structure and the Gothic portals of the cathedral In the sermon as in the cathedral he finds a powerful motivational mechanism that invites the repentant sinner to enter into a new contract with the Virgin Mary The correlation between elements of the sermon s text and the sculptural components of the cathedral leads to an exploration of the socioeconomic conditions in Picardy at the time and a vivid sketch of how the cathedral and its images were used by ordinary people The author finds parallels in the rhetorical tools used in the sermon on the one hand and stylistic and compositional tools used in the sculpture on the other In addition to providing a fascinating and cogent consideration of medieval beliefs about salvation and redemption this book also lays the groundwork for a long overdue examination of the performative and textual in relationship to sculpture
