*Ready to Live, Prepared to Die* Amy Harwell, 2013-02-20 Are you afraid of dying Are you hesitant to talk with those who you love about your last wishes Do you avoid the tasks that help you prepare for the future Or are you helping someone a spouse parent friend patient or client who is working through the issues of death and the quality of life When Amy Harwell found out she had rapidly progressing cancer she began a journey of discovery and faith that led her to a new understanding Once we are well prepared to die we are really freed to live With a hopefulness that never loses touch with reality Harwell accompanies her readers through the mundane tasks involving health care directives legal documents and funeral arrangement and on to the profound opportunities of saying good bye to those we love Each step of the journey offers possibilities to grow and discover God anew And Amy a seasoned traveler includes notes from her own passage useful questions and a checklist for others on the road

*Ready for Learning and Ready for Life* Betsy Gunzelmann, 2016-12-19 Many of our children are poorly prepared to face the challenges of school and growing up in our complex society The term readiness is misrepresented in the field of education this book implies a different type of readiness involving a process that can be taught and nurtured within each child Going beyond what our schools typically assess to determine readiness to attend school which is often based upon age this book addresses the synergistic aspects of readiness learning and adaptation that allow children to be optimally ready to learning and capable of handling for challenges and transitions This more holistic and interactive understanding of readiness involves not only the typical physical development but also psychological aspects including the cognitive emotional spiritual behavioral and environmental pieces The goal of this book is to provide the necessary lens through which we can see what is really hindering many children in schools today along with possible approaches and interventions typically not seen as educational in nature but what may be just the needed prescription for our ailing youth
