universities and the Scottish economy Given the size of the higher education sector in Scotland and that the proposals are primarily designed to address a problem which is largely insignificant in Scotland the high standard of Scottish education and the financial status of many institutions could unintentionally be compromised and diminished The MPs warn that Scottish circumstances were not adequately taken into account when proposals that will apply across the UK were drawn up and they call for action to adjust the UK criteria accordingly They believe that the visa proposals are likely to damage partnership working between universities and industry International students choose to study in Scotland because of the opportunity to get a high standard of education and often the opportunity to gain valuable work experience in specialist subjects like petroleum engineering A system that allows a certain number of international students to come to Scotland benefits the students the universities and the Scottish economy Changes to the immigration and visa system should not put this at risk The Committee urges the government to address as a matter of urgency the adverse impact of the proposals on the Scottish economy the lack of focus in the proposals on bogus colleges rather than all overwhelmingly reputable institutions and the need to separately recognise students within the definition of immigrant **Delivering Front Line Capability to the RAF**

Great Britain: Parliament: House of Commons: Defence Committee,2006-01-18 This report examines of the progress being made in implementing MoDs decisions regarding the future support of military aircraft maintenance lines being reduced to forward and depth and the implications of these decisions for the Defence Aviation and Repair Agency DARA For fast jet aircraft Harrier GR9 and Tornado GR4 depth support will transfer from DARA St Athan South Wales where it is carried out largely by civilian tradesmen to RAF Main Operating Bases where it will be carried out by RAF tradesmen supplemented by

tradesmen from the aircraft manufacturer For rotary wing aircraft helicopters depth support will by contrast be provided at DARA Fleetlands Hampshire by RAF tradesmen and DARA civilian tradesmen The Committee is concerned that these inconsistent arrangements will not be sustainable over the long term The new arrangements for support carry risks the long term sustainability of efficiency programmes potential over dependency on industry and the capability of the RAFs new support processes to meet surge demands The Committee recommends an independent audit of the Harrier programme to ensure that the support is being provided in a more efficient and cost effective manner than before The future of DARA is uncertain some of its businesses are to be closed down others are to be market tested The prospects for the DARA St Athan site including its recently completed Superhangar facility costing over 100m are in particular doubt The Committee finds incomprehensible MoDs decision to go ahead with building the Superhangar at a time when it was reviewing its logistic support provision and recommends an investigation by the National Audit Office and the Wales Audit Office **Canadian**
