Vance Smith, Smith offers a theoretical understanding of beginning that departs from the structuralisms of Edward Said the traditional formalisms of A D Nuttall and most medievalist and modernist treatments of closure Instead he views a work's beginning as a figure of the beginning of the work itself and the inception of language as the problem of beginning to which we continually return **BOOK JACKET**

Everyday and Prophetic Nick Halpern, 2003 *Everyday and Prophetic* is the first book to describe and analyze at length the prophetic voice and the everyday voice in postwar and contemporary American poetry Nick Halpern's commentaries on the work of Robert Lowell A R Ammons James Merrill Adrienne Rich Jorie Graham and Louise Glück serve the reader with a fresh and original context in which to see their work and Postwar American poetry as a whole **Tropes, Parables, and Performatives** J. Hillis Miller, 1991-12-06 *Tropes Parables Performatives* collects J Hillis Miller's essays on seven major twentieth century authors Lawrence Kafka Stevens Williams Woolf Hardy and Conrad For all their evident differences these essays from early to late explore a single intuition about literature which may be framed by three words trope parable and performative Throughout these essays Miller is fascinated with the tropological dimension of literary language with the way figures of speech turn aside the telling of a story or the presentation of a literary theme The exploration of this turning leads to the recognition that all works of literature are parabolic thrown beside their real meaning They tell one story but call forth something else Miller further agrees that all parables are fundamentally performative They do not merely name something or give knowledge but rather use words to make something happen to get the reader from here to there Each essay here attempts to formulate what in a given case the reader performatively enters by way of parabolic trope **Oral Poetry and**

Hillis Miller Reader* Joseph Hillis Miller, Julian Wolfreys, 2005 This anthology exhibits the diversity inventiveness and intellectual energy of the writings of J Hillis Miller the most significant North American literary critic of the twentieth century From the 1950s onward Miller has made invaluable contributions to our understanding of the practice and theory of literary criticism the ethics and responsibilities of teaching and reading and the role of literature in the modern world He has also shown successive generations of scholars and students the necessity of comprehending the relationship between philosophy and literature Divided into six sections the volume provides more than twenty significant extracts from Miller's works In addition there is a new interview with Miller as well as a series of specially commissioned critical responses to Miller's work by a number of the leading figures in literary and cultural studies today Following a comprehensive critical introduction by the editor each section has a brief introduction directing the reader toward pertinent themes There is also a comprehensive bibliography and a chronology of Miller's professional life and activities This reader the first of Miller's work in English provides an indispensable overview and introduction to one of the most original critical voices to have emerged since the inception of the teaching of English and American literature in universities in the English speaking world **Oral poetry and narratives from Central Arabia. 1.**

Kurpershoek, 1993-12-31 This work presents the complete collection of oral poetry of a bedouin poet in Central Arabia transcribed and translated on the basis of taped recordings an extensive glossary and chapters on i a the Najdi tradition in poetry linguistic features and prosody **One Thousand-and-one Lives, Their Beginning and Ending** Samuel Griswold Goodrich, 1876 *Negative Theology and Utopian Thought in Contemporary American Poetry* Jason Lagapa, 2017-05-11 This book explores the utopian imagination in contemporary American poetry and the ways in which experimental poets formulate a utopian poetics by adopting the rhetorical principles of negative theology which proposes using negative statements as a means of attesting to the superior unrepresentable being of God With individual chapters on works by such poets as Susan Howe Nathaniel Mackey Charles Bernstein and Alice Notley this book illustrates how a strategy of negation similarly proves optimal for depicting the subject of utopia in literary works *Negative Theology and Utopian Thought in Contemporary American Poetry* Determined Negations contends that negative statements

in experimental poetry illustrate the potential for utopian social change not by portraying an ideal world itself but by revealing the very challenge of representing utopia directly

Genetic Criticism in Motion Sakari Katajamäki, Veijo Pulkkinen, 2023-12-22 Genetic criticism investigates creative processes by analysing manuscripts and other archival sources. It sheds light on authors' working practices and the ways works are developed on the writer's desk or in the artist's studio. This book provides a cross section of current international trends in genetic criticism half a century after the birth of the discipline in Paris. The last two decades have witnessed an expansion of the field of study with new kinds of research objects and new forms of archival material along with various kinds of interdisciplinary intersections and new theoretical perspectives. The essays in this volume represent various European literary and scholarly traditions discussing creative processes from Polish poetry to French children's literature as well as topical issues such as born digital literature and the application of forensic methodology to manuscript studies. The book is intended for scholars and students of literary criticism and textual scholarship together with anyone interested in the working practices of writers, illustrators and editors.

Ideas of Space in Contemporary Poetry Ian Davidson, 2007-04-17 This book draws out connections between ideas of space in cultural and social theory and developments in contemporary poetry. Studying the works of poets from the UK and USA we explore relationships between the texts, ideas of globalization and issues of nationality, identity, language and geography.

The Beginnings of Poetry Francis Barton Gummere, 2021-11-05 In *The Beginnings of Poetry* Francis Barton Gummere embarks on an insightful exploration of the origins and evolution of poetic expression, tracing its roots from prehistoric traditions to the intricate forms of early literature. Gummere's meticulous scholarship is evident in his analysis of linguistic structures, thematic elements, and the socio-cultural contexts that shaped early poetry. Employing a blend of critical examination and engaging narrative, he reveals the organic relationship between oral traditions and the written word while deftly situating these developments within the broader literary canon.

Francis Barton Gummere (1862-1932) was a renowned scholar of English philology and literature, deeply influenced by his academic background in both classic and contemporary literary studies. His dedication to understanding poetry extends beyond mere textual analysis; Gummere's passion for language and folklore is reflected in his commitment to capturing the essence of human experience as conveyed through poetic forms. This book serves as a testament to his belief that poetry is not merely an art form but a vital aspect of cultural heritage and expression.

For readers, *The Beginnings of Poetry* is an indispensable resource that illuminates the significance of poetry as an art form and a historical narrative. Whether one is a scholar seeking a deeper understanding of early poetic traditions or a general reader intrigued by the power of language, Gummere's work provides a profound appreciation of the lyrical roots that connect us all.
