**Corrections: A Text/Reader** Mary K. Stohr,Anthony Walsh,Craig Hemmens,2012-03-20 Corrections A Text Reader Second Edition is designed for undergraduate and or graduate corrections courses Organized like a traditional corrections text it offers brief authored introductions in a mini chapter format for each key Section followed by carefully selected and edited original articles by leading scholars This hybrid format ensuring coverage of important material while emphasizing the significance of contemporary research offers an excellent alternative which recognizes the impact and importance of new directions and policy in this field and how these advances are determined by research

*Understanding Psychology and Crime* James McGuire,2004-09-16 This is an exceptional book that comprehensively covers the interface between psychology and criminology regarding an empirical understanding of crime It is written in an engaging and accessible manner nicely linking key themes in order to situate the contribution of psychology to theories of criminal behaviour strategies for informed practice and contemporary challenges It should prove to be an incredible resource for students but also be of interest to researchers and clinicians I cannot recommend this text more heartily Dr Ralph Serin Carleton University Canada James McGuire is one of the leading international experts on what works in reducing reoffending and he has written an extremely valuable and accessible textbook on psychology and crime The book is a clearly written well researched and up to date survey of important contributions of psychology to key criminological issues It is especially noteworthy for its illuminating reviews of cognitive social learning theories risk factors and longitudinal studies risk assessment cognitive behavioural programmes and meta analyses of treatment effectiveness Professor David Farrington Institute of Criminology University of Cambridge What contributions can psychology make to our understanding of crime How can psychological models and research help to prevent crime and reduce repeat offending This highly readable book discusses the complex relationships between psychology criminology and criminal justice Challenging the assumptions of those who object to the use of psychology within criminology this book shows how a methodical approach to the study of criminal behaviour can generate both systematic findings and practical solutions to problems McGuire argues for a broader understanding of crime based on factors such as the individual s cognitive and emotional development in addition to the influences of socialization peer groups and the social and economic environment He highlights the value of understanding pathways to offending behaviour and the critical points at which choices are made Topics include Theoretical and empirical

research foundations of criminogenic risk factors Theory turned into practice the development of offending behaviour programmes A psychological perspective on some core concepts in criminology retribution deterrence and incapacitation Major practical applications of psychology in policing prosecution and sentencing This authoritative and stimulating text is essential reading for students in criminology and psychology and for criminal justice practitioners and policy makers The Oxford Handbook of White-Collar Crime Shanna R. Van Slyke, Michael L. Benson, Francis T. Cullen, 2016-03-01 Although white collar crime has caused a substantial amount of damage on both the individual and societal levels it often ranks below street crime as a matter of public concern Thus white collar crime remains an ambiguous and even controversial topic among academics with a relative dearth of scholarly focus on the issue The Oxford Handbook of White Collar Crime offers a comprehensive treatment of the most up to date theories and research regarding white collar crime Contributors tackle a vast range of topics including the impact of white collar crime the contexts in which white collar crime occurs current crime policies and debates and examinations of the criminals themselves The volume concludes with a set of essays that discuss potential responses for controlling white collar crime as well as promising new avenues for future research Uniting conceptual theories empirical research and ethnographic data the Handbook provides the first unified analytic framework on white collar crime Given the astronomical aggregate losses to victims building a more nuanced understanding of the dynamics of white collar crime is a topic of immediate social concern The definitive resource on white collar crime this Handbook will be a valuable resource for developing both intellectual and policy related solutions

**Introduction to Criminology** Pamela J. Schram, Stephen G. Tibbetts, 2017-02-13 Introduction to Criminology Why Do They Do It Second Edition by Pamela J Schram Stephen G Tibbetts offers a contemporary and integrated discussion of the key theories that help us understand crime in the 21st century With a focus on why offenders commit crimes this bestseller skillfully engages students with real world cases and examples to help students explore the fundamentals of criminology To better align with how instructors actually teach this course coverage of violent

and property crimes has been integrated into the theory chapters so students can clearly understand the application of theory to criminal behavior Unlike other introductory criminology textbooks the Second Edition discusses issues of diversity in each chapter and covers many contemporary topics that are not well represented in other texts such as feminist criminology cybercrime hate crimes white collar crime homeland security and identity theft Transnational comparisons regarding crime rates and the methods other countries use to deal with crime make this edition the most universal to date and a perfect companion for those wanting to learn about criminology in context      **Cybercrime and Society** Majid Yar, Kevin F. Steinmetz, 2019-02-25 The Third Edition of Cybercrime and Society provides readers with expert analysis on the most important cybercrime issues affecting modern society The book has undergone extensive updates and expands on the topics addressed in the 2013 edition with updated analysis and contemporary case studies on subjects such as computer hacking cyberterrorism hate speech internet pornography child sex abuse and policing the internet New author Kevin Steinmetz brings further expertise to the book including an in depth insight into computer hacking The third edition also includes two new chapters Researching and Theorizing Cybercrime explains how criminological theories have been applied to various cybercrime issues and also highlights the challenges facing the academic study of cybercrime Looking toward the Future of Cybercrime examines the implications for future cybercrimes including biological implants cloud computing state sponsored hacking and propaganda and the effects online regulation would have on civil liberties The book is supported by online resources for lecturers and students including Lecturer slides Multiple choice questions web links Podcasts and exclusive SAGE Videos Suitable reading for undergraduates and postgraduates studying cybercrime and cybersecurity

*Criminal Networks and Law Enforcement* Saskia Hufnagel, Anton Moiseienko, 2019-06-27 This collection presents an analysis of illicit networks and discusses implications for law enforcement and crime prevention The contributors draw on a range of methodologies and apply them to diverse international criminological settings from illegal fishing in the Indo Pacific to money mule networks in the Netherlands Using a variety of examples the book elucidates how and why criminals form networks of cooperation and how they can be disrupted It is expected to be of interest to those who study criminology or criminal law as well as law enforcement practitioners      Correctional Theory Francis T. Cullen, Cheryl Lero Jonson, 2016-01-18 The text is an incredible composite of the literature that has shaped correctional practice The authors have a great capacity for making research interesting and accessible Cullen and Jonson have accomplished their goal of motivating readers to become sophisticated consumers of correctional knowledge Betsy Matthews Eastern Kentucky University The Second Edition of Correctional Theory Context and Consequences continues to identify and evaluate the major competing theories used to guide the goals policies and practices of the correctional system Authors Francis T Cullen and Cheryl Lero Jonson demonstrate that changes in theories can legitimize new ways of treating and punishing offenders and they help readers understand how transformations in the social and political context of U S society impact correctional

theory and policy Designed to motivate readers to become sophisticated consumers of correctional information the book emphasizes the importance of using evidence based information to guide decisions rather than relying on nonscientific commonsense or ideology based beliefs      **Protecting Children and Adults from Abuse After Savile** Marcus

Erooga,2018-01-18 The high profile reporting of child sexual abuse carried out by Jimmy Savile over decades has had far reaching consequences raising public awareness and concern yet we continue to uncover new cases of institutional abuse which have been taking place under the radar for years This book distils the learning from 80 public inquiries relating to Savile as well as related cases of institutional abuse and analyses the key findings It examines what we now know about offending within organisations and institutions and how organisational failures can enable abusers Each chapter also outlines solutions offering perspectives for individuals and organisations on what practical action they can take to minimise risk in the settings in which they work The book includes chapters specifically dedicated to the NHS sports organisations and schools and is necessary reading for professionals with responsibility for safeguarding in any setting      **Reaffirming**

**Rehabilitation** Francis T. Cullen,Karen E. Gilbert,2013 Reaffirming Rehabilitation 2nd Edition brings fresh insights to one of the core works of criminal justice literature This groundbreaking work analyzes the rehabilitative ideal within the American correctional system and discusses its relationship to and conflict with political ideologies Many researchers and policymakers rejected the value of rehabilitation after Robert Martinson s proclamation that nothing works Cullen and Gilbert s book helped stem the tide of negativism that engulfed the U S correctional system in the years that followed the popularization of the nothing works doctrine Now Cullen traces the social impact on U S corrections policy This new edition is appropriate as a textbook in corrections courses and as recommended reading in related courses It also serves as a resource for researchers and policymakers working in the field of corrections      **The Oxford Handbook of Environmental Criminology** Gerben

J.N. Bruinsma,Shane D. Johnson,2018-02-08 The study of how the environment local geography and physical locations influence crime has a long history that stretches across many research traditions These include the neighborhood effects approach developed in the 1920s the criminology of place and a newer approach that attends to the perception of crime in communities Aided by new technologies and improved data reporting in recent decades research in environmental criminology has developed rapidly within each of these approaches Yet research in the subfield remains fragmented and competing theories are rarely examined together The Oxford Handbook of Environmental Criminology takes a unique approach and synthesizes the contributions of existing methods to better integrate the subfield as a whole Gerben J N Bruinsma and Shane D Johnson have assembled a cast of top scholars to provide an in depth source for understanding how and why physical setting can influence the emergence of crime affect the environment and impact individual or group behavior The contributors address how changes in the environment global connectivity and technology provide more criminal opportunities and new ways of committing old crimes They also explore how crimes committed in countries with distinct

cultural practices like China and West Africa might lead to different spatial patterns of crime This is a state of the art compendium on environmental criminology that reflects the diverse research and theory developed across the western world

Production Dynamics for Life Quality in the Incipient 21st Century Chau-kiu Cheung,2022-08-18 This book addresses the life quality of the average adult in the world based on international data weighted according to national population size It rests on the theoretical framework of analytic functionalism to explain statics and dynamics in the production of life quality The statics means the influences of personal and national factors on life quality whereas the dynamics mean the changes in the influences over time This approach elucidates life quality at the personal level rather than at the national level which overlooks what happens to the average person living in the world The approach involves a broad view of the production of life quality including experiences practices and appraisals of life This production also involves personal background characteristics and the national indicators of modernization globalization and environmental issues Knowledge about the production is helpful for policymakers researchers students and other people to upgrade life quality Such knowledge is valuable because it is up to date generalizable and sensible based on the analytic functionalist theoretical framework and statistical estimation     **Modelling Norms** Corinna Elsenbroich,Nigel Gilbert,2013-07-05 The book focusses on questions of individual and collective action the emergence and dynamics of social norms and the feedback between individual behaviour and social phenomena It discusses traditional modelling approaches to social norms and shows the usefulness of agent based modelling for the study of these micro macro interactions Existing agent based models of social norms are discussed and it is shown that so far too much priority has been given to parsimonious models and questions of the emergence of norms with many aspects of social norms such as norm change not being modelled Juvenile delinquency group radicalisation and moral decision making are used as case studies for agent based models of collective action extending existing models by providing an embedding into social networks social influence via argumentation and a causal action theory of moral decision making The major contribution of the book is to highlight the multifaceted nature of the dynamics of social norms consisting not only of emergence and the importance of embedding of agent based models into existing theory     Unraveling the Crime-Place Connection, Volume 22 David Weisburd,John E. Eck,2017-11-22 Unraveling the Crime Place Connection examines in a new light how places enhance our understanding of crime and its control While there has been much work in this area focused on policy few have examined the underlying theories that inform this work Theory has played a secondary role in the criminology of place and this volume brings it to the forefront of scholarly concerns Each part and its chapters illuminate cutting edge ideas in the etiology and control of crime at place beginning with an introductory Part I Crime is often concentrated in very small geographies and Part II emphasizes the importance of capturing the dynamic nature of places in order to understand crime clustering Part III offers integrative theories on the varying contextual arrangements of places and links theories of places to other theories of individuals neighborhoods and other social contexts In Part IV theorists ask how

the actions of place owners facilitate or control crime and what policies governments can institute to regulate place management This volume will be of interest to criminologists worldwide and useful for graduate level or advanced undergraduate courses on environmental criminology or crime prevention
