**Illuminating Letters** Paul C. Gutfahr,Megan L. Benton,2001 What do we read when we read a text The author s words of course but is that all The prevailing publishing ethic has insisted that typography the selection and arrangement of type and other visual elements on a page should be an invisible silent and deferential servant to the text it conveys This book contests that conventional point of view Looking at texts ranging from the King James Bible to contemporary comic strips the contributors to Illuminating Letters examine the seldom considered but richly revealing relationships between a text s typography and its literary interpretation The essays assume no previous typographic knowledge or expertise instead they invite readers primarily concerned with literary and cultural meanings to turn a more curious eye to the visual and physical

Peterson,1991-01-01 From a quantitative point of view the achievement of the Kelmscott Press may not seem impressive between 1891 and 1898 it produced fifty two books and a set of specimen pages for another book Yet each was remarkably beautiful Designed by William Morris printed on hand presses ornamented with initials and borders by Morris and illustrated often by Edward Burne Jones these few Kelmscott Press books are famous everywhere today Why they have so profoundly affected twentieth century theories of book design and what cultural significance the founding of the Kelmscott Press played are some of the questions the author considers
