Qbase Anaesthesia 3 Mcqs In Medicine For The Frca:

Qbase Anaesthesia: Volume 3, MCQs in Medicine for the FRCA Edward Hammond, Andrew McIndoe, 1997-09-01

QBase Anaesthesia 3 is the third volume in the QBase series of book CD ROM packages and is aimed at the FRCA candidate. Both the book and CD contain 555 questions divided into a number of pre set exams with accompanying fully referenced explanatory notes and there are also a number of pre set short exams to attempt utilising the questions in the book. The CD ROM can be installed in seconds and gives the reader an incredible range of options greatly increasing the utility and value of the book. Not only can the reader practice the set exams but the program will mark these exams, allow the reader to customize exams to focus in on areas requiring further revision, shuffle the stems A-E to prevent the candidate from memorising patterns and advise on examination strategy. It also has the facility to print out and store test results and provide helpful notes on each question. The CD ROM accompanying this volume has been improved so that the exam analysis now gives a subject based as well as an overall analysis. On installation the CD ROM will automatically update the version of the Qbase program released with QBase Anaesthesia 1 or 2.

QBase Anaesthesia with CD-ROM: Volume 5, MCQs for the Final FRCA Edward Hammond, Andrew McIndoe, 2006-01-12

Another title in GMM's highly successful QBase series this time focusing on the Final FRCA Fellowship of the Royal College of Anaesthetists with sets of examination papers the candidate can use to revise and practice their MCQ technique. As always the self learning experience is greatly enhanced by the free CD ROM containing the QBase examination software. This powerful program allows the user to sit the pre set exams as printed in the book or to create their own exams using questions drawn from the total pool available on the CD ROM. The program can either generate these exams randomly maintaining the same proportions of each subject as the pre set exams or the user can select any number of questions in any subject area to create their very own exam.
