Rape The Price Of Coercive Sexuality:

Rape Loreenne M. G. Clark, Debra J. Lewis, 1977 *Sexual Coercion in Dating Relationships* E Sandra Byers, Lucia F O'Sullivan, 2013-12-16 Sexual Coercion in Dating Relationships represents the next generation of research in the area of sexual coercion This collection of critical analyses of current research and possible directions for future research benefits all researchers counselors and educators who need to thoroughly understand research efforts in this field The clear analyses allow readers to evaluate critical issues and progress in the field to date Outside of research and feminist communities sexual coercion is frequently minimized and too often stereotyped The words sexual coercion synonyms with sexual aggression and sexual assault conjure in the minds of many the image of a deranged man attacking a woman stranger in a dark place where she should know better than to be walking alone This and other stereotypes are challenged by the authors of Sexual Coercion in the Dating Relationship The chapters examine other important issues that have yet received little research attention For example one author tests the empirical assumptions inherent in a prominent theory about the causes of sexual coercion Some of the authors challenge the assumption that only women are pressured or forced to engage in unwanted or nonconsensual sex Other authors address issues related to the prevention of sexual coercion of women and challenge current conceptions of women s sexuality Still others identify methodological problems related to research on sexual coercion such as current methods of identifying attitudes supportive of the use of sexual coercion All of the chapters challenge current beliefs related to the issue of sexual coercion and are designed to spur researchers and educators forward into new ground With the publication of this book readers are forced to re think their assumptions on sexual coercion with the new statistics and research on these topics evaluates of a prominent theory of the causes of sexual coercion the traditional script examines men s and women s use of sexual influence in their dating relationships the types of behavior men and women use to influence their partners to engage in unwanted sex and the associated consequences for the individuals and the relationship compares men s and women s reactions to sexual coercion presents a model to predict women s resistance and evaluates effective practical measures of prevention for women evaluates attitudes toward rape literature and the predictive ability of assessing attitudes critical reviews of current conceptions of women s sexuality and the need to restructure culturally endorsed attitudes in our prevention efforts reviews methodological problems plaguing many current research investigations and the political ramifications of many investigations in this area Because this book presents information related to the prevention and experience of sexual coercion Sexual Coercion in Dating Relationships is helpful in developing long term research and preventive programs This sourcebook also helps researchers expert witnesses counselors especially college support staff and college and university educators provide information to students and others about sexual coercion Understanding Sexual Offending Patrick Lussier, Evan C McCuish, Jesse Cale, 2020-10-25 Addressing common myths and misconceptions about sexual offending this book highlights the current state of scientific knowledge about the origins and the development of

sexual offending It offers a critical overview of current criminal justice policies and close to 100 years of research on how to best improve these policies through theoretically grounded and methodologically rigorous research Focusing on proactive prevention oriented strategies this book revisits popular ideas about sexual offending through an evidence based lens addressing ideological and populist discourse that has led to ineffective and reactive policies It advocates for a clearly defined concept of the phenomenon of sexual offending to underpin research and treatment Uniquely authors consider sexual offending from the viewpoint of criminal justice research and practitioners incorporating the sociohistorical construction of sexual offending as a social problem developmental life course research and the impact of social policies This book is a call for more proactive research on the origins and the development of sexual offending over the life course **Sexual Assault**

Rita F. Gunn,Candice Minch,1998-01-01 Only a small percentage of all cases of sexual assault are reported to the police Why do so many women decide not to report an assault And what happens to the assailant when a case is reported and charges are laid In this volume Rita Gunn and Candice Minch explore the answers to these questions basing their analysis on the most comprehensive data available on sexual assault in Canada Through interviews with victims of sexual assault they analyze the factors that influence the women to report an attack or keep silent Society still places the responsibility on women to avoid being sexually assaulted so the victim is caught in a dilemma when deciding whether to disclose an assault The authors then look at what happens when a sexual assault is reported They follow a sample of assaults from the initial police report through to the final disposition of the case demonstrating that only 10 percent of the original charges resulted in conviction 20 percent were reduced to lesser charges over 70 percent of the charges were filtered out of the criminal justice system before trial and societal attitudes which blame victims for the offence extend into the legal system Finally the authors offer an assessment of the effects of the 1983 sexual assault legislation on the processing and ultimately on the reporting of sexual offences They conclude that law reform is necessary but not sufficient in itself The law is only as innovative as the individuals who use interpret and apply it This volume provides a valuable analysis of sexual assault as it affects the victim and the assailant Handbook of Psychological Approaches with Violent Offenders Vincent B. Van

Hasselt,Michel Hersen,1999-01-31 Provides an examination of salient strategies and issues in research and treatment of a wide variety of violent offenders discusses relevant clinical implications of working with the disparate groups that are covered and covers a range of special topics and factors that are common to populations of violent individuals **Essays in the History of Canadian Law** Susan Lewthwaite,Tina Loo,Jim Phillips,1994-12-15 This fifth volume in the distinguished series on the history of Canadian law turns to the important issues of crime and criminal justice In examining crime and criminal law specifically the volume contributes to the long standing concern of Canadian historians with law order and authority The volume covers criminal justice history at various times in British Columbia Ontario Quebec and the Maritimes It is a study which opens up greater vistas of understanding to all those interested in the interstices of law crime and

punishment *Date Rape* Leslie Francis, 2010-11-01 *Date Rape* is a remarkable contribution to the field of feminist thought. For anyone who wishes to better understand why date rape IS rape, this book is a necessary read. I am convinced that *Date Rape* will enable all of my students to better distinguish between each other's maybes, yeses, and nos. *Sexual Assault in Canada* Elizabeth A. Sheehy, 2012-09-29 *Sexual Assault in Canada* is the first English language book in almost two decades to assess the state of sexual assault law and legal practice in Canada. Gathering together feminist scholars, lawyers, activists, and policy makers, it presents a picture of the difficult issues that Canadian women face when reporting and prosecuting sexual violence. The volume addresses many themes, including the systematic undermining of women who have been sexually assaulted, the experiences of marginalized women, and the role of women's activism. It explores sexual assault in various contexts, including professional sports, the doctor-patient relationship, and residential schools. And it highlights the influence of certain players in the reporting and litigation of sexual violence, including health care providers, social workers, police, lawyers, and judges. *Sexual Assault in Canada* provides both a multi-faceted assessment of the progress of feminist reforms to Canadian sexual assault law and practice and articulates a myriad of new ideas, proposed changes to law, and inspired activist strategies. This book was created to celebrate the tenth anniversary of Jane Doe's remarkable legal victory against the Toronto police for sex discrimination in the policing of rape and for negligence in failing to warn her of a serial rapist. The case made legal history and motivated a new generation of feminist activists. This book honours her pioneering work by reflecting on how law, legal practice, and activism have evolved over the past decade and where feminist research and reform should lead in the years to come. Published in English. *A Most Detestable Crime* Keith Burgess-Jackson, 1999 This collection of original essays by leading philosophers probes the philosophical aspects of rape in all of its manifestations: act, crime, practice, and institution. Among the issues examined are the nature of rape, the wrongfulness and harmfulness of rape, the relation of rape to racism, sexism, classism, and other forms of oppression, and the legitimacy of various rape law doctrines. Each contributor advances a novel argument and seeks to disentangle the conceptual, evaluative, and empirical issues that arise in connection with the crime. This essential reference work is among the first philosophical anthologies devoted exclusively to the subject of rape, as complex and interesting intellectually as it is pervasive and disturbing socially. *All in the Family* Robert O. Self, 2012-09-18 A brilliant history of American beliefs about the family and how those ideas have affected our politics since the 1960s. *Washington Monthly*: In the 1960s, Lyndon Johnson's Great Society and War on Poverty promised an array of federal programs to assist working-class families. In the 1980s, Ronald Reagan declared the GOP the party of family values and promised to keep government out of Americans' lives. Again and again, historians have sought to explain the nation's profound political realignment from the 1960s to the 2000s, five decades that witnessed the fracturing of liberalism and the rise of the conservative right. The award-winning historian Robert O. Self is the first to argue that the separate threads of that realignment, from civil rights to women's rights, from the antiwar movement to Nixon's silent

majority from the abortion wars to gay marriage from the welfare state to neoliberal economic policies all ran through the politicized American family Based on an astonishing range of sources All in the Family rethinks an entire era from the Great Society's default assumption of a white heterosexual man at the head of each household to the quests for equal rights and opportunities for a broader range of citizens and a more inclusive idea of the American family He discusses the Roe v Wade decision and antidiscrimination protections in the workplace and the furious conservative backlash that began in the 1970s as figures such as George Wallace Phyllis Schlafly Anita Bryant and Jerry Falwell built a political movement based on the perceived moral threat to the traditional family Self writes that family values conservatives in fact paved the way for fiscal conservatives and that Reagan's presidency united the two constituencies which remained for decades the base of the Republican Party This is a powerful well researched account of how the efforts of marginalized groups to assert their rights as citizens ran up against the resistance of entrenched privilege setting the stage for the polarization that grips US politics today Self reminds us that our democracy is an imperfect thing only as noble as the people who constitute it The Boston Globe

Social Psychology and Human Sexuality Roy F. Baumeister, 2001 Presents a selected group of influential articles dealing specifically with the social aspects of sexuality topics covered include differences between male and female sexuality virginity harassment rape and coercion and jealousy

Sex as Crime? Gayle Letherby, Kate Williams, Philip Birch, Maureen E Cain, 2013-05-13 This book brings together chapters by academics researchers and practitioners to analyse how crimes such as sex work domestic violence and rape and sexual assault have risen up the Government agenda in recent years For example the Paying the Price consultation exercise on sex work in 2004 and recent legislation around sex crimes including the Sex Offences Act 2003 This is a multi disciplinary social scientific pro feminist collection which draws upon practice empirical research documentary analysis and overviews of research in the areas of sex work and sexual violence Within Sex as Crime there are two distinct sub sections Sex for Sale and Sex as Violence but the broader and overriding link of sex as crime remains a paramount theme that spans the collection Chapters include discussions of the impact of new regulations on street sex workers and of street sex work on community residents the use of the internet by men who pay for sex and men who sell it sexual violence and identity sex crimes against children and protecting children online and working with sex offenders Other chapters explore reasons for such offending behaviour

Writing on the Body Katie Conboy, Nadia Medina, Sarah Stanbury, 1997 This work comprises a collection of influential readings in feminist theory It is divided into four sections Reading the Body Bodies in Production The Body Speaks and Body on Stage

Troubling Sex Elaine Craig, 2012-07-01 When legal scholars or judges approach the subject of sexuality they are often constrained by existing theoretical frameworks For instance queer theorists typically focus on sexual liberty but tend not to consider issues such as sexual violence Feminist theories focus on violence but often don't give recognition to the joy of sexuality To assess the possibility of devising a legal theory of sexuality that can ensure equality without assimilation diversity without exclusion and

liberty without suffering Elaine Craig examines the Supreme Court of Canada's approach to sexuality in cases that range from sexual violence to discrimination based on orientation Although the Court continues to hold an essentialist understanding of sexuality that renders certain harms invisible its feminist inspired approach to sexual violence recognizes the socially constructed nature of sexuality and produces legal reasoning that promotes sexual integrity as a common interest Blending feminist theory with the inclusiveness of queer theory Craig advances an iconoclastic approach to law and sexuality that has the power to transform both theory and practice *Feminist Legal Theory* Katherine Bartlett, Rosanne Kennedy, 2018-02-19 This book offers powerful analyses of the relationship between law and gender and new understandings of the limits of and opportunities for legal reform drawn from the experiences of women and from critical perspectives developed within other disciplines *Dangerous Desire* Pamela Barnett, 2004-11-15 *Dangerous Desire* is an important work that calls attention to how post 1960s literary representations of rape have shaped the ways in which both sexual and social freedoms are imagined in American culture Exploring key post sixties texts including Cleaver's *Soul on Ice* Brownmiller's *Against Our Will* French's *The Women's Room* Naylor's *The Women of Brewster Place* Walker's *Meridian* and Dickey's *Deliverance* Barnett finds that the widespread literary explorations of rape were almost always conjoined with one or more of the radical social movements of the sixties civil rights black nationalism women's liberation and black feminism Sexual violence emerges in these texts when the transformative possibilities articulated by sixties era liberation movements trigger and intensify imbalances of power and cultural difference for example Eldridge Cleaver's claim that he lashed out against the white power structure by raping white women This book should be of considerable interest to students and scholars of 20th century American literature as well as American Studies and African American Studies scholars interested broadly in issues of sexuality race and violence **Gender Struggles** Constance L. Mui, Julien S. Murphy, 2002 Contemporary feminist theory and postmodernism have left significant marks on how we think about practical matters most notably the old and new forms of gender struggles that many women confront in their daily lives The essays collected in *Gender Struggles* are designed to highlight those influences by addressing the following questions What is practical feminism in a postmodern world How does rethinking the nature and boundaries of philosophy affect the way we understand practical issues that we confront daily What new forms of freedom autonomy subjectivity social welfare motherhood public and private space and political resistance have emerged from this new philosophical sense Together the sixteen essays in this volume represent many different voices of feminists who boldly take up familiar everyday concerns from unorthodox vantage points within new conceptual and theoretical frameworks The essays in *Gender Struggles* address a wide range of issues in gender struggles from the more familiar ones that for the last thirty years have been the mainstay of feminist scholarship such as motherhood beauty and sexual violence to new topics inspired by post industrialization and multiculturalism such as the welfare state cyberspace hate speech and queer politics and finally to topics that traditionally have not been seen as appropriate subjects

for philosophizing such as adoption care work and the home Incorporating the latest most cutting edge material on feminism this volume aims at reaching a broad spectrum of readers by connecting postmodern feminist theory with concrete issues that are practical and relevant to their daily lives and experiences *Feminist Philosophy and Emerging Technologies* Mary L. Edwards, S. Orestis Palermos, 2023-10-17 This volume explores urgent questions surrounding the bidirectional relationship between feminist philosophy and emerging technologies It underlines the exigency of feminist philosophical reflections on the design use and understanding of emerging technologies and at the same time accentuates how emerging technologies can uniquely impact the shape of future feminist critique and intervention While feminist philosophers have attended to problems posed by a few specific technologies that emerged in the previous century especially reproductive technologies broader philosophical questions concerning the challenges various new technologies present to feminism have yet to receive the sustained critical attention they deserve *Feminist Philosophy and Emerging Technologies* responds to this problem It is divided into two sections Section 1 provides theoretical considerations about the links between feminist philosophy and philosophy of technology broadly construed by developing against the background of emerging technologies methodological approaches and guidance for bringing those two fields of philosophical research together Section 2 is dedicated to analyses of specific emerging technologies and user trends their relation to extant structures of oppression and to bringing to the fore various ways in which a feminist philosophy of technology can impact the design of current and future technologies *Feminist Philosophy and Emerging Technologies* is an excellent resource for scholars and advanced students working in feminist philosophy philosophy of technology ethics political philosophy feminist theory gender and cultural studies and science and technology studies *Feminism Unmodified* Catharine A. MacKinnon, 1987 Catharine A MacKinnon noted feminist and legal scholar explores and develops her original theories and practical proposals on sexual politics and law These discourses originally delivered as speeches have been brilliantly woven into a book that retains all the spontaneity and accessibility of a live presentation Through these engaged works on issues such as rape abortion athletics sexual harassment and pornography MacKinnon seeks feminism on its own terms unconstrained by the limits of prior traditions She argues that viewing gender as a matter of sameness and difference as virtually all existing theory and law have done covers up the reality of gender which is a system of social hierarchy an imposed inequality of power Back cover **The Long 1968** Daniel J. Sherman, Ruud van Dijk, Jasmine Alinder, A. Aneesh, 2021-12-22 Delving into a tumultuous year's impact on art culture and politics this book illuminates the often overlooked histories of 1968 *The Journal of American History* From the mid 1960s to the early 1970s revolutions in theory politics and cultural experimentation swept around the world These changes had as great a transformative impact on the right as on the left A touchstone for activists artists and theorists of all stripes the year 1968 has taken on new significance for the present moment which bears certain uncanny resemblances to that time *The Long 1968* explores the wide ranging impact of the year and its aftermath in politics theory the arts and international relations and its

uses today

Unveiling the Power of Verbal Artistry: An Mental Sojourn through **Rape The Price Of Coercive Sexuality**

In a global inundated with displays and the cacophony of fast connection, the profound energy and mental resonance of verbal art usually diminish in to obscurity, eclipsed by the constant assault of sound and distractions. Yet, situated within the lyrical pages of **Rape The Price Of Coercive Sexuality**, a fascinating function of fictional beauty that impulses with natural feelings, lies an memorable journey waiting to be embarked upon.
