The Romulan War: Beneath the Raptor's Wing Michael A. Martin, 2009-10-20 With nothing left to lose the Romulan Star Empire engages in all out war against humanity determined once and for all to stop the human menace from spreading across the galaxy At the start of the twenty first century unconditional war swept across the Earth A war that engulfed the great and the small the rich and the poor giving no quarter Each side strove for unconditional victory and as battle built upon battle the living began to envy the dead Chastised by the cataclysm that they had unleashed the governments of Earth came together Humanity vowed to put an end to war and to strive for the betterment of every living creature A united Earth created Starfleet an interstellar agency whose mission was to explore the cosmos to come in peace for all mankind It was a naive wish that was battered by interstellar realities yet man persists in the belief that peace is the way Banding together with other powers to form a Coalition of Planets humanity hopes that the strength each can offer the other will allow for peaceful exploration However the rise of the Coalition strikes dread within the Romulan Star Empire They feel its growing reach will cut them off from what is rightfully theirs The Romulans know that the alliance is fragile that the correct strategy could turn allies into foes Perfecting a way of remotely controlling Coalition ships and using them as weapons against one another the Romulans hope to drive a wedge of suspicion and mistrust between these new allies One Starfleet captain uncovers this insidious plot Jonathan Archer of the Enterprise Determined not to lose what they have gained outmanned and outgunned the captains of Starfleet stand tall vowing to defend every inch of Coalition space until the tide begins to turn *Raptors*, 2006

Christie, James Ferguson-Lees, 2010-07-30 Covering every species of raptor on the planet this book is perfect for anyone with an interest in birds of prey Birdwatch This guide covers all the world's 313 raptor species illustrated with adult juvenile and selected immature plumages as well as main geographical races There are illustrations of over 2000 perched and flying birds some with typical prey and facing texts summarising length wingspan male to female proportion shape and flight The text is further enhanced with line drawings illustrating specific points about identification and behaviour The Raptors of Arizona

Richard L. Glinski, 2021-11-16 Thousands of birdwatchers come to Arizona each year seeking rare or intriguing species and for those watching the skies the additional sighting of a bird of prey is a reward in itself The Grand Canyon state boasts the most dramatic assortment of raptors in North America hawks eagles falcons kites and owls plus vultures and condors Here can be found nearly all the raptor species of the continental United States and also established populations of species associated with Mexico such as the Gray Hawk Common Black Hawk Zone tailed Hawk and Whiskered Screech Owl Arizona s raptors are found in an unrivaled diversity of habitats from saguaro cactus forests where tiny Elf Owls nest to the Vermilion Cliffs where the gigantic California Condor was introduced in 1996 Yet many species live in habitats that are now jeopardized by degradation or development making an understanding and appreciation of raptors crucial to their survival The Raptors of Arizona brings together the knowledge and insights of 29 raptor and wildlife authorities who provide original information and syntheses on Arizona s 42 raptor species with an emphasis on aspects of their natural history in Arizona A chapter on each bird includes its description a range map and information on its distribution habitat life history and status Additional chapters cover conservation habitats where and when to watch raptors and the sport of falconry The book is enhanced by 42 full color illustrations by Richard Sloan one of the premier wildlife artists in North America whose paintings were commissioned by the Arizona Wildlife Foundation specifically for this project Co published with the Arizona Game and Fish Department

Raptors of Texas C. Craig Farquhar, Clint W. Boal, 2022-08-24 Winner 2023 Outstanding Book Publication Award of the Texas Chapter of The Wildlife Society Diurnal raptors birds of prey that hunt during the day include easily recognizable birds like eagles hawks or falcons They may be seen perched on highway signs electrical poles or soaring overheard in urban and rural spaces across North America Here avian ecology and raptor experts C Craig Farquhar and Clint W Boal present the first comprehensive volume on these birds of prey in Texas Given the state s size location and biodiversity it is not surprising that Texas leads other states in the documented number of raptor species The introductory chapters of Raptors of Texas provide information on raptor ecology evolution behavior morphology and the unique conservation challenges raptors face in Texas and elsewhere Detailed species descriptions of Texas regularly occurring diurnal raptors come next illustrated with life like graphite drawings and accompanied by unique up to date range maps Additionally shorter entries for rare raptors sighted in the state are provided This reference is a must have for serious birders ornithologists avian ecologists and wildlife professionals who want to know more about these birds of prey and the important roles they play in our urban and rural environments alike

Raptors Keith L. Bildstein, 2017-05-02 Raptors are formally classified into five families and include birds such as eagles ospreys kites true hawks buzzards harriers vultures and falcons that are familiar and recognized by many observers These diurnal birds of prey are found on every continent except Antarctica and can thrive in seemingly inhospitable spots such as deserts and the tundra They have powerful talons and hooked beaks for cutting and tearing meat and keen binocular vision to aid in their hunting prowess Because of their large size distinctive feeding habits

and long distance flight patterns raptors intrigue humans and have been the subject of much general interest as well as extensive scientific research Keith L Bildstein has watched and studied raptors on five continents and is well prepared to explain their critical importance not only as ecological entities but also as inspirational tokens across natural and human dominated landscapes His book offers a comprehensive and accessible account of raptors including their evolutionary history their relationships to other groups of birds their sensory abilities their general natural history their breeding ecology and feeding behavior and threats to their survival in a human dominated world Biologically sound but readable Raptors is a nontechnical overview of this captivating group It will allow naturalists birders hawk watchers science educators schoolchildren and the general public along with new students in the field of raptor biology to understand and appreciate these birds and in so doing better protect them
