With All, and for the Good of All Gerald E. Poyo, 1989-03-28 Cuban Americans are beginning to understand their long standing roots and traditions in the United States that reach back over a century prior to 1959 This is the first book length confirmation of those beginnings and it places the Cuban hero and revolutionary thinker Jos Mart within the political and socioeconomic realities of the Cuban communities in the United States of that era By clarifying Mart s relationship with those communities Gerald E Poyo provides a detailed portrait of the exile centers and their role in the growth and consolidation of nineteenth century Cuban nationalism Poyo differentiates between the development of nationalist sentiment among liberal elites and popular groups and reveals how these distinct strains influenced the thought and conduct of Mart and the successful Cuban revolution of the 1890s

Africans in East Anglia, 1467-1833 Richard Maguire, 2021 What were the lives of Africans in provincial England like during the early modern period How where and when did they arrive in rural counties How were they perceived by their contemporaries This book examines the population of Africans in Norfolk and Suffolk from 1467 the date of the first documented reference to an African in the region to 1833 when Parliament voted to abolish slavery in the British Empire It uncovers the complexity of these Africans historical experience considering the interaction of local custom class structure tradition memory and the gradual impact of the Atlantic slaving economy Richard C Maguire proposes that the initial regional response to arriving Africans during the fifteenth and sixteenth centuries was not defined exclusively by ideas relating to skin colour but rather by local understandings of religious status class position ideas about freedom and bondage and immediate local circumstances Arriving Africans were able to join the region s working population through baptism marriage parenthood and work This manner of response to Africans was challenged as local merchants and gentry begin doing business with the slaving economy from the mid seventeenth century onwards Although the racialised ideas underpinning Atlantic slavery changed the social circumstances of Africans in the region the book suggests that they did not completely displace older more inclusive ideas in working communities

The Politics of the Spirit Timothy J. Steigenga, 2002-05-24 The Politics of the Spirit is a masterful study of the political effects of evangelical Protestantism in

Central America Timothy Steigenga's thoughtfully crafted work questions whether the spread of Protestantism in Latin America has reinforced authoritarian elements in political culture or deepened nascent democracy Steigenga provides a thorough review of the literature on religion and politics in Latin America putting many of the hypotheses generated in this literature to the test through an analysis of comparative survey data and qualitative interviews Steigenga investigates the impact religious affiliation has on political activity and belief and the influence of cross denominational religious beliefs and practices on Latin American life His comparative work explores how different political systems the established democracy of Costa Rica and the transitional system of Guatemala impact the politics of religion This enlightening interdisciplinary book will appeal to scholars seeking to understand the relationships between religious and political change in Latin America

The Europeans in Australia Alan Atkinson, 2014-09-01 This is the third and final volume of the landmark award winning series *The Europeans in Australia* that gives an account of settlement by Britain It tells of the various ways in which that experience shaped imagination and belief among the settler people from the eighteenth century to the end of World War I Volume Three *Nation* tells the story of Australian Federation and the war with a focus as ever on ordinary habits of thought and feeling In this period for the first time the settler people began to grasp the vastness of the continent and to think of it as their own There was a massive funding of education and the intellectual reach of men and women was suddenly expanded to an extent that seemed dazzling to many at the time Women began to shape public imagination as they had not done before At the same time the worship of mere ideas had its victims most obviously the Aboriginal people and the war itself proved what vast tragedies it could unleash The culmination of an extraordinary career in the writing and teaching of Australian history *The Europeans in Australia* grapples with the Australian historical experience as a whole from the point of view of the settlers from Europe Ambitious and unique it is the first such large single author account since Manning Clark's *A History of Australia*
