This is an anthology of my work in short stories, essays, poems, and scripts about someone who grapples with his existential angst. There are eternal problems from the dawn of man to be solved philosophically, but there are always special problems in each era that require our immediate attention due to the lifestyles we choose and the way that families, societies, culture, and civilizations come together and sometimes break apart. It is during those moments of the day when the residue of what we have said and done falls from grace and is distilled and bottled under our particular brand that makes the existence of our marvelous species worthwhile and ready to pass on to the next generation. This book is dedicated to those that are young in spirit and romantic to the furthest reaches of our mortality.
