The Failure of Mill's Qualitative Distinction of Pleasures Thi Thu Huong Dang,2008-12 Essay from the year 2008 in the subject Philosophy Philosophy of the 19th Century grade Not yet graded LUISS Guido Carli LUISS Guido Carli course Applied Ethics 28 entries in the bibliography language English abstract In reply to the standing objection that utilitarianism is a pig philosophy John Stuart Mill 1806 1873 holds that Benthamite utilitarians have fully proved their case II 4 by pursuing quantitative hedonism which emphasizes the difference of quantity in pleasures However he still aims at taking a higher ground with entire consistency II 4 to defend utilitarianism by introducing his later called qualitative hedonism that is based on the difference of quality in pleasures in Chapter II of Utilitarianism In the essay I argue that Mill's qualitative distinction of pleasures is problematic and inconsistent with hedonism to which he explicitly commits himself As a result instead of providing support for utilitarianism it causes more problems

agent refers to himself herself in terms of his desire and passions yet also refers to others besides himself For the rational economic agent what is the nature of this relationship with the Other Should it not be understood as undergoing a transformation once we come to consider the economic agent as a reasonable being Through what process does the Other pass from being an instrument at the disposal of a rational agent to being an end in itself for a moral subject In other words how does another become an Other These questions are behind the re examination of certain fundamental notions which takes place in this book an examination which involves a re reading of certain great authors With contributions from authors around the world this work is divided into three main parts The first deals with individuals from the history of economic thought such as Adam Smith Karl Marx and Hannah Arendt this is then followed by a thematic section in which the concepts of recognition and subjectivity are questioned in a market context Finally the third part offers an analysis of the issue of the Individual and the Other in different fields of the recent economic analysis including game theory decision theory or social choice The Individual and the Other in Economic Thought aims to help the reader better understand how the relationship between the Individual and the Other has been conceived conceptualized and framed in economic analysis It will be of great use to graduate students scholars and any reader interested in this crucial issue
