## Real Answers:

**Hard Questions, Real Answers** William Lane Craig, 2003-10-17 Why doesn't God answer my prayers? If God is so powerful, why does evil exist? And if He is so good, why do we suffer? Nonbelievers and even Christians are often troubled by questions about suffering, doubt, failure, and unanswered prayer. Yet careful, compassionate answers are hard to find in part because evangelicals have not taken the life of the mind seriously enough. The intellectual currents of our day are just too strong for simplistic responses. In *Hard Questions, Real Answers*, William Lane Craig doesn't offer trite phrases or pat answers; he offers honest insights gained from a life of study and ministry. Readers in the midst of doubt and confusion will find real answers to these perplexing questions and learn to stand on the only sure foundation for hope: God Himself. This expanded new edition includes chapters on abortion and homosexuality to help readers know how to think about these volatile social issues. *Real Answers to Life's Tough Questions* James Langston, **10 Answers for Atheists** Alex

McFarland, 2012-09-28 With notable nonbelievers such as Richard Dawkins, Sam Harris, and Christopher Hitchens featured prominently in the media, it is no surprise that many Christians wonder how best to answer the growing number of atheist arguments they encounter every day. *10 Answers for Atheists* is a one-of-a-kind resource from respected Christian apologist Alex McFarland that looks closely at the philosophical assumptions at the root of atheism and agnosticism and exposes the logical, historical, and conceptual fallacies that perpetuate unbelief. Readers will find easy-to-understand charts and clear explanations of key beliefs, as well as trustworthy biblical answers to the honest questions posed by atheists and agnostics. Every reader, no matter where he or she falls on the spectrum of belief, will hear a call to thoughtful engagement with the historic Christian faith. Human Questions And Cosmic Answers Rudolf Steiner, 2024-11-18 In the case of a solar eclipse, the evil that has spread over the earth can be carried out into the cosmos to wreak more havoc there; whereas in the case of a lunar eclipse, people who absolutely want to be possessed by evil thoughts can receive them from the cosmos. In the first full translation of this lecture course, Rudolf Steiner implores his audience to recognize the connections between the material and spiritual worlds. Eclipses of the sun and moon, for example, are forces at work in the universe just like those we study today in the clinic or in the chemistry or physics laboratory. Even everyday thinking can have a strong impact on the outer world. Materialistic thought, he says, can quite literally atomize our surroundings if all human beings start to think that everything has to be explained in terms of atoms; then the earth will actually turn into atoms. These false ideas create false realities. Steiner speaks of the world of will as being three-dimensional, the world of feeling as two-dimensional, and the world of thinking as one-dimensional. The ego itself is dimensionless, and only inner living thinking can grasp the spiritual mental. He discusses key cultural figures such as Friedrich Nietzsche, Herman Grimm, and Julian the Apostate and introduces multiple additional topics, including the effect of planetary forces on humans, the healing impacts of metals and other substances, the revitalization of thinking through meditation and concentration, the effects of the separation of science, art, and religion, and
