

Sticky Note Reading Responses

Problem:

Some students have become prone to "false reading" during independent reading time by going through the motions of reading but not truly engaging with the text.

Solution:

Make students accountable and more interactive during reading with these Sticky Note Reading Response Cards.

How:

During reading, students place a sticky note on specific events based stated on their Sticky Note Reading Response cards.

Distribution: Distribute a predetermined amount of cards to students (I usually choose 3 but of course you could differentiate). You can choose based on color of card, character on card or randomly.

- Students read through the book at least once and after reading, follow the directions on the card. As a way of differentiating, students can also record their responses on the study note.

- After independent reading, students share their responses with a partner, group, class or teacher. (This can also be used as a homework activity.)

In time, and continued use, students should be more engaged in their reading and as a result, comprehension should improve. :

Includes: 3 Response Sheets (1-4 Response Cards) (10-12 fiction responses, 3 nonfiction responses, 4 Free Choice Responses, 2 Blank Response cards for teacher to record response)
