Qabbala And Philosophy:

Philosophy and Kabbalah , *The Kabbalah* Adolphe Franck, 2014-06-02 This is a scholarly study of the origin and evolution of the Kabbalah Originally published in French in 1843 with a second French edition in 1889 this book traces the origins of the philosophical concepts of the Kabbalah to the ancient Zoroastrians Franck goes into fascinating detail about the doctrine of the Kabbalah as expressed in the Sepher Yetzirah and the Zohar He uses internal evidence to trace the origins of these texts many centuries prior to their first known publication in the thirteenth century C E Franck carefully compares the philosophy of the Kabbalah with Greek philosophy the Alexandrians Philo and the Gnostics and concludes that although there are similarities none of them can claim to be the source of the Kabbalah However he does find many more similarities with the ancient Zoroastrian beliefs By this process of elimination he comes to the conclusion that the doctrines of the Kabbalah had their origin during the Babylonian exile circa 500 B C E which was also the time when Zoroaster was active in the same geographical region This thesis is worth considering and potentially adds more weight to the already numerous contributions of Zoroastrianism to world culture **Philosophy and Kabbalah** Alessandro Guetta, 2009 **Leibniz and the Kabbalah** A.P. Coudert, 2013-03-14 The general view of scholars is that the Kabbalah had no meaningful influence on Leibniz s thought But on the basis of new evidence I am convinced that the question must be reopened The Kabbalah did influence Leibniz and a recognition of this will lead to both a better understanding of the supposed quirkiness 2 of Leibniz s philosophy and an appreciation of the Kabbalah as an integral but hitherto ignored factor in the emergence of the modern secular and scientifically oriented world During the past twenty years there has been increasing willingness to recognize the important ways in which mystical and occult thinking contributed to the development of science and the emergence 3 of toleration However the Kabbalah particularly the Lurianic Kabbalah with its monistic vitalism and optimistic philosophy of perfectionism and universal salvation has not yet been integrated into the new historiography although it richly deserves to be On the basis of manuscripts in libraries at Hanover and Wolfenbiittel it is clear that Leibniz s relationship with Francis Mercury van Helmont 1614 1698 and Christian Knorr von Rosenroth 1636 1689 the two leading Christian Kabbalists of the period was much closer than previously imagined and that his direct knowledge of their writings especially the collection of 4 kabbalistic texts they published in the Kabbala Denudata was far more detailed than most scholars have realized During 1688 Leibniz spent more than a month at Sulzbach with von Rosenroth **The Kabbalah** Adolphe Franck, 2020-03-30 The Kabbalah s history and esoteric qualities are demystified and explained by Adolph Franck a philosopher and scholar of ancient Jewish texts With origins dating back thousands of years the Kabbalistic texts are a cornerstone of Judaist tradition They explain the relationship between God humanity the Earth and the very Creation itself For many centuries Kabbalist scholars employed the lore as a means of explaining difficult passages in the Hebrew Bible and other ancient texts However the Kabbalah itself evolved with time an important component of it is the Zohar a book whose origins are considered by

scholars to be potentially as late as the 13th century AD Beginning in the Renaissance elements of the Zohar's doctrine were even adopted by Christian thinkers As Franck explains its influences can be felt in religions and philosophical belief systems elsewhere Frequent reinterpretations and complex philosophical discussions give the Kabbalah aspects of continuous history reflective of the changes in society such as the Renaissance The author devotes entire chapters to the Kabbalist views on the human soul the physically manifest world and the divine nature of God his analysis informed by a wide breadth of sources plus many years of personal researches and scholarship on Judaism

Between Kant and Kabbalah Alan L.

Mittleman, 2012-02-01 This is the first full length systematic study in English of Isaac Breuer a founder of Agudat Israel whose intellectual achievements reflected the world of Franz Rosenzweig and Martin Buber in an Orthodox mirror It sheds light on an often neglected aspect of German Jewry's last phase and reclaims Breuer as a paradigmatic figure in the Jewish encounter with modernity

Suffering Time: Philosophical, Kabbalistic, and

Hasidic Reflections on Temporality Elliot R. Wolfson, 2021-05-25 No one theory of time is pursued in these essays but a major theme that threads them together is Wolfson's signature idea of the timeserve as a linear circularity or a circular linearity expressions that are meant to avoid the conventional split between the two temporal modalities of the line and the circle The conception of time elicited by Wolfson from a host of philosophical and mystical sources both Jewish and non Jewish buttresses the contention that it is precisely structural invariability that engenders interpretive variation This hermeneutical axiom is justified in turn by the presumption regarding the cadence of time as the constant return of what has always been what is yet to be The telling of time wells forth from the time of telling One cannot speak of the being of time consequently except from the standpoint of the time of being nor of the time of being except from the standpoint of the being of time

Symbols of the Kabbalah

Sanford L. Drob, 1999-11-01 Symbols of the Kabbalah Philosophical and Psychological Perspectives provides a philosophical and psychological interpretation of the major symbols of the theosophical Kabbalah It shows that the Kabbalah particularly as it is expressed in the school of Isaac Luria provides a coherent and comprehensive account of the cosmos and humanity's role within it that is intellectually morally and spiritually significant for contemporary life

Judah Abrabanel's Philosophy of Love and Kabbalah Andrew Lee Gluck,2012 This book attempts to provide a moderately well educated reader with tools for understanding this very important piece of Jewish Renaissance literature exploring not only the book itself but also many of the commentaries on it from a philosophical perspective such as Jewish thought mysticism and Pantheism **Knowledge of God and the Development of Early Kabbalah** Jonathan Dauber,2012-08-01 In Knowledge of God and the Development of Early Kabbalah Jonathan Dauber offers a fresh consideration of the emergence of Kabbalah against the backdrop of a re evaluation of the relationship between Kabbalistic and philosophic discourse

The Beginning of the World in Renaissance Jewish Thought Brian Ogren,2016-08-22 In The Beginning of the World in Renaissance Jewish Thought Brian Ogren offers a deep analysis of late fifteenth century Italian Jewish thought concerning the creation of the world and the beginning of time Ogren s book is the very first to seriously juxtapose the thought of the great Jewish thinker Yohanan Alemanno Alemanno s famed Christian interlocutor Giovanni Pico della Mirandola the important Iberian exegete active in Italy Isaac Abravanel and Abravanel s renowned philosopher son Judah known as Leone Ebreo By bringing these thinkers together this book presents a new understanding of early modern uses of Jewish texts and hermeneutics Ogren successfully demonstrates that the syntheses of philosophy and Kabbalah carried out by these four intellectuals in their quests to understand the beginning itself marked a new beginning in Western thought characterized by simultaneous continuity and rupture **The Name of God in Jewish Thought** Michael T Miller,2015-10-16 One of the most powerful traditions of the Jewish fascination with language is that of the Name Indeed the Jewish mystical tradition

would seem a two millennia long meditation on the nature of name in relation to object and how name mediates between subject and object Even within the tide of the 20th century s linguistic turn the aspect most notable in the almost entirely secular Jewish philosophers is that of the personal name here given pivotal importance in the articulation of human relationships and dialogue The Name of God in Jewish Thought examines the texts of Judaism pertaining to the Name of God offering a philosophical analysis of these as a means of understanding the metaphysical role of the name generally in terms of its relationship with identity The book begins with the formation of rabbinic Judaism in Late Antiquity travelling through the development of the motif into the Medieval Kabbalah where the Name reaches its grandest and most systematic statement and the one which has most helped to form the ideas of Jewish philosophers in the 20th and 21st Century This investigation will highlight certain metaphysical ideas which have developed within Judaism from the Biblical sources and which present a direct challenge to the paradigms of western philosophy Thus a grander subtext is a criticism of the Greek metaphysics of being which the west has inherited and which Jewish philosophers often subject to challenges of varying subtlety it is these philosophers who often place a peculiar emphasis on the personal name and this emphasis depends on the historical influence of the Jewish metaphysical tradition of the Name of God Providing a comprehensive description of historical aspects of Jewish Name Theology this book also offers new ways of thinking about subjectivity and ontology through its original approach to the nature of the name combining philosophy with text critical analysis As such it is an essential resource for students and scholars of Jewish Studies Philosophy and Religion Heidegger and Kabbalah Elliot R. Wolfson, 2019-10-01 While many scholars have noted Martin Heidegger s indebtedness to Christian mystical sources as well as his affinity with Taoism and Buddhism Elliot R Wolfson expands connections between Heidegger s thought and kabbalistic material By arguing that the Jewish esoteric tradition impacted Heidegger Wolfson presents an alternative way of understanding the history of Western philosophy Wolfson s comparison between Heidegger and kabbalah sheds light on key concepts such as hermeneutics temporality language and being and nothingness while yielding surprising reflections on their common philosophical ground Given Heidegger s involvement with National Socialism and his use of antisemitic language these innovative readings are all the more remarkable for their juxtaposition of incongruent fields of discourse Wolfson s entanglement with Heidegger and kabbalah not only enhances understandings of both but more profoundly serves as an ethical corrective to their respective ethnocentrism and essentialism Wolfson masterfully illustrates the redemptive capacity of thought to illuminate common ground in seemingly disparate philosophical traditions *The Kabbalah Or the Religious Philosophy of the Hebrews* Adolphe Franck, 2006-05-20 Abraham Abulafia s Esotericism Moshe Idel, 2020-10-12 The series Studies and Texts in Scepticism contains monographs translations and collected essays exploring scepticism in its dual manifestation as a purely philosophical tradition and as a set of sceptical strategies concepts and attitudes in the cultural field especially in religions perhaps most notably in Judaism In such cultural contexts scepticism manifests as a critical

attitude towards different dimensions and systems of secular or revealed knowledge and towards religious and political authorities It is not merely an intellectual or theoretical worldview but a critical form of life that expresses itself in such diverse phenomena as religion literature and society Further book series of the Maimonides Centre for Advanced Studies are Jewish Thought Philosophy and Religion and the Yearbook of the Maimonides Centre for Advances Studies
