The Quality of Mercy Paul A. Lee, 1992 **The Leftmost City** Richard Gendron, 2018-04-17 Almost all US cities are controlled by real estate and development interests but Santa Cruz California is a deviant case An unusual coalition of socialist feminists environmentalists social welfare liberals and neighborhood activists has stopped every growth project proposed by landowners and developers since 1969 and controlled the city council since 1981 Even after a 1989 earthquake forced the city to rebuild its entire downtown the progressive elected officials prevailed over developers and landowners Drawing on hundreds of primary documents as well as original previously unpublished interviews The Leftmost City utilizes an extended case study of Santa Cruz to critique three major theories of urban power Marxism public choice theory and regime theory Santa Cruz is presented within the context of other progressive attempts to shape city government and the authors findings support growth coalition theory which stresses the conflict between real estate interests and neighborhoods as the fundamental axis of urban politics The authors conclude their analysis by applying insights gleaned from Santa Cruz to progressive movements nationwide offering a template for progressive coalitions to effectively organize to achieve political power

There Is a Garden in the Mind Paul A. Lee, 2013-03-12 There Is a Garden in the Mind presents an engaging look at the work and life of pioneering organic gardener Alan Chadwick and his profound influence on the organic farming movement In this wide ranging and philosophical memoir author Paul Lee recounts his first serendipitous meeting with Chadwick in Santa Cruz California in 1967 and their subsequent founding of the Chadwick Garden at UC Santa Cruz the first organic and biointensive garden at a U S university Today there are few who would dispute the ecological and health benefits of organically produced food and the student garden project founded by Chadwick and Lee has evolved into a world renowned research center that helps third world farmers obtain high yields using organic gardening But when Chadwick and Lee first broke ground in the 1960s the term organic belonged to the university s chemists and the Chadwick Garden spurred a heated battle against the whole system of industrial existence Lee s memoir contextualizes this struggle by examining the centuries old history of the conflict between industrial science and organic nature the roots of the modern environmental movement and the slow food movement and the origin of the term organic His account of Chadwick s work fills in a gap in the history of the sustainable agriculture movement and proposes that Chadwick s groundwork continues to bear fruit in today s burgeoning urban garden locavore and self sufficiency movements Table of contents Chapter one The English Gardener Arrives Chapter two The English Gardener Goes to Work Chapter three The Garden Plot Chapter four Goethe the Vitalist contra Newton the Physicalist Chapter five Urea I Found It Chapter six USA and Earth Day Chapter seven The Method Chapter eight Chadwick Departs Chapter nine A Moral Equivalent of War Chapter ten The Death of Chadwick Chapter eleven California Cuisine and the Homeless Garden Project Chapter twelve A Biodynamic Garden on Long Island Chapter thirteen Chadwick s Legacy

Bianca M. Lopez,2024-09-15 Queen of Sorrows takes an original approach to both late medieval Italian history and the history of Christianity using quantitative and qualitative analyses of a remarkable archive of 1 904 testaments to determine patterns in giving to the Virgin of Loreto shrine in the late fourteenth and early fifteenth centuries Bianca M Lopez argues that in central Italy as elsewhere the cult of the Virgin Mary gained new prominence at this time of unprecedented mortality Individuals gave to Santa Maria di Loreto which houses the structure in which Mary is believed to have lived as an expression of their grief in the hope of strengthening family lineages beyond death and to care for loved ones believed to be languishing in purgatory Lopez establishes statistical correlations between different social groups and their donations to Loreto over time uncovering informative new historical patterns such as the prominence of widow and migrant donors in the notarial record The testaments also provide a social history of Recanati revealing how its denizens venerated Mary as a saint with unrivaled spiritual power and uniquely sympathetic to grief having lost her own son Jesus In the fourteenth century plague survivors transformed their anguish into Marian devotion The devastation of the plague brought the Virgin out of noble courts and monasteries and onto city streets As Queen of Sorrows details however the popularity and growing wealth of Loreto s Marian shrine attracted the attention of the papacy and peninsular seigneurial lords who eventually brought Santa Maria di Loreto under the control of the Church **The Cumulative Book Index** ,1994 A world list of books in the
