D.H. Lawrence's Final Fictions Ben Stoltzfus, 2024-04-08 D H Lawrence's *Final Fictions* A Lacanian Perspective explores how literature thinks more specifically how the reading of fiction influences behavior Lawrence writes passionately about our alienation from ourselves from other people and from the cosmos He believes that we need to heed the voices of our unconscious and he shows us how to meld body and mind so that psychoanalytically speaking Id and Ego can come together In this endeavor there is a salient convergence between Lawrence's writings and those of Jacques Lacan the French psychoanalyst In this book Stoltzfus examines the poetics of seven major fictions that Lawrence wrote between 1925 and 1930 five productive years that are referred to as his fabulation period In each of the book's seven chapters in tandem with Lacan's writings Stoltzfus analyzes seven major characters four of whom move from alienation to the renewal of self and the cosmos He argues that Lawrence's fiction is simultaneously descriptive and prescriptive by showing us how to circumvent dysfunction Stoltzfus brings literature and psychoanalysis together in readings that are both aesthetic and epistemological They are recipes for curing the Anthropocene

Reading Texts, Reading Lives Daniel Morris, Helen Maxson, 2012-06-14 Our culture attempts to separate competing ideological factions by denying relationships between multiple perspectives and influences outside of one's own narrow interpretive community The distinguished essayists in this volume find Daniel R Schwarz's pluralistic self-questioning approach to what he calls reading texts and reading lives quite relevant to the current historical moment and political situation A legendary scholar of modernist literature Schwarz's critical principles are a healthy corrective to cultural hubris The essayists treat works ranging from fictions by Joyce Conrad Morrison and Woolf to the poetry of Yeats to Holocaust literature to the environmental writings of Wendell Berry to the photographs of Lee Friedlander The authors focus on different works but they follow Schwarz in stressing formal elements most often associated with traditional realism while keeping an eye on historical and author-centered approaches The essayists also follow Schwarz in their emphasis on narrative cohesion and in how they look for signs of agency among characters who possess the will to alter their fate even in a seemingly random universe such as the one depicted by Conrad Readers with eyes to ethics and aesthetics they follow Schwarz in encouraging a values-centered approach that leaves room for the reader to address the ways in which reading a text correlates to the reader's ability to find meaning and value in experience outside the text Like Schwarz the essays look for intentionality of authorial meaning rather than something called an author function as well as for the relationship between lived experience and the imagined world of the literary work rather than the endless semiotic play of an ultimately indecipherable text

Rhetoric Of The Unselfconscious In D H L Nakabayashi, Masami, 2011-10-16 In this study of the Lady Chatterley novels Masami Nakabayashi pays particular attention to D H Lawrence's language for the feelings and for the life of the unselfconscious sexual body The novels constantly find ways of verbalising the characters' internalised experiences as they occur in states of unselfconsciousness Lawrence's language for sensual feelings and emotions has always been regarded as simply sexual and no previous critics have explored or made sense of the complexities of his peculiar but extremely sophisticated writing practice in the Lady Chatterley novels Lawrence was a habitual reviser of his work and despite the availability of reliable texts in the Cambridge edition few critics have traced the nature and significance of his changes from one draft to the next By examining and analysing the novels' particular linguistic revisions Masami Nakabayashi reveals the textual impulse behind Lawrence's original conception and its subsequent change and development

The Business of Reading Julian Lovelock, 2022-02-24 In The Business of Reading Julian Lovelock charts the development of the English novel over the past hundred years Smuggling in titles from Scotland Ireland and the Caribbean he focuses on twenty texts written since the end of the First World War some well known but others less so placing them in their historical context Novelists represented range from D H Lawrence E M Forster and Virginia Woolf through Graham Greene Kingsley Amis and Iris Murdoch to such contemporary writers as Ian McEwan Maggie O Farrell and Graham Swift Written in a lucid style that reflects his expertise and enthusiasm Lovelock s innovative selection perceptive analysis and lightness of touch will appeal to the general reader the book club member and the student He argues that our response as readers is an important part of the creative process and while he mainly avoids the critical isms that have characterised recent academic debate he introduces such concepts as intertextuality metafiction and the role of the often unreliable narrator showing how an appreciation of the way the language of fiction works can only add to our understanding and enjoyment

H. Spitzer, 2023-02-21 *Secret Sharers* traces a genealogy of secret sharing between literary modernism and psychoanalysis focusing on the productive entanglements and intense competitive rivalries that helped shape Anglo American modernism as a field. As Jennifer Spitzer reveals, such rivalries played out in explicit criticism, inventive misreadings, and revisions of Freudian forms, from D. H. Lawrence's descriptions of the unconscious to Vladimir Nabokov's parodies of the psychoanalytic case study. While some modernists engaged directly with Freud and Freudian psychoanalysis with unmistakable rivalry and critique, others wrestled in more complex ways with Freud's legacy. The key protagonists of this study, D. H. Lawrence, Virginia Woolf, W. H. Auden, and Vladimir Nabokov, are noteworthy for the way they engaged with popularized and revised the terms of Freudian psychoanalysis while also struggling with it as an encroaching discourse. Modernists read psychoanalysis, misread psychoanalysis, and sometimes refused to read it altogether while expressing anxiety about being read by psychoanalysis, subjecting themselves and their art to psychoanalytic interpretations. As analysts such as Freud, Ernest Jones, and Alfred Kuttner turned to literature and art to illustrate psychoanalytic theories, modernists sought to counter such reductive narratives by envisioning competing formulations of the relationship between literature and psychic life. Modernists often expressed ambivalence about the probing symptomatic style of psychoanalytic interpretation and responded with a redoubling of arguments for aesthetic autonomy, formal self-consciousness, and amateurism. *Secret Sharers* reveals how modernists transformed the hermeneutic and diagnostic priorities of psychoanalysis into novel aesthetic strategies and distinctive modes of epistemological and critical engagement. In reassessing the historical and intellectual legacies of modernism, this book suggests that modernist responses to psychoanalytic criticism anticipate more recent critical debates about the value of symptomatic reading and the hermeneutics of suspicion.
